

ON THE YARD

Denise Brown, Wilson, N.C.,
senior

"I interned at University Directories where I had a variety of duties including making ads for publications. It provided me with job experience, because the internship was not simply being a gopher or filing papers all day."

Erin Davis, Hillsboro, N.C.,
freshman

"I worked at a summer camp for lower income housing. This summer was basically about getting ready to come to college for the first time. I will think about getting an internship next summer."

Olivia Mitchell, Greensboro, N.C., senior

"This summer I took 12 hours at summer school. And I worked about 30 hours a week to pay bills and get myself ready for my last year at UNC-CH."

"How Did You Spend Your Summer Vacation?"

"Chris Owens, Memphis, Tenn.,
sophomore

"I interned at a dot com company. As a journalism major it gave me experience in sales and marketing. I researched for a while to find an internship that would offer me everything I wanted. I would encourage anyone who wants to find a rewarding internship to start early."
