

LOOKING BACK

From the *Intercom* of August 1955

Duke Hospital celebrated its 25th year last month...Dr. [Wilburt C.] Davison said, "July 21, 1955 was a great deal cooler than July 21, 1930..." It could also be that we weren't nearly so harassed on the latter date.

A 14-year-old boy is the first patient to be treated under a new and expanded program of the Duke Brace and Instrument Shop. The patient, Riley Brown of Fayetteville, is benefiting from a new program in the creation of artificial limbs and the rehabilitation of amputees.

The Duke team responsible for the innovations which make Duke the only hospital in the country where such new materials are available consists of Bert R. Titus, director of the Duke Brace Shop, Miss Cornelia Watson, occupational therapist, and Dr. Leonard Goldner, orthopaedic surgeon.

Ellie Flanagan, Conny Jenks and Helen Kaiser attended the P.T. Convention in St. Louis from June 19-24, and participated in the School Section Workshops preceding the convention. Miss Kaiser is the chairman of this section. The convention was also a reunion for about 17 former Duke University physical therapy staff members and students who were there.

[From "I remember when..." by Ross Porter] Yes, the first quarter century has been fun and we all have memories of big things and little things which belong to us alone. The good part is that this is only the beginning. We continue to share with a constantly renewing group the same ideals and purposes and a new set of experiences which will look as good to us after a second quarter century as the first ones do now.

DIRECT FROM THE AUTHOR — The Hospital Auxiliary library recently received nearly 100 books written by Dr. Frank G. Slaughter. The author himself donated the volumes, which included translations into French, Spanish and other languages. Here Slaughter looks through one of the books with auxiliary member Carolyn Wright. Slaughter received his undergraduate degree from Duke in 1926. Since then 57 books he has written have been published, and he recently sent number 58 to his publisher. Sales of his books have exceeded 60 million copies. (Photo by John Becton)

Tickets available for Handel's 'Messiah'

George Frideric Handel's "Messiah" will be performed on campus this year three times during the first weekend of December.

The dates and times are: Friday, Dec. 1, 7:30 p.m.; Saturday, Dec. 2, 2 p.m.; and Sunday, Dec. 3, 3 p.m.

Tickets, priced at \$2, are available at Page Box Office, or by writing "Messiah," Box 4822, Duke Station, Durham 27706. Be sure to state the number of tickets and performance desired, and enclose a stamped, self-addressed envelope for ticket return.

All performances will be in Duke University Chapel.

More madrigals

There will be another Monday madrigal singing beginning at 12:10 p.m. this Monday in the Office of Continuing Education, Room 210, Bivins Building, East Campus.

Listeners as well as singers are invited, and there will be free parking for all.

Call Marilyn Hartman at 684-6259 for more details.

Nine medical faculty members promoted

Nine faculty members in the School of Medicine have been promoted, according to Dr. Frederic N. Cleaveland, university provost.

New associate professors and their departments are: Drs. Richard H. Daffner, radiology; Gale B. Hill, obstetrics and gynecology; Jeffrey L. Houpt, psychiatry; Charles F. Lanning and John N. Miller, anesthesiology; and Gerald L. Logue, medicine.

Those promoted to assistant professor and their departments are: Drs. G. Allan Johnson, radiology; James T. Moore, psychiatry, community and family medicine; and Joseph M. Strayhorn, Jr., psychiatry.

Daffner earned his B.S. degree in 1963 at the Albany (N.Y.) College of Pharmacy and his M.D. in 1967 at the State University of New York at Buffalo. He completed his residency in radiology at Duke in 1973 and served on the faculty at the University of Louisville before returning to Duke as assistant professor in 1976.

Hill received her undergraduate degree from Florida State University in 1959 and her Ph.D. in microbiology from Duke in 1966. She joined the Department of

Microbiology and Immunology the same year and was named assistant professor of obstetrics and gynecology in 1973.

Wheaton (ill.) College awarded Houpt his B.S. in zoology in 1963, and Baylor College of Medicine awarded him an M.D. in 1967. He served a residency in psychiatry at Yale University School of Medicine and joined the Duke faculty in 1975.

Lanning earned an A.B. at the University of Kansas at Lawrence in 1965 and an M.D. at that university's medical school in Kansas City in 1969. After completing a residency at Duke in 1973, he was named assistant professor of anesthesiology.

In 1963, the University of Sydney, Australia, presented bachelor of medicine and surgery degrees to Miller, who has been assistant professor here for the past three years. Before joining the Department of Anesthesiology faculty, he was medical research officer at the Royal Naval Physiological Laboratory in Alverstoke, England, and research associate resident at the University of Washington.

Logue received his B.S. in engineering from Pennsylvania State University in

1962 and his M.D. from the University of Pittsburgh School of Medicine in 1966. He completed a fellowship in hematology at Duke in 1970 and was named associate in medicine the same year.

St. Olaf College of Northfield, Minn., awarded a bachelor of arts degree to Johnson in 1969 and Duke conferred its Ph.D. in physics on him in 1974. Earlier this year, he was appointed research associate in radiology after serving as research associate in physics at Duke for the past four years.

Moore completed his undergraduate and medical education at the University of Missouri in 1967 and 1971, respectively. After serving his psychiatric residency at Duke, he was named instructor in psychiatry in 1974 and associate in 1975.

In 1970, Strayhorn received his B.A. from Amherst College, and in 1974, he received his medical degree from Northwestern University Medical School. He spent the next three years as resident in psychiatry at Duke, and before his promotion, was a fellow in the Research Training Program in Mental Health.

Festival to feature healing arts

The Community Wholistic Health Center is sponsoring a "Healing Arts Festival" tomorrow from 9 a.m.-5 p.m. in the student union building on the University of North Carolina campus in Chapel Hill.

More than 50 workshops have been planned. Topics will include "Stress without Distress," "Nutritional Awareness and Health Foods," "Acupuncture," "Yoga," "Medicinal Wild Plants," "Dance therapy," "Women's Health" and "Touch for Health."

There also will be special workshops for children.

The cost will be \$1 per hour workshop, or \$5 for the whole day.

There will be an evening celebration of music and dance after the festival. The admission charge for this event will be \$2.50.
