# From The Publisher:

I'd just like to take this opportunity to bring you up to date on a few happenings here at the Carrion. No, we have not been harassed or ordered to shut down by the administration, contrary to some rumors that have been flying. No way will we buckle over. You know, sometimes I look at the sea, or the rain, or the wind, and I realize that I am stronger than they are because I can make my own decisions. We at the Carrion have decided to do this until pigs fly - we've made the right decision.

We are continuing to seek out recycled paper for our printing efforts. If you know of a source of unbleached, 100% recycled paper, please contact any Carrion staffer.

Speaking of recycling, we have heard of no more busts for recycling alcoholic glass, and we note that the snack bar - at the recommendation of a senior member of our staff - is now recycling glass as well. We thank you, and our Mother Earth thanks you as well. Oh yeah, she also says to keep recycling, or you're going to get a spanking.

The Carrion is currently talking with the staff of ROCK 101 radio about the little October 30 happening here. If you haven't heard about it, ROCK 101 and Oh Suzanna's restaurant were planning a Halloween promotion at the Silvermont mansion - supposedly haunted - when the town council, acting on the recommendation of one Reverend Moody, proprietor of WGCR gospel radio, nixed the whole shebang. (Rev. Moody actually accused ROCK 101 - on the air - of promoting Satanism. We hear that a slander suit is pending.) Thanks anyway, ROCK 101. They're not for everybody - and neither are we! Look for a story on this in the next Carrion.

We note with a slight tear in our eyes that our editor from last year, a resident of Brevard proper, has moved back to his native homeland. Thanks for everything, Chief - we'll be in touch.

We've been asked if the College has in any way helped us out on this. The answer to this unbelievably stupid question is NO WAY!! The Carrion is published with private funds only and is not laid out, printed or duplicated on Brevard College equipment. I can't believe I had to answer that question. You didn't really think Uncle Jock was in on this, did you?

Finally, we've been asked if the first issue of the Carrion is still available. It is, but in very limited quantities AS PRINTED. We will be happy to print you a copy without the cartoon and warning sticker from page two, once we deplete the original run.

Thanks for reading! Give us your articles!

# HOME COMING REFLECTIONS

Well, another Homecoming has come and gone. Overall, it was a fun event. I saw no one the whole weekend who wasn't enjoying him/herself to his/her fullest. We did get away with a lot, though some people did unfortunately get busted real hard. For them, we are sorry, and we wish them all the best in any appeals they may be making. One note to our cheerleaders: the plural of our school mascot is spelled T O R N A D O E S. And to the alumni (many of whom will see this paper) who were declared persons non grata for bringing alcohol on campus for our consumption, we're sorry, but you gotta admit, you knew it was coming, right?

# FALL BREAK

Hope you all had great Fall Breaks. If you thought yours was killer though, check out this report submitted to us. This person got home Friday night, had a few beers, spent the night at his local University, got up the following day at 6 PM, went to see the Connells, went to Acid House with the Connells, did half a dose (didn't trip much), and spent the night at Teke house. The following morning he had beer biscuits for breakfast, then went to an outdoor concert featuring Toots And The Maytals, Widespread Panic, Indecision and Paris Match. He got wasted at the show, then slept until Tuesday when he returned here.

He reports that he is very tired!
