

### WHAT IS A FOREMAN?

If he is pleasant, he is too fa-

miliar; If he is sober-faced, he is a sour-

- puss. If he is young, he doesn't know
- anything; If he is old, he's an old stiff. If he belongs to a lodge, the mem-bers expect favors. If he goes to church, he's a hypo-

crite;

If he doesn't, he's a heathen.

If nour early. If you want to know what M. Furr's favorite dish is, it is "Persimmon Pudding." He never seem: to get enough of it, so all you gals who know how to make it, remem-ber Mr. Furr with a couple slices If he gets too much, he can always divide with his next door neighbor His next favorite dish is "Football."

We wish to express our deepest sympathy to Mabel Caviness, Knitting Dept., in the death of her father.

Eural has found a nice way to spend the evening with your girl friend. Just take her one of those large "Sugar Daddy" suckers. He says it's more fun to eat on one side while she eats on the other. Better try it some time.

We were very sorry to hear of the accident of Margaret Arrant's husband. We wish for him a

Ruth Brown has had her hair

This year it is proposed that each department plan ahead for a holiday party at the close of the last day worked before the Christmas shut-down. It is suggested that committees give thought to this arrangement well in advance and see that everyone in the group is in on the departmental party. There will be other plans and suggestions as the time approaches.

#### CONGRATULATIONS FROM **CUNA** President Farr

I want to congratulate the credit unions and the leagues for en-rolling over 150,000 credit union members during the 1948 Membership Drive.

The unselfish spirit, shown by our present members in bringing a necessary service to thousands of associates, is a true expression of the Golden Rule, and the kind of Americanism of which I am proud to be a part.

The results of the membership drive indicate that our credit union people do realize the vital part thrift and low-cost credit play, not only in times of adversity, but also in enriching the lives of our families and communities.

Further, the results of the drive demonstrate the growing ability of our credit union people to tell the story.

Your evident faith in the credit union ideal, proves to me that we will contribute mightily in this era toward giving the world an example of greater individual and combined creative power and justice. Again, congratulations!

Gurden P. Farr, President Credit Union National Association

# ACCIDENTS

Your atention is called to Shop Rules, Item 12: "Failure to Report Injuries." All employees are in-structed in two things: 1. Report to your foreman as well as Nurse, 2. Report on day and hour of accident, not hours or days later.

The responsibility is the em-ployee's to report as instructed.

# Chair" "Rocking

Listed below are social security numbers and benefit payments from N. C. Unemployment Com-mission to Melrose employees for the period ending July 31. These checks secured through unemployment commission must be paid from some source. How? The Melrose corporation is taxed. The checks are paid out of the Melrose checks are paid out of the Meirose reserve account with the commis-sion. Of course, the law requires the tax, but the tax becomes an op-erating expense the same as wage payroll; in a sense the checks are "indirect" wages paid through un-employment tax. In the long run, everyone would rather work for everyone would rather work for wages and have steady employment—get paid for work perform-ed—than to get "indirect" wages through unemployment checks.

## STRICTLY FOR THE GIRLS!

NOW IN NOVEMBER when chill winds snap and steam heat rises is the time to embark on a hand care program. Neglect your hands now and you'll rue the results through all the wintry months ahead. Care for them by months anead. Care for them by wearing gloves, giving yourself a weekly manicure. Most important of all, treat yourself to a good hand cream, and use it religiously EACH day. At bedtime, and after each use of soap and water are the empirical times. A breact we appointed times. A brand new hand cream, perfected by Ponds after years of planning, is pale pink in color, with a special, greaseless emollient that leaves no sticky residue. Apply it in leaves downward strokes to your upheld hand, to erase tiny criss-cross lines, make veins less obvious, and soften the skin. You'll keep your cuticle in the same everlasting smoothie class if you work a bit of this same pink hand cream around each nail with an orangewood stick. Better have two jars; one for your dressing table and one to use at work.

HEARD THE LATEST FASHION NEWS? Waistlines are getting higher—all eves are on the Em-pire middle! Try this exercise for keeping—or getting—a slim waist. Stand with feet 10 inches apart. Place all the spades from a deck of cards in front of your left foot, all the heart suit cards in front of your right. Keeping your knees straight, bend from the waist to pick up a spade with the right hand. Straighten and bend again to pick up a heart in your left hand. Alternate spades and hearts, hand after hand, until you've snagged all the cards in both suits for a full 26—but take it slowly at first! Start with a few cards and increase the number day by day. Good for overpadded thighs, too.

TAKE A LADY'S WORD FOR IT-there's nothing cleaner under the sun than the kind of heat you get with the new anthratube. Never a shadow of dust, never a suspicion of film in the anthratube heated home. because clean, hard coal is completely burned inside a sealed heating system. "It's hea-venly," say happy housewives. And here's the part husbands like: anthratube's even, automatic warmth doesn't cost more; it costs less than other kinds of heat! Burns the inexpensive pea size of anthracite, and uses 15 to 40 per cent less coal than other heaters. Only an ostrich would overlook looking into anthratube heating for the cold weather.

WE ALL PLAY FAVORITES. We have our favorite beau, favor-ite foods. But do you know why America's favorite medium for savings is life insurance? Answer is that this means of setting money aside for future use provides family security at the same time. More than three-fourths (78 per cent) of our families own life insurance. Second favorite way of saving is through government bonds, which are owned by 47 per cent of our families. No wonder that while the high cost of living caused other savings to drop last year, there was no decrease in our purchase of life insurance!

College bread is made out of the flour of youth and the dough of old age.

#### Hearing in Winston-Salem

A hearing on a proposed bus schedule that will directly benefit employees in Full Fashion and Glenn mills was held in Winston-Salem last Friday. The Personnel Department has been actively interested in this project since before the war. There has been voluminous corespondence and a trip to the State Commission in Raleigh. The manager of Glenn Mill, Mr. A. Glenn Smith and the Personnel Director, Mr. J. D. Boyd, were actively interested in the Winston-Salem hearing before Commissioner Johnson and each gave testimony.

The proposed bus schedule to be maintained by City Transit Company was granted a franchise. Permission was granted to start the busses Monday, November 8. Mr. Herman Fulk, manager of the transit company, stated informally that he proposed to run busses about once each hour. The schedule to be worked out in detail will go from High Point to the Oakdale district in Jamestown and return via Kivett Drive to East Washing-ton Street, making connection wi Oak Hill school and E. Green tension.

The company, as well a ees, has been interested transportation for the reason frequently it has not been possi-to employ desirable workers who wished to work in the Melrose mills but had no way of going to and from work.

Previous attempts have been made to establish a bus schedule, but they did not work out, ap-parently because workers were not willing to "give up rides" in pri-vate cars for a temporary experi-ment. The granting of the fram ment. The granting of the fran-chise to City Transit will make a permanent service possible. New homes in the sections covered by the bus will guarantee growing demand for service. The commun-ity bordering on Kivett Drive has shown real concern and interest and joined the employees and man-agement of Melrose in achieving the new arrangement for transportation.
