

A DISPLAY ON THE MEDICAL CENTER, with emphasis on Duke Hospital North, attracted considerable interest last week during the three-day "Done in Durham" exposition at Northgate Shopping Center under the sponsorship of the Chamber of Commerce. The display

contained artist's renderings of the new hospital and some of its features, a photograph of the present hospital and some photographs of Duke's early years. The display is now in the main lobby of the hospital where it will be on exhibit for some time. (Photo by John Becton)

Viruses

(Continued from page 1)

we started talking to the young people who may be most affected," he said.

"At present, all we can say is that when people are sexually active and share a variety of partners, they may be acquiring a lot more than just sexual experience."

Monogamy provides protection

No one can be certain of avoiding cytomegalovirus, genital herpes simplex and other sexually transmissible virus infections, he pointed out, but one of the best protections, other than celibacy, is to maintain a monogamous relationship.

Condoms, which have declined in use since the pill was developed, also can help to prevent exposure.

Drugs to combat herpes viruses are on the horizon, Lang said, but it may be many years before they are actually available for treatment.

Help for job hunters

Registration is now open for a one-day workshop for job hunters to be given by the Office of Continuing Education on Saturday, April 8 from 9 a.m.-4 p.m.

The workshop will be held in the Bivins Building on East Campus. The \$22 fee includes materials and lunch.

For more information, call 684-6259.

Professional news

A number of members of the Division of Orthopaedic Surgery attended professional meetings in Dallas last month.

The American Society for the Surgery of the Hand met Feb. 21-23. Dr. J. Leonard Goldner, professor and division chief, moderated a panel on "Nerve Entrapment Problems of the Upper Extremity," and served on the nominating committee.

Dr. James Urbaniak, professor, presented a paper entitled "Digital Sensibility Following Replantation."

At the Feb. 22 meeting of the Hip Society, Dr. Donald E. McCollum, professor, presented a paper on "Acetabular Protrusion," which was co-authored by Dr. James A. Nunley of the house staff.

The American Academy of Orthopaedic Surgeons met Feb. 23-28.

Goldner participated in a symposium on "Peripheral Nerve Repair." He and Dr. William Goodman, resident, presented "The Long Term Results of Soft Tissue Elbow Releases for Improved Elbow and Forearm Function in Patients with Cerebral Palsy."

Dr. William R. Stewart, resident, presented a paper on "Skeletal Metastases of Melanoma," co-authored by Dr. John M. Harrelson, assistant professor of orthopaedic surgery, and Dr. Hilliard F. Seigler, professor of general and thoracic surgery.

House staff officer Dr. Andrew Koman presented a paper entitled "Arthrodesis of the Thumb Metacarpophalangeal Joint in Cerebral Palsy," written by Koman, Dr. Richard Gelberman, fellow in orthopaedics, and

Scott Levin, a Duke student.

The faculty for the instructional courses included Goldner, Urbaniak and Dr. Donald S. Bright, assistant professor of orthopaedic surgery.

Others from the orthopaedic division who attended the Dallas meetings were Dr. Frank Clippinger, professor, and Dr. Robert Ruderman, assistant professor, and Drs. John Lucey, John Beck, Lee Whitehurst and Jonathan Kurtis of the house staff.

"Searching the Literature of Aging: Gerontology References Sources," by Susan Feinglos, reference librarian in the Medical Center Library, appears in Educational Gerontology, 3:7-15, 1978.

FEINGLOS

NEWTON

Robert L. Newton, associate hospital controller, has been elected president-elect of the North Carolina Chapter of the Hospital Financial Management Association for 1978-79.

March 17-24, 1978

The Medical Center Calendar lists lectures, symposia and other activities of interest to faculty, staff and students. Notices should be sent to Box 3354 no later than one week prior to publication. If last minute scheduling makes it impossible to send a written notice in time, please call 684-4148.

Friday, March 17

12:30 p.m.

Biochemistry Seminar. Richard I. Gumport, Dept. of Biochemistry, University of Illinois, Urbana, "RNA Ligase as a DNA Joining Reagent," Rm 147, Nanaline H. Duke Bldg. Coffee at 12:15 in the lobby.

1 p.m.

Network for Continuing Medical Education (NCME). Programs on "Defibrination Syndrome or Disseminated Intravascular Coagulation? A Laboratory Diagnosis," "Dyspnea + Fever, a Pediatric Emergency" and "Reversing Vasectomy: Factors for Success." View in Rm M405 at Duke and Rms D3008, C6002 and C7002 and Bldg 16 at the VA Hospital.

Monday, March 20

12 noon

Pathology Research Conference. Dr. Sandra Preissig, assistant professor, "Prognostic Factor in Medullary Carcinoma of the Thyroid," Rm M204.

Tuesday, March 21

3:30 p.m.

Pharmacology Seminar, sponsored by the Pharmacological Sciences Training Grant. Dr. Sydney Spector, Dept. of Physiological Chemistry and Pharmacology, Roche Institute of Molecular Biology, Nutley, N.J., "Presence of an Endogenous Non-peptide Morphine Substance," Rm 408, Nanaline H. Duke Bldg. Coffee at 3:15.

7 p.m.

Pre-Med Society speaker. Dr. Michael DeBakey, president, Baylor College of Medicine, Houston, "Research and Heart Disease," Gross Chem Lab Aud.

Wednesday, March 22

1 p.m.

NCME. Program on "Osteoporosis: A Disorder of Bone Remodeling." See Fri., March 17, for viewing areas.

1:30 p.m.

Pharmacology ESR discussion group. Dr. Irwin Fridovich, professor of biochemistry, "Biology of Super Oxide Radicals," Rm 408, Nanaline H. Duke Bldg. Coffee at 1:15.

2 p.m.

Videotape showing, "National Sleep Disorder Update," same viewing areas as NCME.

3 p.m.

Pharmacology ESR discussion group. Dr. John Wasson, Department of Chemistry, UNC, Chapel Hill, "Pseudo Tetrahedral Copper II Compounds," Rm 408, Nanaline H. Duke Bldg. Coffee at 2:30.

Thursday, March 23

12:30 p.m.

Microbiology and Immunology Seminar. Don Primerano, "Conjugation in Pseudomonads," Rm 418, Jones Bldg.

"Have a challenging day, Dear, that will purge you of aggressions and bring you home pleasantly relaxed and agreeable."
