STUDENT NEWSPAPER OF CHOWAN COLLEGE

Volume 6—Number 9

Wednesday, March 5, 1975

## Christiana "Ki-Ki" Poll Joins Apple Blossom Festival

Chowan College coed Christiana "Ki-Ki" Poll will join Susan Ford, President Gerald Ford's daughter, and Bob Hope at the Shenandoah Apple Blossom

Festival, May 24 in Winchester, Virginia. Miss Ford was named queen of the 48th celebration of the festival. Hope has been named grand marshal of the

Grand Feature Parade.

Miss Poll will serve as princess along with representatives from many other colleges and universities. While she doesn't enjoy the "celebrity" status of

Miss Ford or Hope, she has credentials of her own. She will be in the running for an award to the princess with the most distant hometown since she is from the Truk Islands, a group of South Seas Islands located midway between New Guinea and Japan.

It's unlikely that Miss Ford or Hope possess one of Ki-Ki's talents, which is performing a grass-skirted Polynesian dance.

As Chowan's representative, the nineteen year old coed will be involved in activities from Friday afternoon, May 2, through Sunday evening. She said she's looking forward to becoming acquainted with the other princesses and meeting Miss Ford and Hope. This will be Miss Poll's first look at apple orchards. Pineapples, rather than apples, and coconuts are important crops on her island of Moen.

Ki-Ki is a typical young lady. She is the daughter of Mr. and Mrs. Saeson Poll. She has three brothers and three sisters. Her oldest sister is attending college in Aberdeen, Washington. Mr. Poll is a Truk Island Communicator, and Mrs. Poll is a nurse. Ki-Ki graduated from Maui High School in Hawaii.

Her major at Chowan College is Pre-Nursing. She is not sure where she will continue her education. She stated that she may go back to the University of Hawaii.

Among Ki-Ki's hobbies are sewing, reading, talking, and giggling. She also enjoys making collages. Ki-Ki and her roommate, Debi Berry saved a frog from being dissected and made him their pet. They named the frog George. When asked about

George Ki-Ki answered "George is really quiet!"

As for Chowan College Ki-Ki said, "I enjoy going to school here at Chowan, because I have many friends, especially my roommate."

## SGA Wanting to Sponsor "Rites of Spring" Program

The SGA is wanting to sponsor a campus wide program to be called the "Rites of Spring." The program itself will be in the form of a calendar of campus sponsored events.

The Committee in charge suggested several types of

activities including a tug-of-war, climbing a greased pole, a pie eating contest, a pie throwing contest, a faculty-student tennis match, a faculty-student softball game, a fishing contest, a car bash, and a bicycle race.

This proposed calendar of

events would take place after Easter Sunday and would last until graduation.

The "Rite of Spring" is a program in itself and will not replace the traditional "Spring Festival."

## Who Has Access To Records Without Permission

By: D. H. Nicholson  
Who has access to a student's records without the latter's permission?

In the first two issues of *Smoke Signals*, the reader of the reaser of this column has been introduced to a preliminary analysis of the so-called Buckley Amendment. The first two discussions have been centered around, respectively, the classification "educational records" and the classification "directory information." In the following paragraphs we will look at those types of individuals or agencies who do have access to a student's actual record (or to receive personally identifiable information contained therein) without the student's consent.

In the revised Educational Rights and Privacy Act, teachers, administrators, and other officials within the educational institution or local educational agency "who have been determined by such agency or institution to have legitimate educational interests" may look at the record or receive personally identifiable information contained therein without the student's consent. The act goes on to list others who may have access to such information through the transfer or otherwise of such to institutions or agen-

cies: (1) To officials of other schools or school systems in which the student seeks or, intends to enroll, upon condition the student be permitted to receive a copy of the record if desired and be permitted an opportunity for a hearing to challenge the content of the record. (2) To authorized representatives of (a) the Comptroller General of the United States, (b) the Secretary, (c) an administrative head of an education agency (as defined in the Act), or (d) State educational authorities (as cited in the Act and itemized in the last issue of *Smoke Signals*). (3) To authorities responsible for and "in connection with a student's application for, or receipt of, financial aid. (4) To State and local officials or authorities to which such information is specifically required to be reported or disclosed pursuant state statutes in effect on, or prior to, November 19, 1974. (5) To organizations conducting studies for, or on behalf of, educational agencies or institutions for the purpose of developing, validating, or administering predictive tests, administering student aid programs, and improving instruction, if such studies are conducted in such a manner as will not permit the personal

identification of students and their parents by persons other than representatives of such organizations and such information will be destroyed when no longer needed for the purpose for which it is conducted. (6) To accrediting organizations in order to carry out their accrediting functions. (7) To parents of a dependent student of such parents, as defined in section 152 of the Internal Revenue Code of 1954. And (8), subject to regulations of the Secretary of Health, Education and Welfare, in connection with an emergency, appropriate persons if the knowledge of such information is necessary to protect the health or safety of the student or other persons.

Other than what has been listed above as the exceptions, or as reported in the last issue of *Smoke Signals* with a discussion of the classification "Directory Information," or responding to judicial process, pursuant to any lawfully issued subpoena, upon condition that parents and/or the student are notified of all such order orers or subpoenas in advance of the compliance therewith by the educational

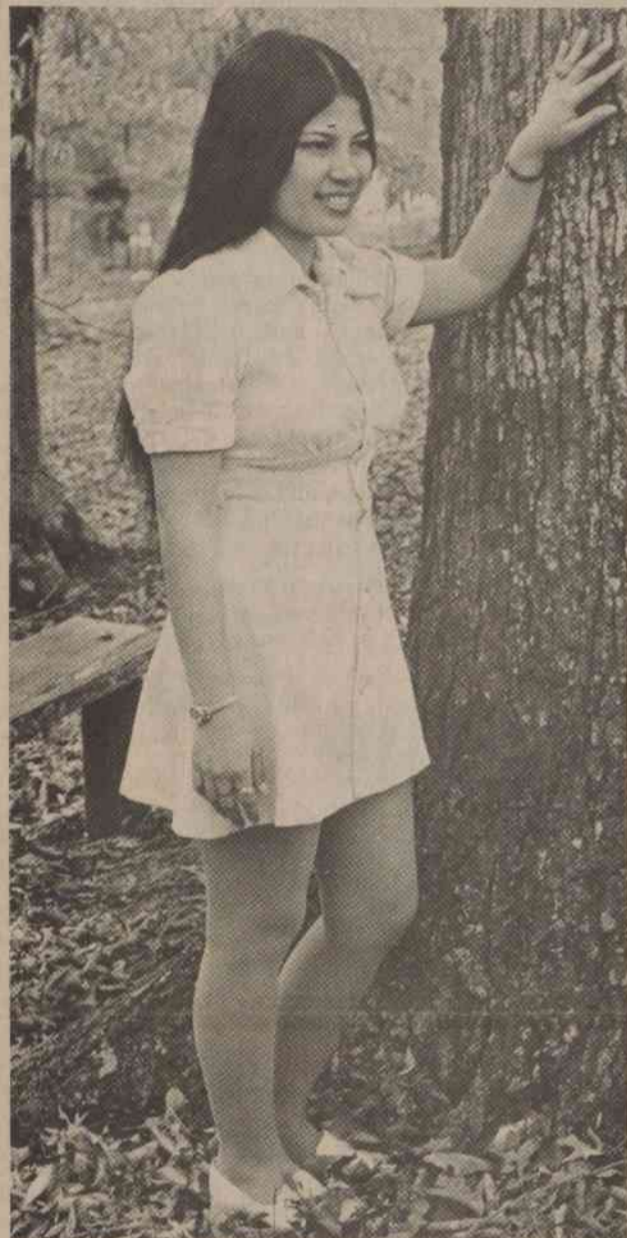

institution or agency, a college may not release "any personally identifiable information in education records or allow anyone access to those records, unless the student has given his written consent "specifying records to be released, the reasons for such release, and to whom."

In the next issue of this column, we will look at some other parts of the Buckley Amendment as these parts might relate directly to the Chowan student. For instance, we will want to look more at court orders or subpoenas. We will also look a bit closer at the access of records to third and fourth parties.

Again, it must be emphasized that any and all references to the so-called Buckley Amendment are the result of a reading and analysis by this writer of the actual section, formally known as the Family Educational Rights and Privacy Act of 1974, revised, and that the student himself should read the Act to gain a better and more personal understanding. The preceding, present, and following articles are being published as a service to the Chowan College student, but as the Act comes under more and more scrutiny from governmental agencies, perhaps decisions in court cases yet to come, and future congresses, the Act as we know it now may undergo significant change. Caveat emptor!

10 Percent Discount to Chowan Students, Faculty & Staff.

## Chowan Receives \$36,000 From Camp Foundation

Cowan College has received a gift of \$36,000 from the Camp Foundation of Franklin, Va. as part of its commitment to help finance construction of the new \$1.3 million science-engineering facility.

In February of 1974, the Camp Foundation, through its president, Robert Camp Ray, announced a \$180,000 gift to Chowan for the science building covering a period of five years. It is the largest gift ever made to Chowan by a foundation.

The facility was opened in January, 1974 and is named in honor of an alumna of the class of 1881, the late Carrie Savage Camp.

"We are very grateful for the support of the Camp Foundation," stated Chowan's president, Dr. Bruce E. Whitaker. "Through its significant grant, the Camp Foundation has played an important part in the provision of this desperately needed new facility for Chowan's students," Dr. Whitaker said.

Continued Chowan's president, "We appreciate Camp Foundation's interest in undergirding Chowan's educational program. Its financial support is helping Chowan continue to provide a quality education for its students."

Chowan's chief administrator said the new facility provides Chowan's students with the latest equipment in addition to the large, modern classrooms and laboratories. He said other features lacking in the old science building, Green Hall, built for a maximum student body of 300, but found in the new structure are the library and resource area,

lecture hall, individual faculty offices, and greenhouse.

Chowan's academic dean, Dr. B. Franklin Lowe, Jr., said the 43,600 sq. ft., three-story facility not only houses the program for the science department but mathematics department as well. "Practically every Chowan student will take at least one course in the new facility," he noted.

Dr. Whitaker said through the name selected for the new building, the entire Camp Family is honored "by calling particular attention to two of its distinguished representatives: the Rev. Robert Rishop Savage, and his daughter, Carrie Savage Camp, a Chowan alumna."

Miss Savage was one of nine graduates of Chowan Baptist Female Institute, Class of 1881. Shortly thereafter, she was married to the late James Lames Leonidas Camp, Sr. (1857-1925), one of the founders of Camp Manufacturing Co., a predecessor of Union Camp Corporation.

"Carrie Savage Camp died in 1949, having lived a long and useful life of service and devotion to her family, her church, her community, and her Alma Mater," stated Dr. Whitaker.

Her father, the Rev. Robert Rishop Savage, was a prominent Baptist minister in the area, served on the Board of Trustees of Chowan Baptist Female Institute from 1879 to 1892, and was chairman 11 years.

Miss Savage's mother, who had attended the Institute in 1854-55, was the daughter of Tilman D. Vann, a trustee of Chowan Baptist Female Institute, 1849-1865.

## Ms. Wizard, Can You Count?

Ms. Wizard, Can You Count?, and Pollution in Water are three of the subjects to be presented regional high school students and their teachers attending Science-Mathematics Day at Chowan College Friday, March 14 from 9 a. m. to 1 p. m.

Sponsored by Chowan's math and science departments, Science-Mathematics Day open to all high school juniors and seniors and their teachers of biology, chemistry, math and physics.

The program will begin with registration at 9 a. m. in the lobby of Carrie Savage Camp Hall, Chowan's new \$1.3 million science-engineering facility. Beginning at 9:30 a. m., students

## New Curfew Policy Begins March 23

By Mike Patterson

When Chowan's women students return to campus on March 23 there will be a new curfew policy in effect.

Details have not been finalized yet, but the curfew will probably be extended to 1:00 o'clock, during the week. Dean Lewis explained that the curfew had been "extended to 1:00 o'clock during the week, not so anyone can enter or leave as they like, but for the convenience of women

returning from out-of-town trips."

Under the new plan, the dorms will be secured at 11:00 o'clock and guests in the lounge will be asked to leave. There will be a Head Resident or Assistant Head Resident and a student security officer, on duty from 11:00 until 1:00.

This new curfew is for weekdays only, with dorm curfews operating on weekends as in the past.

will attend six 30-minute sessions. They will select, during each 30-minute period, from among five different subjects.

Science subjects include zoology demonstrations, Sex Life of Plants, Agricultural Chemicals, Physiograph Demonstrations, Botany Display, Open House in Greenhouse, Ms. Wizard, Pollution in Water, Biology Trail Tour, and Ah! Wilderness.

Math subjects include Why Mathematics, Can you Count?, Matrix Algebra and Single Systems, and Mathematical Systems.

Included among the sessions are four films, "Unseen

Enemies," "Food or Famine," "Is a Career in the Health Services for You," and "Pesticides."

Students will also be given the opportunity to view physics demonstrations, which will be presented from 9:30 a. m. to 12:30 p. m.

Nine science and four mathematics professors will participate aided by Chowan students. The coordinator is Dr. Garth D. Faile, chairman of Chowan's science department.

Lunch, which will be served from 12:30-1 p. m. in Thomas Cafeteria at \$1 per student, is optional.

## Cafeteria Gripe Committee

The Cafeteria Gripe Committee held this month's meeting on Friday February 21. Acting as chairman, Ben Sutton, vice-chairman, Dean Lewis, secretary, Mrs. Sarah Wright. Representative for the faculty, Carl Simmons and Dr. Carter.

The student representatives (one from each dorm) were: Jeff Reid, Harry Baird, Thomas Carella, Keith Harver, Linda Statton, and Betsy Bower. A representative from "Smoke Signals", Teresa Pike, and the S.G.A. President, Cathy Challenger. Others serving on the committee are the residents and assistant residents of the dorms, and the Food Service Director, Mr. Danny Deskins.

The purpose of the committee is the bring to the attention of Mr. Deskins constructive criticisms,

suggestions as to how to improve the cafeteria situation, and new ideas about different kinds of food to serve.

The cafeteria opens at 7:00 for breakfast and closes at 8:15. The lunch and dinner hours are 11:30 to 1:15 respectively. At each meal students are served one tray and have no limits on vegetables, breads, milk, and beverages, and only one salad and two desserts. A vegetarian is allowed two salads, two desserts and the regular, no limits on vegetables.

Discussed at the meeting Friday were the problems such as sluggish lines, late silver, and not enough dishes. Mr. Deskins explained more dishes have been ordered and should be here soon but it is very difficult to keep up with replacing the broken ones.

The problem of the late silver would most likely be abolished if more students would put their tray in the window and silver in the pans to soak so they could be washed so others could eat. Other problems discussed were the ketchup bottles and condiments were not staying filled, and finding dirty silver in the clean silver trays. To remedy the dirty silver all of it is now to be soaked before washing and rechecked after cleaned. The staff will try to be a little more efficient on keeping the condiment filled.

Mr. Deskins expressed his worries about wasted food and the cost of breaking the trays, which so called lazy students leave. It was brought to the at-

## Art Division Sponsors Ceramic Workshop

The Chowan College Division of Art will sponsor "A Drinking Vessel Workshop" in ceramics March 3-7. Jack Neff, resident potter from Penland (N. C.) School of Crafts will be the visiting artist for the workshop.

Neff will demonstrate various techniques of throwing on the potters wheel. "He will make several different types of drinking vessels and produce them in large quantities, from 200-300. Jack will also talk about glazing, firing, and will show slides of various forms of pottery," noted Doug Eubank, Chowan art professor.

The workshop will be held in the ceramics studio of Green Hall. Anyone interested in attending the workshop at anytime during the week (even for an hour) is welcome, Eubank said. There is no fee.

"We hope many will take part in this workshop and bring along their family, friends, or students," stated Eubank.

Orders for drinking vessels may be made by contacting Doug Eubank in the art department at Chowan. The prices range from \$1-\$4 for the vessels.

## Lady Braves Defeat N. C. Wesleyan

Chowan College's women's basketball team defeated North Carolina Wesleyan, 46, 37, and won by forfeit over Virginia Wesleyan to salvage two wins from its last five games.

Now 7-5, the lady Braves dropped games to Virginia Commonwealth University, 83-36; Peace, 92-52; and Christopher Newport College, 61-55.

Alph Woodard of Enfield with 15 points and 11 rebounds bed Chowan over N. C. Wesleyan. Lisa Dabney of Staunton, Va. added 12 points and six rebounds while Linda Anderson of Greenville contributed eight points and 11 rebounds. Chowan defeated the same team earlier in the season, 37-26.

Against VCU, the lady Braves lost to "an excellent team," according to Coach Janet Collins. Chowan trailed at the half, 40-27, but VCU wore the Braves down with their fullcourt press and man to man defense. Woodard was high for Chowan with 10 points followed by Anderson with nine.

Annette Guyton of Oxford

paced Chowan in losses to Peace and Christopher Newport with 15 and 26 points respectively. The Braves, who had previously defeated Newport, 62-41, trailed at intermission, 34-30. The deficit grew to 19 points in the second half behind Newport's deadly outside shooting before Chowan rallied. The Braves missed two layups in the final two minutes and lost four points in the record for line violations on foul shots. Chowan's final two games are at home against Deep Creek Dells Saturday at 2 p.m. and Atlantic Christian at 7:30 p.m. Wednesday, March 5. Chowan edged ACC, 62-60, in its fifth game.

Through 12 games, Braves' scoring leaders are Guyton with 13.9; Woodard, 13.8; and Anderson, 8.1. Guyton has the team's leading field goal percentage, .49. The top rebounders are Woodard, 9.1; Guyton, 8.6; and Dabney, 6.; Woodard and Terry Jennette of Buxton have been accurate on 60 percent of their free throws, a team-high.
