## AND THAT'S A FACT

At first he acted quite properly. He crooned soft words, that were meant for no one else's ears. Gradually she seemed to warm up to his advances. Why was she not like others? Why was she so backwards? Finally he lost all control of himself. He spun her around several times. He kissed her none too gently. He grew red in the face, and let out several violent oaths. It certainly is hard to start a Ford on a cold morning.

## PREDICAMENT

You know, I really have just one desire in this world. I'd like to be a collegiate.

I'd like to wear a loud sweater, and

those hoop skirt dresses, with acoon-skin coat, and not wear stockings.

I'd like to pull college stickers on my car, and learn to play a ukulele, and sing those cute college songs, and fill a date each night.

But really you know, I've hardly got time enough for all that stuff.

## ADVICE FOR THE NEW SEMESTER

"Build for yourself a strong box.  
Fashion each part with Care,  
Fit it with clasp and pad-lock,  
And put all your troubles there.  
Hide there in all your Failures  
And each little cup you quaff;  
Lock all your heart aches within it,  
Then sit on the lid and Laugh."

Use your head. That is what you  
Are here for. Don't say it isn't true  
For we have the facts and "Poetry"  
to

Prove it is the sensible thing to do.  
The woodpecker is responsible for  
the facts

And Shreveport Gusher is "Dad" of  
the "Poetry."  
Here it is:

"A woodpecker pecks out a great  
many pecks,  
Of sawdust when building a hut;  
He works like a Nigger to make the  
hole bigger,  
He won't bother with plans of cheap  
Artisans;  
But there's one thing can rightly be  
said,  
The whole excavation has this ex-  
planation—  
He builds it by using his head."

And then we have the traffic jam  
song: "Denting Tonight".
