

## Go the Distance

Move, my soul  
Move on, move free  
Negativity get behind, You're bothering me  
I've got dreams to dream and places to go  
I'm not gonna stop I've too far to go  
Forget the past that's holding me back  
Strangling me as a matter of fact  
Look towards the future  
Look forward, find strength  
I have got to endure life's impossible lengths  
Move on and on my weary feet  
Its not over yet I have obstacles to defeat  
Life throws these curve balls for us to break  
But all they do is jolt me awake  
Awake to push bad moments behind me  
Awake to set my troubled mind free  
Awake to beat anger to it's knees  
Awake to live my life set out for me  
Awake to see evil brought down and seized  
Awake to find goodness in every person, rock, and tree  
I was told today I wouldn't make it that I couldn't go the distance  
But just like in football I called for the defense  
Go the distance faith, they said you couldn't take it  
Go the distance love, they said you wouldn't make it  
Go the distance peace, you're ready to journey  
Go the distance truth, there is no need to worry  
Go the distance responsibility, find strength in your work  
Go the distance courage, dust off all the dirt

Carry on through the storm  
There's much to do  
Don't stand back and watch  
Feet heavy with glue  
Give it your all, one chance today  
You can't afford to walk away  
And then cry with glory, honor, and enchantment  
Shout the battle cry full of thunderous armament:  
"I've gone the distance and I am still on my feet. I have  
gone the  
distance and I  
will not be beat.  
Carry on, my soul, move on move free. I have gone the  
distance and I am  
still  
standing!"
