

## DRIVER PRAISED

The following letter was received recently from Miss Helen Kaiser, Assistant Professor in Rehabilitation in Charge of Division of Physical Therapy at the Duke University School of Medicine:

May 15, 1956

Adams-Millis Hosiery Corporation  
High Point, North Carolina

Dear Sirs:

I would like to report to you how much I appreciated the courtesy and kindness of one of your truck drivers, Mr. C. W. Elmore, who stopped to change a tire for me last Friday evening. It was just at dusk and on a stretch of Route 70 with no service stations within miles. I can assure you I was most grateful to him. As I could not re-imburse him for his trouble, I thought the least I could do would be to tell you of his good works.

Sincerely yours,

(Miss) Helen Kaiser

A fish out of water must feel about like a moth in a nudist colony!

## X-RAYS MADE

Wade Kindley, Plant #1, is shown taking advantage of the opportunity to have a free chest X-ray, as did approximately 1,255 other Adams-Millis Corporation employees when the North Carolina Health Department's mobile X-ray unit visited our plants on May 1, 2 and 11. The chest X-rays will show any signs of tuberculosis, lung tumor or abnormal heart. Employees are currently being notified of the results of their X-rays.

## CANCER DRIVE

Although no organized effort was made, employees of Adams-Millis Corporation gave \$115.10 to the American Cancer Society during its 1956 drive. This money will be used by the Society to:

1. Support an Information Center
2. Support a Service Program
3. Support a Nursing Home
4. Support a National Research Program
5. Emphasize Early Diagnosis

Since cancer now strikes one in four Americans, and in two of every three families, the disease calls for thoughtful action from everyone.

Your dollars will help save lives!!
