Gym Construction Ahead of Schedule

After one semester, the construction on the new Gymnasium Physical-Education Center is well ahead of schedule. Construction, which began on the complex in September, is one-fourth complete and three-fourths of the money needed to complete the project has been raised.

In a recent announcement Chowan's president Dr. Bruce E. Whitaker said the intermediate goal of \$1.5 million in pledges and gifts

was reached on December 31, 1978. He added that due to inflation the original price tag of \$2 million has been changed to \$2,150,000.

The complex, scheduled for completion in January of 1980, will occupy some 63,000 square feet and include three full-size basketball courts, two classrooms, weight room mini gym, three non-regulation handball courts, locker rooms, storage, office space, and an olympic size swimming pool.
