

TO HELP DUKE HEAL CHILDREN — No one has teed off yet, but the Children's Classic is already stimulating interest in and raising money for the battle against children's diseases. Above right, Blossom Schneider gets set to deal at a special "Vegas Night" she and husband Stan Schneider hosted at the Royal Villa recently. The event raised \$11,000 for the Department of Pediatrics.

Meanwhile, United Airlines made the campaign more fruitful by flying fresh pineapples in from Hawaii which were sold at last month's "Done in Durham" exhibit at Northgate Mall. (Photos by John Becton and Jerry Neville)

with the lineup, but hadn't yet figured out what a "country music star" is, coming as he does from Jersey City.

Both men were especially complimentary of the teamwork displayed by the pediatrics staff and all those working on the Children's Classic.

Spanarkel, whose sister Marybeth

Spanarkel is a third-year medical student here, told of a recent visit to the pediatrics wards and of playing basketball with the "Howland Globetrotters."

\$100,000 goal

Tournament officials have set a goal of \$100,000 for this year.

That's about twice as much as last year's classic raised (though including the amount raised indirectly, Katz pointed out, the total is significantly higher), but the tournament's executive director is not afraid of setting challenging goals.

As Spanarkel was leaving Monday's gathering, Neville called to him, "Hey, Jim, I want to go one-on-one with you sometime."

AOA schedules hepatitis expert

A renowned expert on hepatitis virus infections will be the featured speaker next week at the ninth annual Original Study Symposium, sponsored by the Duke chapter of Alpha Omega Alpha, medical honorary society.

Dr. Saul Krugman, professor of pediatrics at New York University School of Medicine, will deliver the symposium's keynote address at 5 p.m., Thursday in the Hospital Amphitheater. His topic will be "Recent Developments in Hepatitis Virus Research."

The symposium activities will begin at 1 p.m. with medical student presentations of original research. Concurrent sessions will be in Rooms M224 Davison Building (green zone, second floor) and 2031

Hospital (purple zone, second floor).

Krugman also will participate in a perinatal conference on "Hepatitis Virus Infections in the Mother, Fetus and Newborn," to be held 8:30-9:30 a.m. Thursday in Room M312 Davison (green zone, third floor).

All activities are open to the public.

Professional news

Dr. H. Keith H. Brodie, professor and chairman of the Department of Psychiatry, will speak on "New Advances in Behavioral Medicine" April 21 at a seminar sponsored by the Greenville (S.C.) Hospital System.

DR. BRODIE

Neurosurgical Unit (NSU) staff nurses Janet Smith and Barbara Geist will present a paper on the "Care of Acute Craniotomy Patients" at the National Convention of the Association of Neurosurgical Nurses in New Orleans April 23-27.

Other NSU nurses presenting papers will be Maureen Callahan, on "Panhypopituitarism and Brain Tumors," and Sue Sutcliffe, on "Care of Laminectomy Patients."

Dr. Robert McLelland, associate professor of radiology, attended the 17th annual Conference on Detection and Treatment of Breast Cancer, April 6-9, in San Francisco.

Dr. John W. Moore, professor of physiology, has been named to the executive committee of the trustees of the Marine Biological Lab, Woods Hole, Mass. He also is chairman of the budget committee and a member of the search committee.

April 14-21, 1978

The Medical Center Calendar lists lectures, symposia and other activities of interest to faculty, staff and students. Notices should be sent to Box 3354 no later than one week prior to publication. If last minute scheduling makes it impossible to send a written notice in time, please call 684-4148.

Friday, April 14

12:30 p.m. Biochemistry Seminar. Dr. Robert Wells, Dept. of Biochemistry, Univ. of Wisconsin, Madison, "The Role of DNA Structure in Gene Regulation," Rm 147, Nanaline H. Duke Bldg. Coffee at 12:15 in the lobby.
1 p.m. Network for Continuing Medical Education (NCME). Programs on "Is Hysterectomy Indicated?" and "Photochemotherapy for Psoriasis." View in Rm M405 at Duke and Rms D3008, C6002 and C7002 and Bldg 16 at the VA Hospital.

Monday, April 17

12 noon Pathology Research Conference. Dr. D. Bigner and Dr. Dennis Ballard, "Cellular Differential of Human Gliomas with Cyclic AMP"; also Bigner and Dr. Richard Serano, "Chemotherapy of Autochthonous Brain Tumor Models," Rm M204.

Tuesday, April 18

12:30 p.m. Microbiology and Immunology Seminar. Dr. Malcolm A. Martin, National Institute of Allergy and Infectious Diseases, NIH, Bethesda, Md., "The Biological Activity of Papovavirus DNA *in vivo* and *in vitro*," Rm 143, Jones Bldg.

Wednesday, April 19

9 a.m. Membrane Symposium, sponsored by departments of anatomy, biochemistry, medicine, microbiology, pathology and physiology, Rm 143, Jones Bldg. Continues to 5:10 p.m.
1 p.m. NCME. Programs on "Noninvasive Cardiac Diagnosis: Application in Perspective," "The Prevention of Bilirubin-related Toxicity in Newborns" and "Intestinal Parasites: A Cosmopolitan Disease." See Fri., April 14, for viewing areas.
2 p.m. Special NCME showing, "The Anxiety Syndrome," Rm M406.

Thursday, April 20

8:30 a.m. Perinatal Conference. Dr. Saul Krugman, professor of pediatrics, New York Univ. School of Medicine, "Hepatitis Virus Infections in the Mother, Fetus and Newborn," Rm M312.
1 p.m. AOA Ninth Annual Original Study Symposium, Rms M224 and 2031.
5 p.m. AOA Symposium keynote address. Dr. Saul Krugman, "Recent Developments in Hepatitis Virus Research," Hospital Amphitheater.

Friday, April 21

8:30 a.m. Ganglion Society Neuroscience Symposium, "Organizational Principles in the Nervous System."

"These are my lawyers. They can explain why I don't owe any taxes even though I did make forty million dollars last year."
