

## Goldner named president-elect

Dr. J. Leonard Goldner, professor and chief of the Division of Orthopaedic Surgery, is president-elect of the American Orthopaedic Foot Society.

The election came at the group's annual meeting in Dallas Feb. 22-23.

An affiliate of the American Academy of Orthopaedic Surgeons, the society is comprised of orthopaedic surgeons interested in improved foot care through research and education.

DR. GOLDNER

Goldner is a former president of the Southern Medical Association, American Society for Surgery of the Hand, and the North Carolina Orthopaedic Association.

In 1967 he received the Governor's

Award as North Carolina's Physician of the Year.

A native of Omaha, Goldner received his A.B. degree in 1939 from the University of Minnesota and his M.D. degree in 1943 from the University of Nebraska College of Medicine.

He is a member of the American Orthopaedic Association, National Amputee Clinic Organizations, International Association for the Study of Pain, and the International Society of Orthopaedics and Traumatology.

## Car-train collision fatal to student

Joseph C. Farmer III, son of Dr. Joseph C. Farmer Jr., associate professor of otolaryngology in the Department of Surgery, was killed March 1 when the car he was driving collided with a train.

He was a freshman at Duke and is survived by his parents, one brother, a grandmother and a grandfather.

Memorial contributions may be made to the university's Ministers' Discretionary Fund or to Durham Academy.

REUNION OF THE CHAIRMEN—The Department of Microbiology and Immunology has had three chairmen since it was established, and all three got together recently at a party honoring retiree Obediah Barbee. Left to right, they are Dr. Wolfgang K. Joklik, James B. Duke Professor and current chairman; Dr. David T. Smith, the first chairman of what was then called the Department of Bacteriology; and Dr. Norman F. Conant, the department's second chairman. Smith and Conant are James B. Duke Professors emeriti. ## Purchasing moves

The hospital purchasing offices have been moved to Rooms 001 and 001-B of the hospital (sub-basement, purple zone). The phone number remains 684-5919.

# Faculty promotions, appointments announced

Four medical center faculty members have been promoted to associate professor, and five new faculty members have been appointed. The promotions and appointments were announced by Dr. Frederic N. Cleaveland, university provost.

The new associate professors and their departments are: Dr. William J. Kane, community and family medicine; Dr. Joseph A. Kisslo Jr., medicine; Dr. Susan S. Schiffman, psychiatry; and Dr. R. Herbert Wiebe, obstetrics and gynecology.

Kane, who is also chief of the Division of Family Medicine, earned his B.S. in 1965 at the University of Scranton and his M.D. at Temple University School of Medicine in 1969. He completed a residency in family medicine at the University of Rochester in 1972 and joined the faculty here in 1974.

The University of Notre Dame awarded Kisslo a B.S. in 1963 and Hahnemann Medical College granted him an M.D. in 1967. He came to Duke as a postdoctoral fellow in cardiology in 1972, and was promoted to assistant professor in 1975.

Schiffman received a B.A. from Syracuse University in 1965 and a Ph.D. in psychology from Duke in 1970. She served as a research fellow in the Center for the Study of Aging and Human Development from 1970-72 and was

named assistant professor of medical psychology in 1972.

A native of Canada, Wiebe attended the University of Saskatchewan as an undergraduate and earned his M.D. degree there in 1962. He completed his residency in obstetrics and gynecology at Queen's University in Kingston, Ontario in 1971 and was named a faculty associate at Duke in the following year.

The appointees and their positions are: Dr. Joy P. Clausen, associate professor of nursing; Dr. Seneca T. Ferry II, assistant professor of community and family medicine; Dr. Judith H. Fox, assistant professor of sociology in nursing; Dr. J. Victor Nadler, assistant professor of pharmacology; and Dr. Peter Tallos, assistant professor of medicine.

Clausen earned B.S. and M.S. degrees

in nursing in 1956 and 1969 and M.A. and Ph.D. degrees in anthropology in 1975 and 1977, all from the University of Colorado. Before completing her doctorate, she was coordinator of maternal-child nursing and assistant professor at the University of Colorado School of Nursing.

Ferry studied at Amherst College and Washington University and received his M.D. from the University of Missouri in 1965. He has been in private practice since completing his internship at Mound Park Hospital in St. Petersburg, Fla., in 1966. He will serve as medical director of Sea Level Hospital.

After earning a bachelor of arts at the University of North Carolina at Chapel Hill in 1969, Fox completed her M.A. and Ph.D. training in sociology at Duke in

1972 and 1975. She was a postdoctoral fellow at the Institute for Research in Social Science at UNC before joining the Duke faculty.

Nadler received a B.S. in chemistry from Duke in 1966 and a Ph.D. in pharmacology from Yale University in 1972. Most recently, he has been an assistant research psychobiologist at the University of California at Irvine.

A native of Australia, Tallos earned his medical degree at the University of Sydney in 1969, served an internship at the Royal North Shore Hospital of Sydney and completed a residency in internal medicine at the Graduate Hospital of the University of Pennsylvania in 1973. Before his appointment at Duke, he was assistant professor of medicine at Cornell University Medical College.

## Fire alters more than dinner plans

Margie Grubb, research technician in the Vivarium, expected to drive the hour and a half distance to her home near Asheboro Saturday and go out to eat with her husband.

"My husband called me at work Saturday and told me not to go by home but to meet him at my parents' home because he wanted to go out to eat. I didn't know then that he didn't want me to go by our house because it had burned down to the ground," Grubb said.

Margie Grubb and her husband, a bricklayer, lost everything in their house when an electrical fire erupted March 3 while they were both at work.

### Working to meet insurance requirement

The couple had no insurance to cover their loss.

"We just never anticipated that something like this would happen to us," she said. "The house was old and we were working on it so that it could meet the requirements for insurance. We had rewired it and were adding brick underlayings."

Grubb said that nothing was saved from the house.

"Our home was already burnt down to the ground when the firemen got there," she said. "Even the iron skillets in the kitchen melted. Our dog died in the fire."

### Director hopes people will help

Dr. Joseph Wagner, director of the Vivarium, said he hoped people would help the Grubbs.

"It is very unfortunate... they were just getting started," Wagner said. "They can use almost anything: furniture, appliances, kitchen ware, clothes, anything would help tide them over."

Wagner said donated items could be brought to the basement area of the Nanaline H. Duke Building and the Alex H. Sands Building.

"We're open from 8 a.m.-1 p.m. on Saturdays and Sundays so people can bring things over on the weekends," he said.

Especially needed are clothes: women's dress size 12, shoe size 9; men's pants size 33 or 34 waist and length 36, shirt size 15-15½ and shoe size 9½.

For more information call the Vivarium 684-2797.

## Student health officials meeting

(Continued from page 1)

professor of pediatrics.

"Newer Anti-Viral Agents and Their Mechanisms of Action," by Dr. Howard Schaeffer, associate director of development at Burroughs Wellcome.

"Diet and Hypertension: A Student Health Risk?" by Dr. Sue Y. M. Kimm, assistant professor of pediatrics.

### Patterns issues, prevention

This afternoon, Dr. E. Harvey Estes, chairman of the Department of Community and Family Medicine, will speak on "Changing Patterns in Health Care Delivery."

Following his talk, V. Arthur Stevens, assistant executive director of the American College Health Association (A.C.H.A.), will discuss "A.C.H.A. and National Issues."

Saturday morning, guests will hear a presentation entitled "Tension Control Program" by Dr. John A. Friedrich, professor of health, physical education and recreation.

Dr. Michael Hindman, a fellow in cardiovascular surgery, will conclude the meeting with his description of "Exercise Therapy in Ischemic Heart Disease — Risk Factor Intervention."
