What do you think?

What do you think about the proposal made by Dean Cell and its consequences, especially concerning Dean Croslan?

— If Dean Croslan doesn't do what she's doing now, who will? They've got to start thinking about minorities. If Cell has the power to move Dean Croslan around, the other administrators on campus will be able to do the same. All in all, the final decision is Croslan's.

Elmarie Erwin, International Studies Major, Senior

— The proposal was ludicrous, uncaring, and hastily thought out. I don't think it's needed. I think Crosland would be right if she resigned because she wouldn't accomplish anything in the position they'd give her. She would definitely be giving up power.

Tim B. Cousar, Business Administration Major, Freshman

— Funny how people who didn't have much to do with minority recruitment can judge and make decisions for minorities. Cell hasn't worked with them, so how can she make such decisions? Her actions on the proposal and her response to the proposal are really questionable.

Lesley Renwick, Advertising Major, Junior

— If they can do that in counseling, they can do that in all administration. All students everywhere will be affected if no one cares what students think. Her [Cell's] tactics showed how unwilling Arts and Sciences is to truly work with students.

Jennifer Galloway, RTVMP Major, Freshman

— Very smart (rather underhanded) move for this white institution to dilute the leverage the blacks have on this campus. They continue to abolish positions that are helpful to the black community. But we're not as dumb as they think we are.

Vince Jenkins, Biology/Pre-Med Major, Sophomore

— You try to get ahead and they knock you right back down. You get a little power, and they'll take it away from you. I'm really tired of this university and its belittling policies they try to get away with.

Gina Devose, Education Major, Sophomore
