

Dr. Stephens Killed In Airplane Crash

Dr. Milton M. Stephens Jr., 37, a member of the house staff in orthopaedic surgery here from July, 1964-June, 1967, died on Friday, Aug. 16, in a plane crash which also took the lives of his wife, Mary, and his two daughters, ages 12 and 8.

Dr. Stephens and his family were flying home in their private plane to Amarillo, Texas, where he was in private practice, following a vacation at Myrtle Beach. The aircraft crashed in Mountain View, Ark. during a severe hail storm.

Burial was on Sunday, Aug. 18th, in Mrs. Stephens' hometown of Brady, Texas. Dr. Stephens is survived by his father, Dr. Milton M. Stephens Sr. of 414 S. Main, Borger, Texas, 79007.

The growing list also includes Duke's President Terry Sanford, basketball coach Bill Foster and baseball coach Enos Slaughter.

It's not an appreciation for golf that's attracting these people to that first tee. It's an appreciation for kids - and for what the Medical Center is doing to keep kids well. All proceeds from the tournament will go to support research being conducted here into childhood diseases.

The Sept. 8 spectacular has been in the back of Dr. Griffith's mind for two years. As chief of the Pediatric Neurology Division, he's been aware that some on-going pediatric research projects at Duke don't get the large grants they deserve.

For instance, an effort to find a more rapid method of diagnosing central nervous system infections in children is funded only with "seed money" from the university.

Expensive equipment is needed for another project developing non-invasive techniques for diagnosing and evaluating congenital heart disease.

So Dr. Griffith dreamed up this year's tournament to raise money for such research. And next year's will be even more star-studded.

The professor's "master plan" calls for a combined tennis-golf weekend. "It's more than just idle conversation," he said recently as he rushed to a golf course planning session.

The tournament is scheduled to begin at 10 a.m. Admission is \$2 for adults. Children are free. The golf course is off N. C. 751 at Science Dr.

Tickets are on sale in Durham at: the Young Men's Shop (downtown and Northgate), Durham Sporting on E. Chapel Hill St., Harriss Sporting Goods on Hillsborough Rd., Kerr Drugs at Lakewood Shopping Center, the Duke Golf Course pro shop and at other local golf pro shops.

In Chapel Hill, tickets are available at: the Hub Ltd. (downtown), Hackney's at University Mall, and Nowell's at University Mall.

Nine Faculty Promoted

Nine members of the medical center faculty have been promoted, Provost Frederic N. Cleaveland announced.

The promotions include four to full professor, one to associate professor and four to assistant professor.

The new full professors are Drs. Robert G. Brame, Arthur Christakos and M. Carlyle Crenshaw, all in the Department of Obstetrics and Gynecology, and Dr Vartan Vartanian in the Department of Anesthesiology.

Promoted to associate professor was Dr. Johnnie L. Gallemore in psychiatry, and promoted to assistant professor were Drs. Peter Cresswell and Jeffrey Dawson in immunology, Thomas R. Faschingbauer in psychiatry and R. Herbert Wiebe in obstetrics and gynecology.

Brame came to Duke in 1970 as associate professor of obstetrics and gynecology. Earlier he was an assistant professor at both the University of North Carolina School of Medicine in Chapel Hill and Bowman Gray School of Medicine in Winston-Salem.

He was graduated from U.N.C. in 1952 with a B.S. in medicine and in 1955 with an M.D. His internship was served at the University of Colorado in Denver, and he completed his residency at U.N.C. in 1962.

Christakos, who has been a member of the medical center faculty since 1963, holds a B.S. degree from Duke awarded in 1951 and an M.D. from the Medical College of South Carolina awarded in 1955. Both his internship and obstetrics and gynecology residency were served in Medical Center Hospital in Charleston, S. C.

Since 1970 he has also held the rank of associate professor in the Department of Community Health Sciences.

After earning a Bachelor of Science degree at Davidson College in 1952, Crenshaw attended Duke's School of Medicine, receiving his medical degree in 1956. He remained in Durham to fulfill internship and residency requirements before being appointed post doctoral fellow at Yale University School of Medicine.

Upon completion of two years in the U.S. Air Force, he joined the Department of Obstetrics and Gynecology at Duke in 1961 as an instructor. Crenshaw, who also holds appointments in the departments of pediatrics and physiology, was the first medical center professor to be named to the E.C. Hamblen Chair of Family Planning and Reproductive Medicine.

Vartanian, a native of Rumania, has been a member of the Duke faculty since 1959 when he was appointed instructor in anesthesiology. He received his undergraduate and medical educations in Rumania and was awarded the M.D. degree from that country's Cluj University Medical School in 1951.

After serving an internship, also

at Cluj University Hospitals, he travelled to Azounieh Hospital for Chest Diseases in Lebanon for a surgical residency. Later he worked as a staff physician at the Lebanon facility and then began an anesthesiology residency at Duke in 1957.

A 1960 Emory College graduate, Gallemore came to Duke as an intern in 1964 after receiving his medical education at Emory University's School of Medicine. Upon completion of a psychiatric residency, he joined the Duke staff in 1969 and has since been named associate director for undergraduate medical education. This spring he earned a J.D. degree from Duke's School of Law.

Cresswell, of Yorkshire, England, earned a B.Sc. from the University of Newcastle-upon-Tyne in 1966 and a Ph.D. in microbiology from the University of London in 1971. After a post-doctoral fellowship at Harvard, he came to the medical center as an associate in the Division of Immunology in 1971.

Prior to his appointment as an associate in immunology at Duke, in 1971, Dawson was a National Institutes of Health post-doctoral fellow in the School of Medicine. He is a 1964 graduate in biology from Rensselaer Polytechnic Institute and a 1969 Ph.D. recipient in biochemistry from Case Western Reserve University.

Faschingbauer earned his B.A. degree in psychology from the University of Minnesota in 1970 and a Ph.D., also in psychology, from the University of North Carolina in 1972. Prior to college, he was a Russian linguist and intelligence analyst in the U.S. Air Force. He joined Duke's Department of Psychiatry in 1973 as an associate.

A native of Saskatchewan, Canada, Wiebe attended the University of Saskatchewan during his undergraduate years and was awarded an M.D. degree from the same institution in 1962. He completed his residency in obstetrics and gynecology at Queens University in Ontario in 1971 and was appointed faculty associate at Duke in 1972.

CRISIS VOLUNTEERS

The Durham Crisis and Suicide Center needs volunteers to serve as telephone counselors for the coming year. An intensive 12-week training program will be conducted beginning this month on Thursday evenings from 8 p.m. to 10 p.m. Volunteers must at least have a high school education, be willing to learn how to handle difficult problem situations over the phone and agree to take a three or four hour telephone shift for at least one year following their training. If you are interested, please contact Pat Guarino at the Durham Community Mental Health Center at 688-4366.

LABOR DAY HOLIDAY

In accordance with university policy, the Labor Day holiday will be observed on Monday, Sept. 2.

DR. LEA O'QUINN

DR. DREW EDWARDS

Edwards, O'Quinn To Direct D.E.C.

Dr. Drew Edwards and Dr. Lea O'Quinn have been named administrative director and medical director, respectively, of the Developmental Evaluation Clinic.

They succeed Dr. Ann Alexander who resigned to accept a post in San Antonio, Tex.

Edwards, a clinical psychologist, received his Ph.D. from Florida State University in 1972. Since September of that year, he has been a staff member of the clinic, serving for the last year as assistant director.

Dr. O'Quinn was awarded an M.D. from Duke in 1965 and completed an internship in pediatrics at Duke in 1966. Before beginning a residency in pediatrics at Duke in 1970, she worked in health department clinics located in Denver, Colo.

The Duke Developmental Evaluation Clinic is one of 14 similar clinics in North Carolina receiving funds from the State Department of Human Resources. The clinic provides a team of health professionals to diagnose and treat the problems of any child whose physical or mental development is delayed.

Staff members are also active in community consultation related to developmental disabilities.

LADIES BOWLING LEAGUE

The Duke Ladies Bowling League will begin bowling officially on September 10 at Sportland Bowling Lanes on the Chapel Hill Boulevard. Any women interested in joining the league should contact Marion Wilson at Ext. 5684.
