

HE KNOWS WHERE HE'S GOING—After almost 30 years at Duke, Hilliard Mumford has no plans for change. The longest term employee in Environmental Services, he chats with Wanda Crenshaw, Employee Relations representative. (Photo by Ina Fried)

He Plans Future Right Here

By Sam Andrews

Employee Relations Coordinator

Ever wonder where you'll be next year? Or the year after? Not so with Hilliard Mumford. His plans are already made for several years ahead.

This September will mark his 30th year with Environmental Services, and his future plans include more of the same.

People who know him, who have worked with him, are quick to speak of his loyalty and dedication to both Duke Hospital and his job as housekeeper. Some recall snowy days when Mumford walked to work.

A bachelor, he makes his home with Mrs. Georgia Taylor, his sister. She describes him as punctual, pretty much a homebody, with deep interests in his church. He has been a member of West Durham Baptist Church for many years and enjoys social functions such as picnics as well as his long association with the board of ushers.

Not much on travel, Mumford once went to Camden, N.J., to visit

an older brother. The two-week visit was cut short after three days when Mumford decided to come back to Durham.

"I know where I am in Durham," he said, "and as long as I know where I am, I know just where I'm going."

Dr. Edwin B. Cox, associate in medicine and director of the Cancer Patient Data Program at the Comprehensive Cancer Center, participated in a meeting in Geneva, Switzerland, April 4-7, with representatives of 10 other cancer centers from the U.S. and Europe. They planned for an international cancer data sharing project through the International Union Against Cancer.

He presented a paper on "Prognostic Significance of Liver Function Tests in Acute Leukemia" at the American Association for Cancer Research in Denver, Colo., May 18-21. **Dr. Donald Miller**, associate professor of medicine

To Answer Your Questions

If you're wondering about Duke policies, procedures, benefits or opportunities, someone in the Personnel Office can probably answer your questions. The following list indicates whom to call for what:
