

SANDY SAYS (cont'd. from page 2)

Then, our salesmen won't have to talk themselves hoarse in order to sell because they will know the merchandise they are representing was made by an organization of champions.

Think it over seriously and try to do your best every day. This will make your job easier and your pay check bigger. Then, too, you will be looked upon as a champion.

America By 1975

America by 1975 will be a land in which there will be a need for more than twice as many college teachers as there are now.

The National Association of Manufacturers cites an interview by Fred Stannard, Jr., reporter for the Wall Street Journal, with Dr. Ernest Hollis of the U. S. Department of Health, Education and Welfare concerning this.

Dr. Hollis pointed out that today there are 150,000 full-time teachers in 1,855 American colleges and universities and that by 1970 the teacher force will have to number 330,000.

* * * * *

But your iniquities have separated between you and your God, and your sins have hid His face from you....
—(Isaiah 59, 2.)

It is our own willfulness, selfishness, weakness, that keep us from most enjoyable living and being fully in God's love, His perfect good—and yet, His mercy forgives and accepts the truly repentant heart.

Your Profit Sharing Plan

The blue pass books for the Profit Sharing Plan are being posted, showing the entries for the year 1955, and will soon be returned to the participants in the Plan.

The low profits made by the company last year will be reflected in the company's contribution to your Profit Sharing Plan. The amount your company deposits to the Profit Sharing Plan each year depends on the profit your company makes. The total amount deposited is then allocated to each eligible employee on the basis of the individual's earnings and length of service. By working together, by producing quality work, and by making deliveries on time, all of us can help put our company in a more competitive and profitable position. As we succeed in accomplishing these goals, we not only help build larger deposits for our Profit Sharing Plan, but we also help assure ourselves of more regular work.

Each of us can contribute to our successful operations through improved quality of work and by helping to keep down waste of materials, time and supplies.

As was the case in 1947 and 1951, your pass books will show in red the earnings for the year 1955. This is due to a mark-down in market value of some government bonds held by the trustee of the Plan. By holding these bonds until maturity, we are assured they will increase in value and our earnings should show an increase in future years.
