

April 8-15, 1977

We would like to list lectures, symposia and other activities at the medical center in the Intercom Calendar. If information about your event does not appear, the reason is either that we did not receive it or that we received it too late for printing deadlines. Notices can be accepted for the Calendar no later than one week prior to publication. Notices may be sent to Box 3354, Hospital. If last minute scheduling makes it impossible to send a written notice in time, please call 684-4148.

Friday, April 8
12:30 p.m.

Biochemistry Seminar. Dr. Raymond Gesteland, Cold Spring Harbor Laboratory, will speak on "Biochemical Mapping of Adenovirus," Rm 147, Nanaline H. Duke Bldg. Coffee at 12:15 p.m. in the lobby.

1 p.m.

Network for Continuing Medical Education (NCME). Programs on "The Bronchial Asthma: New Concepts in Mechanism and Management," "Medico-Legal Aspects of CPR" and "The Rational Use of Antibiotics in Surgical Patients." View in Rms M-405, M-410, 2031 and Medical Student Lounge (Channel 7 or 9) at Duke and Rms A3002 (by appointment only), C9013, D3008, CCU and classrooms and media learning lab of Allied Health Bldg. at VA Hospital.

Monday, April 11
12:30 p.m.

Physiology and Pharmacology Seminar. Dr. Monte Westerfield, Duke, will speak on "Some Cellular Aspects of Action Potential Initiation and Propagation," Rm 385, Nanaline H. Duke Bldg. Coffee at 12:15 p.m.

4 p.m.

Pathology Research Conference. Saroja Bharati, associate director, Congenital Heart Disease Research Center, Chicago, Ill., will speak on "Corrected Transpositions," Rm M-204.

8 p.m.

American Association of University Professors (AAUP) Meeting. David M. Rabban, associate secretary and associate counsel, AAUP, Washington, D.C., will speak on "The AAUP, the Law and Public Policy," Jones Bldg. Auditorium.

Tuesday, April 12
12 noon

Pathology Research Conference. Dr. Maurice Lev, director, Congenital Heart Disease Research Center, Chicago, Ill., will speak on "Common Ventricles," Rm M-204.

3:30 p.m.

Colloquium on Health Policy. Dr. Joseph Lipscomb, assistant professor of policy sciences and economics, will speak on "Regulation and the Market for Dentistry," Rm 224, Social Sciences Bldg.

Wednesday, April 13
12:30 p.m.

Anatomy and Physiology Seminar. Dr. Ursula W. Goodenough, Biological Laboratories, Harvard University, will speak on "Cell and Membrane Differentiation in Chlamydomonas," Rm 143, Jones Bldg. Coffee and cookies at 12:15 p.m.

1 p.m.

NCME. See Fri., April 8 for programs and viewing areas.

Thursday, April 14
12:15 p.m.

Physiology and Pharmacology Seminar co-sponsored by Division of Cardiology. Dr. Edmund H. Sonnenblick, Dept. of Medicine, Albert Einstein University, will speak on "Anatomy of Myocardial Ischemia," Rm 147, Nanaline H. Duke Bldg. Coffee at noon.

Camps To Offer Sports and Fun

Girls and boys ages 6-18 can have fun while improving their sports abilities in two camps on the Duke campus this summer.

The 10th annual Duke Sports Camp will offer a half-day program in tennis, swimming and gymnastics for children ages 6-12. The program is planned to promote health and physical fitness, to develop individual sports skill, to encourage social development through group activities and to be fun, according to camp director Dr. John LeBar, assistant professor of physical education.

The three-week sessions will begin June 20 and July 11. The cost is \$60 per camper.

The third annual Tennis Camp will offer programs for beginners, intermediate and advanced level players ages 9-18. It will include personal and group instruction, strategy discussion, conditioning, drills, and audio-visual aids, LeBar said.

The one-week sessions begin June 19 and July 24. The cost is \$165 per week for resident campers and \$110 per week for day students.

For more information call 684-3156 or 684-2202.

Survey Brings Midnight Snack

If you work on the 11 p.m. to 7 a.m. shift at the hospital, a "midnight snack" might be equivalent of a day-shift person's lunch. By June 1, you'll have more variety of foods to choose from.

A new refrigerated vending machine and microwave oven has been ordered and will be installed in the Courtyard Cafeteria. It will make available hot sandwiches, soups, cold sandwiches, cold plates, milk and yogurt in addition to the current vending machine items.

The changes are designed to meet the need for hot and cold foods throughout the night as indicated on a survey conducted by the Department of Dietary Services, said Robert O'Connell, department director.

About 150 replies to the survey were returned, which indicated that expanded Courtyard Cafeteria vending was feasible, but that there was not enough projected financial support to operate the large cafeteria all night, he said.

"The survey itself was the direct outgrowth of the interest that nursing supervisors Velma Rohla, RN, and Sharon Eaton, RN, have maintained for the personal welfare

and job satisfaction of our 'night people,'" he said.

Rohla has worked with Dietary Services on previous projects such as the Night Owl Coffee, vending area dollar changers and the availability of the Courtyard Dining Room for special night shift social breaks.

The additional vending services will be available through the cooperation of Dietary Services, Nursing Services and the university's Vending Division.

AAUP To Discuss Public Policy

The role of the American Association of University Professors (AAUP) in influencing public policy toward the academic community will be discussed at a meeting of the Duke chapter of AAUP Monday at 8 p.m. in the Jones Building Auditorium.

David M. Rabban, associate secretary and associate counsel at the AAUP national office in

Washington, D.C., will speak on "The AAUP, the Law and Public Policy."

"AAUP consistently keeps the academic community informed of legislation pertaining to academic life and serves as a resource for Senators and Congressmen interested in higher education," said Dr. Sheila Counce, associate professor of anatomy and Duke's AAUP president.

She said the national organization was instrumental last fall in calling attention to and defeating the Internal Revenue Service's proposal to tax tuition benefits of faculty members.

The meeting is open to the public.

Classic To Feature 'Newk,' Other Pros

Tennis professionals Bill Scanlon and Adriano Panatta will face each other in Cameron Indoor Stadium at the Durham Junior League's Tennis Classic, Monday, April 18 at 8 p.m.

The winner of the best two out of three will take home a \$10,000 purse.

The match will be preceded by a pro set of mixed doubles between the top players from the University of North Carolina, Susie Black and Cliff Skakle, and those from Duke, Cindy Johnston and Ted Daniel.

Scanlon and pro John Newcombe will conduct a free clinic from 4-5:30 p.m. in the stadium and will host the Patron Lounge in the Varsity D Room from 7:30-8 p.m. A recent injury prevents Newcombe from taking part in the tennis match.

Tickets for general admission are \$4 in advance, \$4.50 at the door. Patron tickets for \$10 grant preferred parking and seating and use of the Patron Lounge. Tickets are available at Page Box Office, or by writing The Junior League of Durham, P.O. Box 8581-TC, Durham 27707.

Tune in DUMC

Channel 11's Peggy Mann features three medical center people on her shows next week.

Margaret Cannada of Prosthetics and Orthotics demonstrates how to fit a breast prosthesis after cancer surgery on Thursday, April 14, at 1 p.m. On the same show, Dr. Nicholas Georgiade, professor and chief of the Division of Plastic and Maxillofacial Surgery, explains his procedure for implanting an artificial breast beneath the skin of mastectomy patients.

The Rev. Wes Aitken, director of the Chaplain's Service, is Miss Mann's guest Friday, April 15, at 1 p.m. Chaplain Aitken gives details on an April 18 conference designed to show clergymen new ways they can help cancer patients.
