

Blaise Pascal was a famous French mathematician and physicist of the 17th century. He is famous for many things, one of them being "Pascal's Wager." His wager has been ridiculed and questioned for hundreds of years, but it's basis is profound and thought-provoking. It is in defense of God's existence and our need to turn to Him versus those who say there is no God. He basically said -

"If I am wrong and you are right, I've gained nothing and you've gained nothing. But if I am right and you are wrong, I've gained everything and you've lost everything."

In the Bible in John 6:44, Jesus said, "No one can come to Me unless the Father who sent me draws him." Has God been drawing you? Are you trying to fill that emptiness inside with something besides God? He created you to know Him. He loves you and He wants you to "gain everything." Let us help lead you into a personal relationship with God through His son, Jesus Christ. See you Sunday!!

Got questions about life? Does God seem a million miles away? Need someone to bounce things off of? Email a friend at reallife@freedombaptist.org. God loves you and so do we!!
