## Bickett Hall

Bickett Hall is a dormitory for the housing of all men boarding students. It is located on the southeast side of the college campus opposite Kennedy Dining Hall.

The original structure was a private hospital. It was purchased by the institution and converted to a girls' dormitory. As the school grew the building was changed to a boys' dormitory, and at this time it was rebuilt from a wooden structure to a brick structure.

In 1952, the building was remodeled and a completely new up-to-date wing was added for upper-class young men. The building is of colonial design, and has all activity and comfortable living. It is a two-story brick building designed to house 150 students.

The entire dormitory was painted in September, 1963. It contains beautiful guest rooms, a TV room, and two reception rooms. The TV room has been remodeled and new furniture bought.

Life in the mens' residence hall is a part of the general educational process of the college. It provides opportunity to develop those qualities of character which make for responsible citizens.

The program in Bickett Hall is committed to the following objectives: To contribute to the development of initiative and self-direction in the individual.

To contribute to the development of politically responsible citizens through experiences in democratic group living.

To develop social adequacy through the social graces.

To provide an atmosphere conducive to study.

To provide sanitary and comfortable living conditions and space for recreation.

Through counseling and general supervision, the dormitory direction aids the students in their development of self-reliance, initiative, and a spirit of love and sacrifice as well as appreciation for other human beings.

LINTON BURNHAM

## Student Portrait Of Mr. Burnham

"To give the best that I have to my students," was the remark given by Mr. Linton Eugene Burnham, a psychology and education instructor of Winston-Salem State College in a recent interview.

In a recent survey conducted on the campus on the personalities of instructors, I found that Mr. Burnham ranks high among the student body as an ideal teaching instructor.

Burnham is a native of Philadelphia, Pennsylvania and a graduate of Elizabeth City State Teachers College.

He has a bachelor of science and master of art degree in Psychology. He has numerous awards in other fields.

Burnham said that in the light of things in our world today, all college students should acquire a sound education. Education goes further than teaching one, but it should also enable one to adjust himself in a society.

He also stated that if the young people of today hope to achieve anything in life, they must start now.

His ambitions are to strive to be the best and to help students as much as possible.

Burnham thinks that Winston-Salem State College is the ideal school, and has an excellent curriculum for any individual to attain a good education.

He spends his leisure time reading and listening to progressive music.

He is married to the former Miss Marline Little of Winston-Salem and a graduate of Winston-Salem State College.
