EYE BANK FOR RESTORING SIGHT

Through your eyes the blind may be made to see. The corneal tissue, which means sight to many, can be transferred from one person to another. You can donate your eyes to be transferred at your death to someone who is blind. Through your eyes some blind person might see.

The Eye Bank for Restoring Sight has an exchange in Winston-Salem. In 1955, some fifty corneal transplants were made in North Carolina. The number of signed eye donations has reached a total of over 1,100. The demand for corneal tissues is increasing.

No eyes are bought or sold. No charge is made for any service of the Eye Bank. The expense of the bank is paid out of voluntary contributions.

The Eye Bank is set up to make arrangements to take the eyes from a per-

son who has willed his eyes to the Eye Bank. The corneal tissues, or eyes, are then transferred to some living person who is blind.

Should you care to will your eyes to the Eye Bank, you may do so by making arrangements with Eye Bank for Restoring Sight, Inc., Winston-Salem, North Carolina.

Mark of Maturity

Now at last you're 21—and old enough to vote. But growing up is just one essential—the other is, simply, thought. Don't be a don't-care voter. Think it through. Look over the candidates. Listen . . . read . . . argue. A thoughtful vote is a mark of maturity. Also a matter of pride!

SEE YOU AT THE POLLS!
