THE BETTER THE PRODUCT!

Today, our sales force--and almost everyone else's--is meeting real competition in the field.

Business is more difficult to obtain and our sales organization is working hard to sell the products we make.

The better the product we produce--the higher the quality of our workmanship--the better their chance will be to meet competition.

No one individual alone can build quality into a product.

Quality depends upon the thoroughness with which every one of us performs his or her particular job. There isn't a single job in our organization that doesn't contribute in one way or another to the quality of the finished products.

There is a pride in good workmanship which a good worker always feels. But in today's situation there's something even more important than pride.

Doing our best on every job helps our sales force sell the products we make--so that we can go on making them.

* * * * *

A man worries about what the future has in store, but a woman worries about what the stores have in the future.

VOL. XIII May, 1956 NO. 3

Therefore being justified by faith, we have peace with God through our Lord Jesus Christ. —(Romans 5, 1.)

We have faith that the sun will rise tomorrow; that when we turn them on, the electric light, the TV and the radio will work . . . belief in the operation of powers we cannot see or comprehend. Why, then, does our faith in God often falter? Without it, we can have no peace.
