

Eisenhower Proposes Four Point Plan For Restrictions on Nuclear Tests

WASHINGTON AP — President Eisenhower announced today a new four-point U. S. plan for international restrictions on nuclear tests. Aimed to break the deadlock with Russia, it would exempt low power underground test explosions from the proposed ban.

Eisenhower told a news conference the plan was being introduced immediately at Geneva where the United States, Russia and Britain have been negotiating a test prohibition for more than 15 months.

In a statement, Eisenhower said the new proposal "would end forthwith, under assured controls"

1. All nuclear weapons tests in the atmosphere.
2. All nuclear weapons tests in the ocean.
3. All such tests "in those regions in space where effective controls can now be agreed to."
4. All tests "beneath the sur-

face of the earth which can be monitored."

"These are steps which offer an opportunity to consolidate the important progress made in the negotiations thus far," the President said. "It is our hope that the Soviet Union will join with us in this constructive beginning."

HAVANA AP — Commerce Minister Ral Cepero Bonilla says Cuba and the Soviet Union are "not far" from signing a trade agreement assuring steady Soviet purchases of Cuban sugar. He also Wednesday night that diplomatic hints during a TV appearance relations between the two countries, broken off during Fulgencio Batista's regime, may be resumed.

Two Teenagers Asks Forgiveness For Polish Man

EASTON, Pa. AP — Two teenagers walked into county jail today and asked forgiveness of a Polish immigrant prisoner. They told him they wouldn't be back, which, under an unusual sentencing, would effect the man's release.

Dzonizy Kazimierzczak was sentenced to a year and a day for peppering the teen-agers with shotgun pellets Halloween night. The judge ruled the youngsters, a girl and a boy, should come to the jail daily and recite, on their knees, the Lord's Prayer with the prisoner. He ruled further that the day they failed to show up Kazimierzczak could apply for parole.

The two went to the jail early today with their offer of forgiveness and request for the same from Kazimierzczak.

The warden said Kazimierzczak was silent and indicated he understood about half of what the teenagers were saying. The judge in the case, informed of the developments, said he would hear the parole petition when it is presented.

The length of the jail term parole of the Good SHAMARITA actually depended on the meaning the boy and girl derived from the parable of the GOOD SHAMARITAN.

TV Stations Should Be Permitted to Rent Equipment From Other Stations

WASHINGTON AP — Examiner Elizabeth C. Smith of the Federal Communications Commission ruled today, in effect, that High Point Television Co. should be permitted to rent some equipment and a camera crew from station WSJS-TV, Winston-Salem, N.C.

She said, however, the concern should have mentioned its leading arrangement with the Winston-Salem firm in applying for a license for a Channel 8 station.

Her ruling was made after other applicants for Channel 8 stations in the area asked her to strike from the hearing record testimony of George W. Lyles

Frogman Drowns As Boat Capsizes

SAN DIEGO, Calif. AP — Seven Navy frogmen were tossed into the ocean Thursday when heavy surf capsized their small rubber boat during a training exercise. One drowned.

The Navy said the dead man was George Thomas Phipps, 35, a boatswain first class and a 13-year veteran Navy frogman. He is survived by his mother, Mrs. Alice Phipps of 317 Maywood Ave., Raleigh, N.C.

What Are You Giving Your Loved One For Valentines?

By HAL BOYLE

NEW YORK AP — There is just one shopping day left before Valentine.

What are you buying your loved one—a cigar that explodes with a bang, or a length of hemp rope tied in a hangman's noose?

There was a time when Valentine's Day was an occasion of sweet remembrance and lovers of all kinds exchanged vows and small tokens of affection. Gifts of candy, wine or a dozen roses lent a sentimental touch.

A boy would save his pennies for days or even weeks to buy his sixth-grade sweetheart—or the one he'd like to be his sweetheart—a big lacy valentine resplendent with red ribbons and rosy cupids firing love arrows in all directions.

That's all changed now. Valentine's Day is acquiring a vinegar flavor, complete with a dash of hemlock and arsenic.

Yep, it has become a mixture of April Fool's Day, Friday the 13th, and Insult Your Neighbor Day.

Children used to exchange comic penny valentines, or mail them anonymously to a teacher. Now the grown-ups have taken up that innocent custom and made of it something downright grisly.

The humor often is no longer funny.

You get a greeting card that says, "Do me a favor for Valentine," and when you turn the page you read: "DROP DEAD!"

Wives often complain they are the forgotten people at Valentine. So, mister, if you want to surprise your wife and make a friend of her forever, why not give her a night out on the town? If you approach the subject in the right way, she'll be glad to dig into the family piggy bank and lend you the money.

But you have to be careful. I heard of one thoughtful husband who took his wife out to dinner on Valentine's day. While the waiter was pouring the champagne, the husband noted the bags under his dear mate's eyes.

Contestants Hope For Good Weather For Olympics

By JACK STEVENSON

Associated Press Sports Writer

SQUAW VALLEY, Calif. AP— "They are living again," declared Hans Urban, coach of the West German alpine team, as sunny weather returned to Squaw Valley and his skiers returned to the mountain slopes.

But fingers were crossed by officials as well as athletes hoping good weather would continue with the opening ceremony for the games just one week away.

There was a storm out in the Pacific which forecast Hal Roop said might reach the Northern California coast Friday, bringing another possibly heavy snow to Squaw Valley.

But while the sun shone, the slopes and skating rinks buzzed with activity as the international athletes skied and skated.

Two Russian women speed skaters, Klara Guseva and Lydia Skoblikova, charged there were pebbles imbedded in the speed skating rink.

Bill Kerth, director of the ice events, explained that the recent storms blew debris onto the rink. He said it must be planed down and a new surface put on. He hoped to have the new surface today.

The 60-meter ski jump was opened for the first time since the storm, but most of the jumpers awaited impatiently for the 80-meter one to be ready for use. "You don't get anything out of that one," Germany's Helmut Recknagel declared after taking the smaller jump.

Cross countries worked on a practice course at McKinney Creek

Hillbilly Girl Turns to Glamor

By BOB THOMAS

AP Movie-TV Writer

HOLLYWOOD AP — Folks back on the farm would hardly recognize Judy Canova. She's gone glamorous.

The onetime hillbilly queen sports a stylish blonde coiffure that symbolizes her new attitude toward life. After a period of inactivity, she's perking up her career again.

"This has happened to me again and again," she said. "I get times when I just like being lazy. Then I get started working again, and I get going like crazy."

What brought her back to work was her first film role in three years. Samuel Goldwyn Jr. suggested she do a role in "Huckleberry Finn." It wasn't a big role, but it involved an important comedy sequence with Huck played by Eddie Hodges.

"It's what they call a cameo role," she said. "That's the word they use to soothe an actor's ego when the role ain't so big."

She agreed to do the part largely at the request of her two daughters, 15, and 6. Now Judy's career is popping in all directions. She is working on a singing act she may take to Las Vegas and state fairs. She sings opera as well as Ozark. She may accept offers to play in summer theaters. And she has a situation comedy TV pilot that is attracting interest.

Judy's return is not due to financial necessity, she is happy to say.

"I don't have to work," she said, "Fortunately, I put the money away when it was coming in."

Trial Examiner Asks That Charges Be Dismissed

WASHINGTON AP — A trial examiner for the National Labor Relations Board ordered today that unfair labor practices charges against Overnite Transportation Co. of Asheville, N.C., be dismissed.

The charges were filed by the Teamsters Union, Local 55. A hearing on the matter was held at Asheville last July 21-22.

The trial examiner, Ralph Winkler, declined to consider the merits of the case and ordered dismissal because Local 55 had failed to meet filing requirements of federal law. He noted that local 55 had not taken exception to an earlier recommendation that the complaint be dismissed for this reason.

X15 Rocket Soars 80,000 Feet Up

EDWARD AIR FORCE BASE, Calif. AP — An X15 rocket ship soared to 80,000 feet today in a successful 11-minute flight, its highest flight yet.

The speed was announced as "over 1,400 miles an hour" but the actual figure was not given.

Scott Crossfield, test pilot for North American Aviation, Inc., was in the cramped cockpit.

The X15, one of three undergoing tests at this desert test center, was released from a B52 bomber at 45,000 feet at 10:15 a.m. and landed at 10:26 a.m. It was this ship's third successful flight.

Crime Increases in New York City

NEW YORK AP — Crime in New York City rose 1.8 per cent last year for the sixth straight annual increase. Police Commissioner Stephen P. Kennedy said in his annual report Thursday that arrests were up 1.2 per cent and felonies rose 4.8 per cent. However, there was a 4.9 per cent decrease in arrests of persons under 16, the first time since 1955 that a drop occurred in that category.

Gold Undecided on Increasing Rates of Auto Insurance

RALEIGH AP — Insurance Commissioner Charles F. Gold expects to take several weeks to decide a request for a 9½ per cent increase in private auto liability insurance rates.

The proposal, which would cost motorists upwards of five million dollars annually, was described Thursday as extremely conservative by an insurance witness at a hearing before Gold.

C. H. Graves of Hempstead, N. Y., explained he based his view on the fact that the rate request was based on two years of loss experience with each year equally weighted.

The first proposal submitted by the North Carolina Automobile Rate Administrative Office was based on 1958 loss experience alone, and it called for a 19.9 per cent increase. Gold rejected this request, mainly because it was based on loss experience for only one year, instead of the customary formula of two years' experience.

Jack Paar Cut off Air Wednesday

NEW YORK AP — Jack Paar was off the air for a few minutes Wednesday night.

A portion of his program, which is recorded on tape two hours before broadcast, was replaced by a news summary when it went on the National Broadcasting Co. network.

An NBC spokesman said "Mr. Paar told a story that NBC's department of standards and practices felt was not in good taste." The spokesman said it was "about a water closet, with double meanings."

Minister Dies

SWEET BLAIR, Va. AP — Dr. Henry Wade DuBose, 75, a leading minister of the Presbyterian Church in the United States South and a former president of the General Assembly's training school in Richmond, died here Thursday.

Funeral services will be held at 3 p.m. Friday at Westminster Presbyterian Church, Lynchburg, with burial in Spring Hill Cemetery there.

The Rev. Dr. DuBose was a native of Spring Hill, Tenn.

Ordained in 1910, he was pastor of the First Presbyterian Church of Danville, and churches in Kentucky, Alabama and South Carolina.

Since his retirement in 1954, he had supplied for several vacant pulpits, including churches in Wilmington and Laurinburg, N. C.

ECC And High Point Battle For Honors

GREENSBORO AP — The battle for offensive honors in the North State Conference apparently has settled down to a two-way fight between High Point and East Carolina.

The Panthers, just as they have all season, still lead this week with an 82.1 average. East Carolina is second at 80.3.

They are the only clubs hitting at better than 80 points per game. Appalachian is third at 76.0.

Lenoir Rhyne is the leading defensive club, having limited the opposition to an average of 64.3 points per contest. Appalachian and High Point are tied for second with 66.2 averages.

High Point is far in front in team effectiveness. The Panthers hold an average of 15.9 points a game over the opposition.

East Carolina has hit 47 per cent of its shots from the floor to lead in that department, with Appalachian second at 46.2. Appalachian is tops in free throw shooting accuracy with 78.4 per cent. The Bears also are tops in rebounds, averaging 51.9 a contest.
