#### THE PSYCHIC BUG

Just let somebody get a good thing going and watch the whole world (or a part of anyway) try to get in on it. I refer to the considerable popularity given to things of the psychic world.

About four years ago the reading world made a fast seller of Ruth Montgomery's story of Jeane Dison's prophetic powers. ("A Gift of Prophecy," New York: William Morrow and Company, 1956.) Two years later Montgomery published her own story, "A Search for the Truth," telling how it all was done.

Since then there has been no stopping of the publications which treat the unsolved mysteries of life. On many circles you're just not "with it" if you don't communicate with the dead, see ghosts, or believe in some aspects of psychic phenomena.

My interest in the field grew out of a rather extensive study of William Blake's mysticism conducted last summer at the University of Mississippi. Leaving Ole Miss, my enthusiasm led me to purchase sporadically some fifteen books on mysticism and the psychic world, all which I have read (yea studied) almost religiously.

I have even joined a book club for mystics, and with the initial offer (four books for my collection) I received from one store to another. a psychic ball as a gift. As of this writing, however, no one has allowed me to "unleash the tremendous powers of my secret consciousness" on them.

Interesting on the subject are the following: "Exploring the Psychic World," a strange chronicle of occult experiences in ghostology, spiritualism, and other supernatural mysteries; "True Experiences in Telepathy," showing why today's supernatural phenomena may become tomorrow's staggering new science of the mind; and "The Hypnotic I," revealing how hypnosis has helped hundreds to discover psychic powers within them.

The forementioned are paperbacks published last year. Also recent are controversial writings in hardback editions: "The Other Side" by James A. Pike and "Here and

In conclusion I feel that Bob Durham did little more than stick his own foot in his mouth with that classic statement, "It is better to be thought a fool tha to open one's mouth and remove all doubt.'

Since Mr. Sutton, chairman of the Committee, was detained in a conference and could not attend the meeting, Mr. Gilbert acted as chairman. Miss Wood, Mrs. King, and Mr. Totty did not join us for this meeting in the President's Room at noon, on March 26.

The Committee voted that the minutes of the February and March meetings be published in the "Smoke Signals" and that an article written by Miss Cox explaining the appropriate attire for dinner on Wednesday nights, effective April 9, also be published in the "Smoke Signals:

At the recommendation of the student members, the Committee voted in favor of the following appropriate spring at-tire for dinner on Wednesday nights, effective April 9, 1969. FOR MEN: Short sleeve shirt and tie or dress turtleneck shirt, slacks, socks, and shoes.

FOR WOMEN: Sunday dress and heels.

The Committee approved Mr. Loving's suggestion that Mr. Art Hinkle, a resident of Gibbs House, be asked to submit sketches for decorating the entrance area of the cafeteria.

In view of the fact that cigarette smoke is offensive to non-smokers, particluarly when there is a large concentration of people, and that there is not adequate seating space in the cafeteria to permit students and faculty members to linger and enjoy smoking after a meal, the Committee recommended that the NO SMOKING rule be enforced and that a memo be sent to Dean Lowe requesting that that the faculty members should Adjournment followed.
