Plant No. 9 - Bettye Tuttle

Plant No. 19 - Louise Tuttle

Machine Shop - William L. Cline

Main Office - Donna Horton and Ruby Peurifoy

Composing Staff - Addline Hill, Ruth Ellington and Bertha Hester

In his autobiography, Captain Eddie Rickenbacker predicted that extrasensory perception research is in its infancy, that someday "mind reading" will be recognized as an established means of communication. This is a bit frightening. Imagine what it would be like if other people could read your thoughts, whether you wanted them to or not. Yet, it might encourage us to guard our mental gates more carefully.

Each of us is the sum total of his thoughts. What you are going to be tomorrow you are becoming today--and it is your thoughts that are shaping your destiny. Have you ever taken an inventory of the kind of thoughts you habitually think? Try it sometime. It will give you an idea of what your "total" is likely to be.

If you consistently think thoughts that are colored with hate, bitterness, jealousy, greed, distrust, poverty, failure, ill health--even grief--it is quite likely that you will have a chance to review them someday in a psychiatrist's office. If, on the other hand, you consistently slam the gates on such thoughts, you can be pretty sure of turning out to be a reasonably happy person.

--The Little Gazette

Whatever you get, get insight.--(Prov. 4:7).

With our every breath we make a decision. Every breath affirms life. Decisions are so much an integral part of us that we

hardly recognize the fact that we are making them. With God's help, we can build good judgment from within. We, by prayerful thoughts, establish a pattern of procedure from which we are motivated. This becomes the truth about us, and we find we are alight with the light of Christ.

"How long must I do unto others before they start doing unto me?"
