### Employee Relations Coordinator

"When I started work as a receptionist, Surgical PDC (Private Diagnostic Clinic) had maybe 18 employees," remembers Annie Lee Terry, the longest term employee in SPDC. "That was in February of 1950."

"I suppose growth is the most notable thing I've observed," Terry said. "The entire hospital is so much bigger but, naturally I've been closer to SPDC. We must have around 140 people in the department now, and Lord knows how many times the patient load has doubled."

As clinic services coordinator in SPDC, Terry is in a position to know what goes on there — that's part of her job.

"Like it? I love it," she said. "Thinking back over these 27 years is truly pleasant. Oh, I won't say that there haven't been some moments, I've had my share. But I can't think of another job, anywhere, that could possibly have given me more satisfaction than what I've found right here."

Widowed 12 years ago, Terry keeps house with her dental assistant daughter Betsy and Bill when he isn't attending school in Cincinnati.

"The arrangement is comfortable and the company is excellent," she said.

Looking ahead, Terry sees continuing growth for Duke, not only physical growth, but also growth in the quality of patient care and medical techniques.

"There are some exciting things to come," she believes, "and I plan to be here to watch them. Curiosity is one of the ingredients mixed up to make my job so interesting. Something new and different is going to happen every day and that gives me enthusiasm for each day as it comes."

"People are important, too. It's good to be in touch with the doctors, with other employees, both in and out of SPDC. But," she pauses, "I guess the best is being in touch with patients. Being a part of helping others is a really good feeling."

# Eleven Faculty Promoted in Medical Center

Eleven faculty promotions in four medical center departments have been announced by Frederic N. Cleaveland, university provost.

Promotions from assistant professor to associate professor in the Department of Medicine were awarded to Drs. John J. Gallagher, Edward W. Holmes Jr., Charles M. Mansbach II, Francis A. Neelon, Harold Carl Strauss and William E. Yarger.

Dr. James Loren Nash has been promoted from assistant professor to associate professor in the Department of Psychiatry and Dr. Robert J. Thompson Jr. has been promoted from assistant professor to associate professor of medical psychology in the same department.

Dr. Donald Serafin has been promoted from assistant professor to associate professor of plastic and maxillofacial surgery.

Promoted from associate in obstetrics and gynecology to assistant professor were Drs. Arthur F. Haney and Michael R. Soules.

Gallagher completed an internship and residency at Duke in 1968-70 and served two years with the Public Health Service before

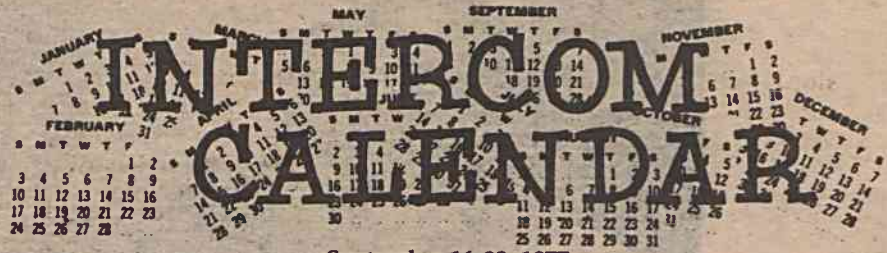

returning to Duke as a fellow in cardiology. A graduate of the College of Holy Cross, Worcester, Mass., and Georgetown University School of Medicine, Washington, D.C., he is director of Duke's Clinical Electrophysiology Lab and established investigator for the American Heart Association.

Holmes holds a B.S. degree from Washington and Lee University, Lexington, Va., and an M.D. from the University of Pennsylvania School of Medicine, Philadelphia, granted in 1963 and 1967, respectively. He came to Duke as a resident in 1970. He also holds the rank of assistant professor of biochemistry.

Mansbach earned his B.A. degree from Yale University in 1959 and his M.D. from New York University in 1963. A lieutenant commander in the U.S. Naval Reserve, he was head of the Division of Gastroenterology, Naval Hospital, Portsmouth, Va., 1968-70. He currently holds a similar position at Durham's VA Hospital.

Neelon graduated from Boston College in 1958 and from Harvard Medical School in 1962. He is associate director of Duke's Clinical

Office of Public Relations  
P. O. Box 3354  
Duke University Medical Center  
Durham, North Carolina 27710

September 16-23, 1977

We would like to list lectures, symposia and other activities at the medical center in the Intercom Calendar. Notices can be accepted for the calendar no later than one week prior to publication. Notices may be sent to Box 3354, Hospital. If last minute scheduling makes it impossible to send a written notice in time, please call 684-4148.

### Friday, September 16

12:30 p.m.

Microbiology and Immunology Seminar. Dr. Fred Rapp, Dept. of Microbiology, Milton S. Hershey Medical Center, Hershey, Pa., will speak on "Biologic Properties of Cytomegalovirus Bearing on Oncogenesis," Rm 143, Jones Bldg.

1 p.m.

Network for Continuing Medical Education (NCME). Program on "Clinical Immunology Update: The Mechanisms of Immune Competence, Immune Deficiency Disorders and Autoimmune Diseases." View in Rms M-405, M-410, 2031 and Medical Student Lounge (Channel 7 or 9) at Duke and Rms A3002 (by appointment only), C9013, D3008, CCU and classrooms and media learning lab of Allied Health Bldg. at VA Hospital.

4 p.m.

Anatomy Seminar. Dr. Uwe Slaytr, University of Agriculture, Vienna, Austria, will speak on "Regular Arrays of Macromolecules on Bacterial Cell Walls: A Model System for a Dynamic Process of Assembly," Rm 273, Sands Bldg. Coffee and cookies at 3:45 p.m.

### Monday, September 19

12 noon

Pathology Research Conference. Dr. N. B. Ratliff, Dept. of Laboratory Medicine and Pathology, University of Minnesota, will speak on "The Z Band in Hemorrhagic Shock and Nematosis in Myopathy," Rm M-204.

### Tuesday, September 20

7:30 p.m.

Ostomy Association, Epworth Methodist Church.

### Wednesday, September 21

11:30 a.m.

Blood Drive, first floor Cafeteria.

1 p.m.

NCME. See Fri., Sept. 16 for program listing and viewing areas.

### Friday, September 23

12:30 p.m.

Biochemistry Seminar. Dr. Frederick C. Hartman, Biology Division, Oak Ridge National Laboratory, Oak Ridge, Tenn., will speak on "Affinity Labeling of Ribulosebiphosphate Carboxylase," Rm 147, Nanaline H. Duke Bldg. Coffee at 12:15 p.m. in the lobby.

Research Unit and serves as consultant in endocrinology and coordinator of education in medicine at Durham County General Hospital.

A native of Canada, Strauss earned B.Sc. and M.D. degrees from McGill University, Montreal, in 1960 and 1964, respectively. He was appointed to the Duke faculty in 1972 and currently holds the additional rank of assistant professor of pharmacology.

Yarger, who also holds the rank of assistant professor of pharmacology, is chief of the home dialysis unit at the Durham VA Hospital. He is a 1959 graduate of Texas Christian University, Fort Worth, and earned his M.D. from Baylor University College of Medicine, Houston, in 1963.

Nash, a Durham native, attended Duke as an undergraduate and earned his M.D. at Duke in 1966. He is a 1976 graduate of the University of North Carolina-Duke Psychoanalytic Training Program and heads the Mental Hygiene Clinic at Durham's VA Hospital.

Thompson is head of the Division of Medical Psychology and administrative director of the

Developmental Evaluation Center at Duke. A 1967 graduate of LaSalle College, Philadelphia, he holds M.A. and Ph.D. degrees from the University of North Dakota.

Serafin earned an A.B. in 1960 and an M.D. in 1964, both from Duke. Following internship and residency in surgery at Grady Memorial Hospital and Emory University, Atlanta, he returned to Duke for residency in plastic surgery. He is currently chief of plastic surgery at the VA Hospital.

Haney first came to Duke in 1972 as a resident in obstetrics and gynecology. He was awarded a B.S. by the University of Pennsylvania in 1968 and an M.D. by the University of Arizona in 1972.

Soules attended the University of Santa Clara and earned his M.D. from the University of California-Los Angeles in 1972. He completed internship and residency requirements at the University of Colorado Medical School, where he was chief resident in obstetrics and gynecology, 1975-76. He was appointed an associate at Duke in 1976.
