

Students in the Chowan College Department of Business selected Mrs. Andrea Eason as Outstanding Professor for the 1984-85 year. The award was presented by Sheri Light of Colonial Heights, Va. An Independence, Kan. native, Mrs. Eason came to Chowan in 1969. Mrs. Eason, who received her masters in business education from VPI, lives in Sunbury. Light, a Hopewell High School graduate, served as an officer in several honor business societies at Chowan. She is the daughter of Mr. and Mrs. Steve M. Light of 14416 Walthall drive.

Young students explore world of science

Twenty-seven students in grades 6-9 tried their hand at physics, chemistry and computer science experiments during Science Enrichment Week June 17-21 sponsored by Chowan's Science Department.

Jim Dewar, the coordinator, and J.P. Harris taught biology; Dr. Garth Faile, chemistry; and Mrs. Phyllis Dewar, computer science.

Dewar said the heart of science week is

providing the lab experience to the students, to give them additional exposure to science beyond what they get in school. "The students spend most of their time from 8 a.m. to 4 p.m. involved in science in the laboratory," Dewar said.

Dewar said the goal is to open up science to the average student. He said the students enjoy the relaxed atmosphere. "There's no pressure, and no grades are given. Everyone can experience success," he noted.

Science Enrichment Week campers work on an experiment dissecting and naming the parts of a frog.
