

GLENN PLANT

INSPECTORS' NEWS GLENN MILL

Everyone wants to thank Mr. Amos for the nice supper he gave us for Xmas. All reports from each employee said they really enjoyed it.

Mania says she sure is proud of her five (5) year pin, because when she first started to work someone made the remark they would give her three days to stay on the job. Some people sure can be snowed a few things!

Well, well! Mrs. Whitner looked out of the window one day and snouted, "No one in the Glenn mill need to worry over having a. D. as we have the Iron Lung right here in the yard." Owners rushed to look and only saw a septic tank.

Ma Carter is all smiles now. Her dog "Butch" is back home after being gone for six months.

And we want to say that each and every one welcomes our Top Sewers back again. We really miss them when they are out of work.

Mrs. Ruby Hooks really enjoyed Xmas, as she had her son, Bert Jackson from California, to spend ten days at home.

LOOPER ROOM

Hoyt and Myrtle Morgan visited relatives in S. C. over the holidays.

John and Mary Daves visited their children in Charlotte over the week-end.

Minnie Hollingsworth reported she had all of her children for supper Sat. night. Most of the rest of us had turkey, chicken, or ham.

We want to thank Mr. Amos for the Christmas Party. We wish him and his a prosperous and happy New Year.

We welcome Helen Edwards to the 18 point looper table. Hope you will like us, Helen, and stay right on with us.

In case you noticed any change in Mary Daves, she got a new car for Christmas.

LOOPING DEPARTMENT

Everyone had a nice Christmas. Carrie Banks spent Christmas with her family in Alamance. Eloise and her family spent Christmas day with her sister in Ramseur.

What do you know! Odessa Flint has a baby. She even went all the way to Ohio to "have" it. It's a little girl and three years old. Fast work, folks.

Jewel wishes to express her thanks and appreciation for the cooperation shown her brother, Hardie Brookbank, in behalf of the loss of his home due to fire during Christmas holidays.

Believe it or not, some of us have gone back to long skirts, but we hear that some of the men are even using cave man tactics.

GLENN FINISHING AND BOARDING ROOM

Hurry back, Horace. Nellie can't work until you return from the Sugar Bowl game in N. O.

Viola and Ruby P. certainly did enjoy the Party, especially Ruby! Wonder who that cute boy is Dot H. has been seen with quite a lot during Christmas? Not bad, Dot-tie, not bad.

Mannie Curtis spent Christmas with her father in South Carolina.

Glad to have one of our old hands back after being out for some time, Bonnie Cowan. Hope she will like it.

Mrs. Winters' son spent Christmas with her from Miami, Fla.

Mrs. Wood's son is visiting her from Washington, D. C.

Sure was amazing to hear one of our transfer girls tell all the exciting things she saw over the holidays.

Joe Kirkman sure did look tired after the party after being chased

by a certain girl.

Took up all Viola's time trying to keep Wayne straight. Wonder what was wrong with him?

Sorry to hear of one of the boarders, Frances Rayburn, being in the hospital. Hope she will soon be back.

Viola and Nellie spent Xmas day with their father in Raleigh. They had a real nice time.

BOYD WORRELL'S THANKS

Boyd Worrell wants to thank the Knitters and Fixers and all of his employees for the nice Christmas present that they gave him for Christmas.

NEW AUTO LAW IS EFFECTIVE JAN. 1

The 1947 General Assembly of North Carolina passed a compulsory motor vehicle mechanical inspection law which will become effective January 1, 1948. This law requires that every motor car owner in the state have his car inspected in 1948 on one of the forty "safety lanes" which will be established all over the state.

The purpose of the inspections will be to discover anything wrong with a vehicle that might lead to an accident.

For information of readers, following is the procedure that will be used in the safety lanes which will be set up all over the state after the first of the year.

As your car or truck enters the safety lane, which is approximately 160 feet long, an inspector will be at the entrance to check your operator's or chauffeur's license and vehicle registration card. It is necessary to show these credentials before an inspection can be made. You will then pay your \$1 inspection fee and the inspector will fill out an "inspection card," which will be checked throughout the lane for all types of mechanical defects. This inspection card becomes your personal property, and will be used later to aid garages and repair shops in correcting defects on your car.

You then proceed with the inspection card to the wheel alignment and steering tester. It is very important that these vital mechanisms of your car be kept in good condition at all times. You will be asked to drive the front wheels of your vehicle across the wheel alignment tester, and the reading will be recorded on your inspection card. Then the front end of the vehicle will be jacked up to check the wheel bearing and steering mechanism. After that, the car is dropped from the jack and the rear wheel alignment is recorded.

At this second post the inspector will also check the tie rod, drag links, mountings, joints, tires, horn, windshield wiper, rear mirror, windshield and other glass, license plates, muffler, and brake drag to see that they all come up to the minimum requirements.

When this check is completed, you will proceed to post number three where the lighting equipment will be checked. The inspector will test your parking and driving lights, lens and reflectors, headlights, stop light, tail light, and signal light. Special equipment will be provided for testing lights.

After the lights have been thoroughly checked and the inspection card has been punched accordingly, you will proceed to the brake tester, where your hand and foot brakes will be checked, and the grading will be recorded on the inspection card.

Now your vehicle is ready for its final grading. So you drive to the end of the safety lane, where an inspector will examine your inspection card and tabulate the results. If your vehicle measures up to the minimum requirements, a bright blue approval seal in the shape of the State of North Carolina will be stuck in the corner of the windshield. You can drive away happily, knowing your car is in good, safe operating condition. —The Echo.

Indian girl have heap plenty of fun with beau and error.

It's A Joke Son!

(The following is taken from Charley Jones' Famous "LAUGH BOOK." It is copyright material and used with the special permission of Charley Jones.)

Horse Sense

The horse walked up to the bar and asked for a martini with catsup. The bartender mixed it and the horse gulped it down, then asked: "Do you think it's strange that I'd come in and ask for a martini with catsup?"

The bartender said: "No. That's the way I like them myself."

A lot of round shouldered people get that way from always following a hunch!

Grandpa Cutplug says one can see clearer and farther into the future by the lamp of experience than by the rainbow of hope!

Deuces Wild

A Kansas preacher at the close of his sermon discovered one of the deacons asleep. He said, "We will now have a few minutes of prayer. Deacon Brown will you open?" Deacon Brown roused a bit and sleepily replied, "Open, I just dealt."

One Way of Putting It

The young matron listened attentively while her doctor prescribed a remedy for her nervous condition. "Madam," he said, "you require frequent baths, plenty of fresh air; also you should dress in warm clothes."

That evening she told her husband all about it: "The doctor said I'm in a highly distraught condition, dear, and that it is essential for me to go to Palm Beach, then to a dude ranch out west and to buy myself a new ermine wrap."

Suspended Animation

In the Ozarks, where water is used only for washing feet and running under bridges, strange ideas prevail as to just what intoxication really is. In a village one Sunday, a man lay in the middle of the street in the broiling sun. "He's drunk, I'd better lock him up," the sheriff said sympathetically. "No, he ain't drunk," a woman interrupted, "I just seen his fingers move!"

Special Delivery

A doctor was called to a house on a confinement case. The doctor went upstairs to his patient while the anxious husband remained below.

PLEASE REMEMBER

The Board of the Credit Union asks all borrowers to please remember their accounts. If you missed a payment before Christmas you are urged to catch up.

After some time the doctor came down stairs and inquired of the husband, "Do you have a little screwdriver—just a little tiny one about this size?" The required tool was supplied and the doctor returned to the patient.

Shortly he came down stairs, to say, "I need a much larger screwdriver—one about this size!"

The next trip down he asked for a small wrench. A moment or two later he returned to obtain a large wrench. Next he wanted a mallet and a chisel. All the time the anxious husband was becoming more anxious.

The straw that broke the camel's back came when the doctor once more raced down stairs and asked for the ice tongs.

"Ice tongs—what in the world you doing with all those tools? Tell me—is it a boy or a girl?"

"How do I know," said the Doc, "I can't get my medicine chest open!"

"You're a cheat!" the first lawyer accused his opponent.

"You're a liar!" the other retorted.

Then from the judge: "Now that these attorneys have identified each other, we shall proceed with the case."

Retire-Ment

Wine, woman and song
Are man's best bets—
I've lost two of them
But I can warble yet!

There was a young lady from Ni-ger,

Who smiled as she rode on a ti-ger,

They came back from the ride
With the lady inside,

And the smile on the face of the tiger.

Joe: "How do you like your job as salesman?"

Jim: "Oh, it's dandy. You meet some fine fellows at the hotels and have lots of fun in the evenings, but what I don't like is calling on all those store managers."

Lawyer (for a motor accident victim): "Gentlemen of the jury, the driver of the car stated that he was going only four miles an hour. Think of it! The long agony of my poor, unfortunate client, the victim, as the car drove slowly over his body."

Little did we think that when they started making dollar bills smaller that eventually ours would disappear altogether.

Tough Luck Lochinvar

The romeo of the 358th was'n't getting anywhere with his date. "Do you smoke?" he finally asked.

"Nah," she answered.

"Do you drink?"

She shook her head.

"Neck?"

"Nope."

"Eat hay?"

"Of course not."

"Gosh, woman," he exclaimed, "you're not fit company for man or beast."

—By Stanley J. Meyer

Asking a woman her age is like buying a second-hand car. The speedometer's been set back, but you can't tell how far.

The boy and girl were out in the highway when the car broke down. He didn't seem to mind and wanted to make love. "My kisses will put new life in you," he said. "Then for goodness sakes, get out and kiss the car," she replied sweetly.

(Marine Elec. Co.)

Three old men were discussing the ideal way of dying. The first, aged seventy-five, said he'd like to crash in a car going 80-miles-per-hour. The second, aged eighty-five, said he'd take his finish in a 400-miles-per-hour plane. "I've got a better idea," said the third, aged ninety-five: "I'd like to be shot by a jealous husband."

The whisper of a beautiful woman can be heard further than the loudest call of duty.

Here's to the pictures in your wallet. May they never meet!

We'd like to meet a woman who doesn't smoke, drink, or flirt—but for the life of us we can't figure out why.

In the Springtime a young man's fancy lightly turns to—what the girls have been thinking of all winter.

Originally developed by the Navy for use against flash burns received in combat, a non-toxic, non-irritating ointment which protects the skin from extremes of both heat and cold is now available to the public. It is especially useful for men working near blast furnaces, inside steel mills, or under sub-freezing temperatures... also a good protection against sunburn. Washes off easily.
