

# Kappas Suspended; Six Expelled

By Harold Foster

Students planning to become members of NCC's Alpha Kappa Chapter of Kappa Alpha Psi Fraternity, Inc., will have to wait one year.

The ruling is that of the Pan Hellenic Council which found the Kappa fraternity guilty of placing probates "on line" without the necessary 1.5 average. The Student Welfare Com-

mittee stepped in on the matter when it was discovered that Kappa officials had altered the cumulative averages of prospective members.

The committee ruled further on six members of the fraternity and expelled them for the remainder of the school year. Expelled were Augustus Davis, John Lawrence, Richard Mapp, Vernon Nixon, Earnest Parker, and John Perry. The suspended students appealed the Student

Welfare Committee's ruling and the matter was handed to the Executive Committee, which upheld the decision of the Student Welfare Committee. The decision went into effect immediately and the suspended students were required to leave school without completion of their semester studies.

Mrs. Eagleson, College Registrar, refused to comment, saying that the matter was in the hands of the Student Welfare Committee.

The Pan Hellenic Council, after making a "routine" check of all fraternity probates, found that the Kappas had placed more probates "on line" than for names they had submitted. The council made a check of the Kappa probates whose names had not been submitted and discovered that according to grade averages in the Registrar's office, several probates were ineligible.

The Registrar's office presented the charge to the Student

Welfare Committee, which found the six Kappas guilty of altering the cumulative averages of prospective members.

It was also disclosed that the Kappa Fraternity, after receiving the decision of the Pan Hellenic Council, decided to move the fraternity off-campus so that it would not be subject to the rules and regulations of the Pan Hellenic Council. The Student Welfare Committee refused the Kappa fraternity this privilege.

INTERVIEW FOR INDUSTRY--Dr. Charles E. Scholl (right), manager of personnel administration for Burroughs Corp., is shown interviewing Cary Booker, an accounting major at NCC. Scholl and his assistant, Robert M. Coyers, interviewed 15 NCC seniors in commerce, about job opportunities, at the college (see story on page 4). The personnel manager indicated that the talent search among Negroes for jobs in industry "is only beginning."

## Koch For Student Sexual Activity

"Sexual intercourse, with modern contraceptives and medical advice readily available, should be condoned among college students sufficiently mature to engage in it," says Dr. Leo Koch in January *Campus Illustrated*, the new monthly magazine for collegians.

A biology professor, ousted from the University of Illinois for his views on sex and the collegian, Dr. Koch advocates "a great deal more freedom for college students to decide for themselves, when and how, they are to indulge their sexual desires." He also believes, "there are excellent reasons why collegians should engage in heterosexual relations before marriage."

Dr. Koch's reasons are mainly centered around individual health. "A healthy mature personality — healthy physically, emotionally and intellectually, is impossible without sexuality," says the professor. "Sexual organs are so basically integral to the human organism that they influence human behavior profoundly and inevitably. Sexuality cannot be warped without also warping the personality."

Aware that the clergy's first outcry is that greater sexual freedom among unmarriages would seriously increase the incidence of contagious venereal disease and of illegitimate pregnancy, Dr. Koch submits that "greater sexual freedom, when accompanied by intelligent educational measures, will decrease

the incidence of both disease and illegitimacy. This has been the case in Sweden. Besides which, neither venereal disease nor pregnancy are major tragedies unless they are exaggerated out of all proportions and are not properly handled."

In *Campus Illustrated*, Dr. Koch states that the most important goal in liberalizing attitudes toward sex is not more sexual experience for all, but rather a greater sexual self-responsibility and education about sex. "College students can no longer avoid sex," opines Dr. Koch. "They should participate selectively. To be specific, they should not sex without contraceptives; they should not sex with strangers; and they should not sex for the wrong reasons."

## Groups Attack Racial Segregation

In a strongly worded letter to public officials, the Durham Youth and College Chapters of the NAACP today attacked racial segregation at the Carolina Theater in Durham. Almost a year after they began picketing the Center and Carolina Theaters, the youth organization called for the City Council to take the necessary action to desegregate the city-owned Carolina Theater building. In a letter which went to all members of the City Council, the Mayor's

## Second Semester Enrollment May Reach New High

### Mordecai Johnson Addresses Vesper

Dr. Mordecai Johnson, president-emeritus of Howard University, dynamically and humorously spoke before a packed B. N. Duke auditorium recently.

He spoke from the theme, "Christianizing Society." Stating that man does not realize how close he is to the teachings of Christ in "the Kingdom of God is at hand," he expounded at length saying, "Repent and believe, regardless of the fact that we are living in dangerous times." He further interrelated Christianizing society by stating that Christ's first message was a social one.

Dr. Johnson continued with the thought that this new society, typified by justice, righteousness, mercy, and love has the Christian attribute of self-sacrifice. He used the present situation of the American Negro in comparison with that of the three Christians who failed to bow before the idol gods.

#### Scientific Intelligence

A distinguished clergyman and educator, he continued with, "Man has in his hand scientific intelligence." He also stipulated, "Man is so close together that one could visit every group on the face of the earth for less than the cost of a 1962 Ford." With the former illustration he added that in this age there are more governments that are answerable to the people.

With the major powers of the two leading political ideologies, Communism and Democracy, at each others throats, Dr. Johnson assured his audience that time will soon bring them to realize that they are fighting on the same side. Communism is drifting toward democracy, and democracy is drifting toward socialism. The struggle of today will probably end in a compromise.

Humorously, he proclaimed that God is looking at his peoples and laughing at man's confusion.

Prior to this formal address, Dr. Johnson commended the college choir for their excellent singing and Dr. Elder for his excellent leadership.

#### Internationally Famous

Dr. Johnson is a recipient of (continued on page 5)

Registration for the Spring semester at North Carolina College has been slated for February 1-3 with another record enrollment anticipated.

A large number of freshmen and new students is expected to push the NCC student body near the 2500 mark. Some 2340 students registered last September.

President Alfonso Elder, . . . whose emphasis at NCC is on "quality in education," has called the expanded enrollment picture "gratifying."

Orientation for freshmen and new students begins Thursday, February 1, with the administering of placement tests in English, mathematics, and French.

Psychological and reading tests will be administered Friday morning, February 2, and students will be assigned to advisers in the afternoon.

The newcomers will be registered on Saturday, February 3,

and later subjected to "personality inventories" under the guidance of Dr. Marion Thorpe, and reading tests.

Drs. Charles A. Ray, I. D. Jackson, Norman Johnson, and Eunice Newton will be in charge of English, French, psychological, and reading tests respectively.

Under Dr. Elder, who became president in 1947, the student body at North Carolina College has more than doubled in size. There has been a corresponding expansion in physical facilities with an increase of from 22 to 36 buildings conservatively valued at \$10,000,000.

The Elder impact, however, is perhaps best felt in the educator's emphasis on "quality." Nearly two-thirds of the NCC faculty members have doctorate degrees, and the college provides undergraduate, graduate, and professional training. Degrees offered range from the bachelor degree in several fields to the Ph.D. in education and the bachelor of laws.

Although recently retired as president (for 34 years) of Howard University, Dr. Mordecai Johnson still manages to pack auditoriums wherever he goes. He is shown above with Echo reporter Guytanna Horton of Pittsboro, following a vesper address which he delivered before a crowded B. N. Duke Auditorium.
