

Kay, on September 8. Sandra is a pairer at Plant #7.

The supervisors of Plant #7, along with their families, enjoyed a fried chicken-ice cream supper at the City Lake on Saturday evening, August 25.

A daughter, Sharon Elizabeth, was born to Mr. and Mrs. Allen Allred on August 4. The mother, Christine, is a pairer at Plant #7.

Employees of the Finishing Department surprised Evelyn ("Boe") Osborne with a birthday dinner on September 6. Which birthday? Count the candles on her cake.

We extend our sympathy to J. B. Rorie in the death of his wife, Mary Rorie, on September 9. Mr. Rorie is employed in the Knitting Department at Plant #7.

A baby daughter, Shirley Diane, was born to Mr. and Mrs. Max Berrier on August 20. Shirley, the mother, is a Pairing Department employee.

Our sympathy goes to Roland Richardson and his son, James, in the loss of Roland's father and James' grandfather, R. L. Richardson, on September 2. Both Roland and James are employed in the Knitting Department.

Congratulations to Mr. and Mrs. Joe Burton on the birth of a son, Marty Gerald, on August 10. Nancy is a pairer at Plant #7.

We are glad to learn that Charlie Young is recuperating satisfactorily at

his home after undergoing surgery recently. We expect him back in the Shop just as soon as the World Series is over.

Mr. and Mrs. J. H. Creech have a new baby girl, Polly Ann, born on September 25. Agnes ("Smut") is an order clerk at Plant #7.

If you've had trouble catching fish recently, see Charlie Tuttle, Finishing Room supervisor. We understand he's had success with a new method--the "lasso method." If anyone doubts the success of this method, Forrest Edwards, Buck Mason and Bill Sink, who accompanied Charlie on a fishing trip recently, will be glad to testify.

Mary Frances Morgan and her family have returned from a wonderful vacation in New Orleans and Texas, visiting points of interest enroute. The only thing they didn't find in Texas were cowboys. However, they caught up with them at the "Grand Ole Opry" in Nashville. Mary Frances is employed in the Finishing Department of Plant #7.

Welcome to Plant #7's newcomers:
