

THE

PILOT

Gardner-Webb College

THURSDAY, FEBRUARY 26, 1976

BOILING SPRINGS, NORTH CAROLINA

Students Main Revenue Source

Gardner-Webb students account for 64 percent of the college's income through the payment of tuition and fees.

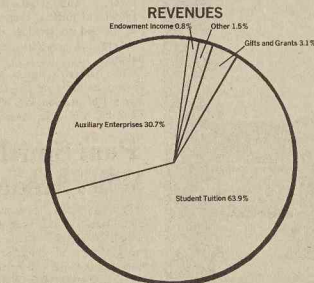

According to a statement of current fund revenue and expenditures released by the faculty's Budget Advisory Committee, student tuition and fees amount to 63.9 percent of Gardner-Webb's annual revenues.

These payments include tuition charges and special fees for art and music, testing and late registration, parking and library fines.

Auxiliary enterprises operated by the college account for most of the remaining revenue.

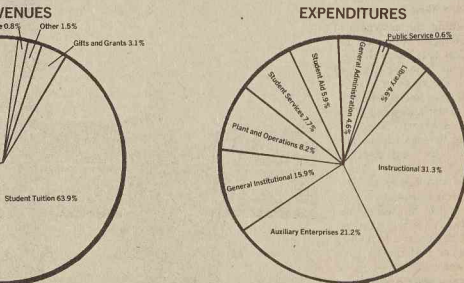

Income received from the cafeteria, residence halls, athletics, bookstore, rent and camp totals 30.7 percent.

Additional revenue is received from gifts and grants (3.1 percent), endowment and trust income (0.8 percent), and other sources such as temporary invest-

ments and interest income (1.6 percent).

The College's greatest expenditure is for instructional services with 31.3 percent of the revenue being spent on

Charts Explain Percentages of Revenue Sources and Expenditures Made by Gardner-Webb During the Past Fiscal Year.

faculty salaries, student instruction and departmental budgets. An additional 4.6 percent is allocated to the library for books, supplies and salaries.

Operation of the auxiliary (cafeteria, bookstore, residence areas and athletics) account for 21.2 percent of the expenditures. The third-greatest outlay is in the general institutional area where 15.9 percent of the income is spent for alumni, development, and public relations functions, graduation, legal counsel, telephone and postage costs, dues and memberships.

Expenditures for maintenance of the physical plant (vehicles, equipment, utilities, insurance and supplies) totals 8.2 percent.

Student services such as the registrar, admissions, SGA, student personnel, college minister, health services and religious activities account for 7.7 percent of Gardner-Webb's spending during a year.

The remaining 11 percent is divided among unrestricted student aid (5.9 percent), the general administration (4.6 percent), and the operation of the public service radio station WGWG (0.6 percent). Expenses in the general administration area include employee benefits and the operations of the offices of the president, vice president and business staff.

The statement of current fund revenue and expenditures was prepared by the faculty committee from information contained in the College's annual audit report for the year ending June 30, 1975. The various categories are those recommended by the American Institute of CPA, in connection with the National Association of College and University Business Managers.

Students, Trustees Meet

Tomorrow, 16 students will meet with the Board of Trustees to discuss some objectives and desires of the student body and to attempt solutions to any proposals which may arise.

The students who will meet with the Board are: Randy Alexander, Bill Baucum, June Carroll, Diana Crumpton, Bob Dominy, Paula Guldge, Larry Honeycutt, Tony Leigh, Charlotte Meyer, Sherry Setzer, Joy Suther, John Sutton, Rick Trexler, Renee Warren, Tab Whitley, and Pam Wilson.

Four main committees from the Board of Trustees are, Tone and Character, Public Relations, Finance, and Curriculum. Four students will meet with each committee.

There are three main objectives which all the students will discuss with their respective committees. The most important and most urgent one is the issue of getting the faculty's salaries raised. The second objective is re-doing the old tennis courts, building new ones, and adding a practice walk. The third topic is the ques-

tion of a need for an entirely new gym complex rather than remodeling and adding onto the old gym.

Each committee will discuss more specific topics also. The Curriculum committee will talk about such topics as the CLEP tests and the updating of information about classes.

The Finance committee will discuss such topics as the need for more money for the performance groups, the immediate need for a Financial Aid Director, and appropriations in the cafeteria budget.

The Public Relations committee will be discussing the definite need for trustees and advisors to visit the campus, meet with students, and learn what concerns them the most. Also discussed will be the updating of the information and pictures in the catalog, pamphlets, and VIP folders.

Main objectives to be discussed in the Tone and Character meeting are the building of more and better sidewalks around campus, the need for better treatment of dorms during summer camp

sessions, and longer hours in the library, CID, swimming pool, music building and gym.

SGA President Rick Trexler feels that this meeting "is a big step forward in better relations and communications between students and administrative personnel." He also hopes many new ideas and reforms will be enacted during the meeting.

Tour of Holy Land Scheduled

A tour of the Holy Land and Greece is being arranged and led by Drs. Alice Cullinan and Vann Murrell through Wholesale Tours International.

The tour will depart from New York on May 31 instead of May 30 as originally planned. It is open to anyone wishing to go; not just Gardner-Webb students.

The cost of the tour is \$898. This fee includes round-trip air fare from New York, all room expenses and all food expenses.

Dr. Cullinan revealed one interesting advantage about leaving on May 31. It seems

May 31 is the last day to leave before tourist rates go into effect. If, for example, the tour was to leave on June 1, the cost would be \$1098, \$200 more than any other time in the year.

In order to plan the tour adequately, a \$100 deposit is required by March 15. Originally, the deposit was required by next Monday, but more time has been allowed for payment.

Another advantage of this tour is that students may earn three hours credit in Biblical Studies. In order to know more fully the require-

ments for this credit, one should contact either Dr. Cullinan or Dr. Murrell.

The tour will include Athens, Greece; Amman, Jordan; and surrounding areas; Jerusalem, Nazareth, Capernaum, Bethlehem, Qunran and other cities and sites in this area.

Dr. Cullinan has never toured this area of the world and feels "that this experience will help to make the Scriptures more meaningful to me and the people traveling on the tour, and will help to deepen our Christian experience."
