## Newspapers in 'efficiency era'

BOCA RATON, Fla. (AP) - to the use of computers and Mechanization has hurled the American newspaper into an era of production efficiency where "it is impossible to say anything is impossible," Robert M. Hederman Jr., president of the Southern Newspaper Publishers Association, said Sunday.

The publisher of the Jackson, Miss., Clarion-Ledger and Daily News gave his views in an interview as the SNPA opened its 65th anniversary convention. A short 17 years ago, type

setter equipment manufacturers said it was impossible to develop a machine to set in excess of seven lines of type a minute," he said. "Now we have the development of equipment that has the capacity of more than 1,000 lines a minute.'

Modern machinery has been necessary, he said, as an effort to stabilize the increasing costs of producing a newspaper.

"Equipment is needed—and developed-to produce more material per hour and yet be operated more simply," Hederman said.

In the newsroom, he pointed

### **Jim Gardner** lists three mistakes

HIGH POINT, N.C. (AP) — Republican Jim Gardner says he made three mistakes in his unsuccessful campaign for governor which cost him votes in North Carolina's large cities.

Underestimating the state's large Negro votes was one mistake, Gardner said Sunday night in appearing on WGHP-TV's "Focus" program.

Gardner said he also lost votes because of his last-minute switch to California Gov. Ronald Reagan at the Republican National Convention. He said he also was hurt be-

cause the state's big daily newspapers criticized him "every day" during the campaign.

But the retiring 4th District congressman said, "We aren't going to make these mistakes again.

He did not say what his 1970 political plans were, but promised. "I plan to be in the forefront of what is happening.

## Value of Cuban money decreasing

**By FENTON WHEELER Associated Press Writer** HAVANA (AP) - Money is

going out of style in Cuba, but it's not worthless yet. Most Cubana, including those in government ministries, still work for money but their dedays pendence on it is decreasing as

Prime Minister Fidel Castro turns the domestic economy toward what he describes as a genuine Communist system. Castro's idea is that eventually the state will supply all the necessities of life to its workers. His government has made a small start on the plan. In some

agricultural sectors workers now receive free food, lodging and work clothes in addition to to four beers per weekend and the free medical and educational services available to the rest of the population.

The latest trouble occurred Monday when about 50 Negro students were expelled after they staged a walkout to meet with Negro activist Howard Fuller of Durham.

Fuller helped representatives of the students who were expelled to draw up a list of grievances. Acting school Principal Fred Claytor said Thursday none of the grievances has any validity

One of the grievances charged that Negro students have been discriminated against by white teachers. Claytor said he knows of no instances in which this has happened.

He said he has never been approached by any Negro student to discuss any problem.

Claytor said one Negro boy was expelled after a fight Nov. 1 because he cut a white student in the face with a knife. He added that others involved received lesser punishments because they "weren't carrying knives and didn't cut anybody. Claytor said the students expelled this week "are working to get more students to talk out. They want to keep things stirred
