

NEITHER RAIN, NOR... — Workmen were undisturbed by the rain late last week as they poured concrete for the PRT (Personal Rapid Transit) track, between the Bell and Mudd Buildings. The PRT will link Duke Hospital North and Duke Hospital South, and people going from one to the other will be undisturbed by rain or other inclement weather which might be around at the time. Tour of old homes

"A House in the City," the Trinity Park House Tour, will take place Sunday, 1-6 p.m.

The Trinity Park neighborhood, adjacent to East Campus, features many kinds of homes, from small bungalows to some of Durham's finest mansions.

Among the residences open to the public will be a tiny Victorian cottage, a large Victorian farmhouse and the original Watts Hospital, now a private home.

Free babysitting for the children of ticketholders will be provided at 1021 Gloria Ave. and 1025 Gloria Ave.

Free refreshments will be served at the Kings Daughters Home, 2204 Buchanan Blvd. Parking will be available in any church lot in the neighborhood.

Tickets, priced at \$2, are on sale today and tomorrow at Morgan Imports, 908 W. Main St.; Jazabelle's Hair Studio, 121 N. Gregson St.; and the Camera and Photo Shoppe, 1107 W. Main St. Tickets may be purchased at 302 Watts St. and 1114 Watts St. on the day of the tour.

Duke people in special TV rerun

Eleven Duke people will be featured during a one-hour special on breast cancer beginning at 10 p.m. on Monday, Oct. 24, on WTVD (Channel 11).

The program is a collection of interviews which aired this past March and April on "The Peggy Mann Show."

Those interviewed include Dr. Dani P. Bolognesi, professor of surgery; Margaret M. Cannada, corsetiere in the Prosthetics

and Orthotics Department; Dr. Nicholas Georgiade, professor and chief of the Division of Plastic and Maxillofacial Surgery; Dr. Wolfgang K. Joklik, James B. Duke Professor and chairman of the Department of Microbiology and Immunology; Dr. Diane McGrath, director of the Duke Cancer Information Service.

Dr. Robert McLelland, associate professor of radiology and director of the Duke Breast Cancer Detection Demonstration Project; Dr. Blaine S. Nashold, professor of neurosurgery; Dr. Josephine Newell, coordinator of the Breast Cancer Detection Demonstration Project; Dr. K.T. Noell, assistant professor of radiology; Dr. William W. Shingleton, professor of surgery and director of the Duke Comprehensive Cancer Center; and Dr. Samuel A. Wells, Jr., professor of surgery.

Publish your photos

If you know you are another Edward Steichen, but are waiting for the rest of the world to find out, the time may be ripe.

Latent Image, Duke's bi-annual photography magazine is accepting contributions for the forthcoming issue, scheduled to appear in April.

Students, faculty, employees and other members of the medical center and university communities are invited to submit photographs.

Only black and white prints are acceptable. Prints need not be mounted.

Submissions should be sent to *Latent Image* 4, c/o Student Activities Office, Box KM, Duke Station, Durham 27706, or brought to Flowers Building, Rm. 204, by Fri., Nov. 18.

A self-addressed, stamped post card should be included so notification can be sent when the materials have been received.

All materials submitted must be marked clearly with contributor's name, address and telephone number. Return packaging and postage should be provided by those unable to collect materials from the student activities office.

October 21-28, 1977

The Medical Center Calendar lists lectures, symposia and other medical center activities. Notices should be sent to Box 3354, Hospital, no later than one week prior to publication. If last minute scheduling makes it impossible to send a written notice in time, please call 684-4148.

Friday, October 21
12:30 p.m.

Biochemistry Seminar. Dr. Mel DePamphilis, Dept. of Biological Chemistry, Harvard Univ., "Structure and Replication of SV40 Chromosomes," Rm 147, Nanaline H. Duke Bldg. Coffee at 12:15 in the lobby.

1 p.m.

Network for Continuing Medical Education (NCME). Programs on "Six Problems in Sexually Transmitted Diseases," "Defining the Standard of Care" and "Pregnancy and Diabetes: A Team Approach for a Viable Neonate." View in Rrms M405 and 2031 at Duke and Rms D3008, C6002 and C7002 and Bldg 16 at the VA Hospital.

Monday, October 24
12 noon

Pathology Research Conference. Dr. Paul Wang, professor of electrical engineering, "Image Processing and Pattern Recognition," Rm M204.

5 p.m.

Anatomy Seminar. Joseph G. Cullotti, Dept. of Life Sciences, University of Pittsburgh, "Mutants of the Nematode *C. Elegans* Affecting Dopamine Containing Neurons," Rm 273, Sands Bldg. Coffee and cookies at 4:45 p.m.

Wednesday, October 26
1 p.m.

NCME. See Fri., Oct. 21, for program listings and viewing areas.

Thursday, October 27
12:30 p.m.
