

Welcome Chowan College Students, Faculty, and Staff

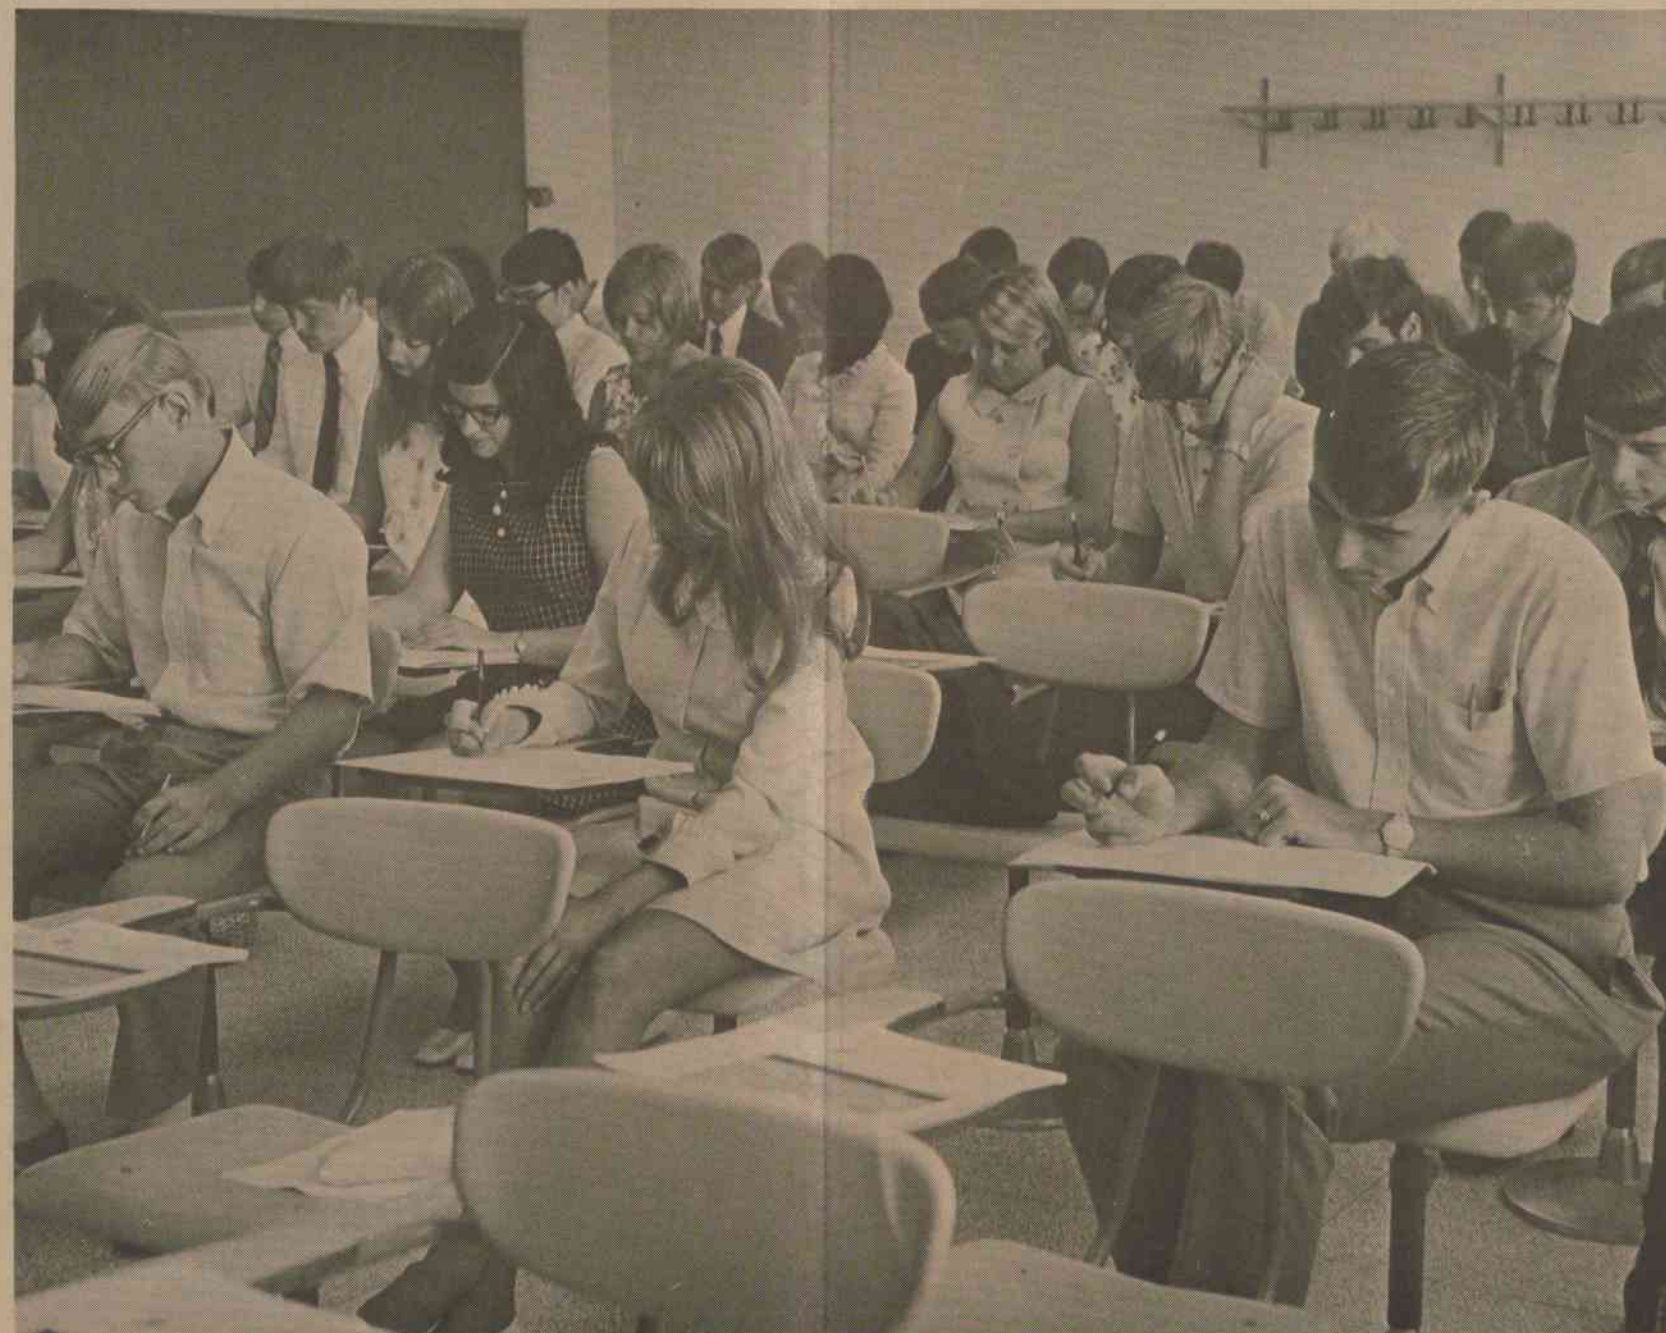

1848

Celebrating It's

1970

123rd Year

This classroom scene will be repeated many times during the year with students concentrating not only to pass a test but to indicate to the professor the progress they are making.

Everyone striving for achievement needs a goal. Above is a picture of Chowan College. It also represents the goal to which the college faculty and staff dedicate their efforts. At Chowan College such teamwork has been exemplified through its many years and should again grant the keys of success to the Classes of 1971-72.
