

MEET YOUR AMCO REPORTERS

Louise C. Tuttle, timekeeper in the Knitting Department of Plant #7, has been on our Amco News staff since 1950. Originally from Aberdeen, North Carolina, Louise first came to work for Adams-Millis as a boarder in 1940. In 1942 she left to work for the War Department, returning as timekeeper in January of 1945.

Louise's hobby is raising Dachshunds and showing them. Her dogs, along with her husband's beagles, have placed in several local shows. She is pictured above with two of her prize ones, Randy and Sandy, who were a year old in June.

Louise and her husband, Charlie, who is assistant Finishing Department supervisor at Plant #7, reside at 2500 Centennial Avenue, High Point, N. C.

PRINTSHOP FOREMAN VISITS PAPER MILL

Charlie Deviney, Jr. of the Printing Department, was recently the guest of the Eastern Paper Corporation in Bangor, Maine. The trip was made possible by Henley Paper Company of High Point and the Eastern Corporation of Bangor.

Charlie left High Point on Sunday, June 24, by Eastern Air Lines and ar-

rived in Bangor that afternoon. There he was met by Mr. Jim Barry, representative of the Eastern Corporation, and was taken to the Guest House, where they were joined by other printers and paper salesmen from North Carolina and New York.

The tour through the paper mills was an experience everyone enjoyed. "We who work with paper and have not been through a paper mill cannot realize the process it has gone through before it reaches us," Deviney said.

After three days of interesting tours, including one to Bar Harbor, and entertainment, the guests left Bangor and returned to their home by plane.
