

'Tis the season . . .

. . . to be safe

You may want to brighten your corner of the medical center with holiday decorations. Just be sure they conform to fire code regulations prohibiting the use of flammable materials.

Marshall C. Fowler, fire and safety coordinator, said live trees and greenery are not permitted and that all decorations must be flame retardant or flame proof.

Additional regulations include the following:

—Electrical decorations must have a U.L. approved label.

—No exit doors or corridor smoke doors may be locked, covered or obstructed in any manner.

—Lights may be used on artificial trees, but must be the miniature non-heat producing type (and must have the U.L. label).

—Electrical decorations are not permitted in areas where flammable liquids or gases (including oxygen) are in use or are stored.

Fowler said that Medical Center Safety Office personnel will be checking decorations throughout the medical center to assure compliance. Any questions concerning this policy may be referred to the safety office, 684-5697.

. . . to win turkey

You can follow the numbers to draw and color your own Christmas party poster and have a chance to win a family-size turkey.

Medical center personnel may pick up posters at the information desk in the main lobby of the hospital.

Completed posters, with the artist's name and phone number on the back,

should be returned to the lobby before noon, Monday, Dec. 18.

The artist responsible for the best completed poster will receive a turkey. The winning poster will be displayed in the Courtyard Cafeteria, and the winner's picture will be published in *Heartbeat*.

The party is Wednesday, Dec. 13, 1:30-4:30 p.m. and 10 p.m.-midnight.

. . . to give gifts

Looking for a great idea for a Christmas gift?

The Children's Classic Cookbook contains a scrumptious selection of recipes from the kitchens of Roselle (Mrs. Perry) Como, Chet Atkins and other celebrities and friends of the medical center.

The cookbook is a particularly appropriate way to say Merry Christmas, since all proceeds go to help Duke's Department of Pediatrics heal children.

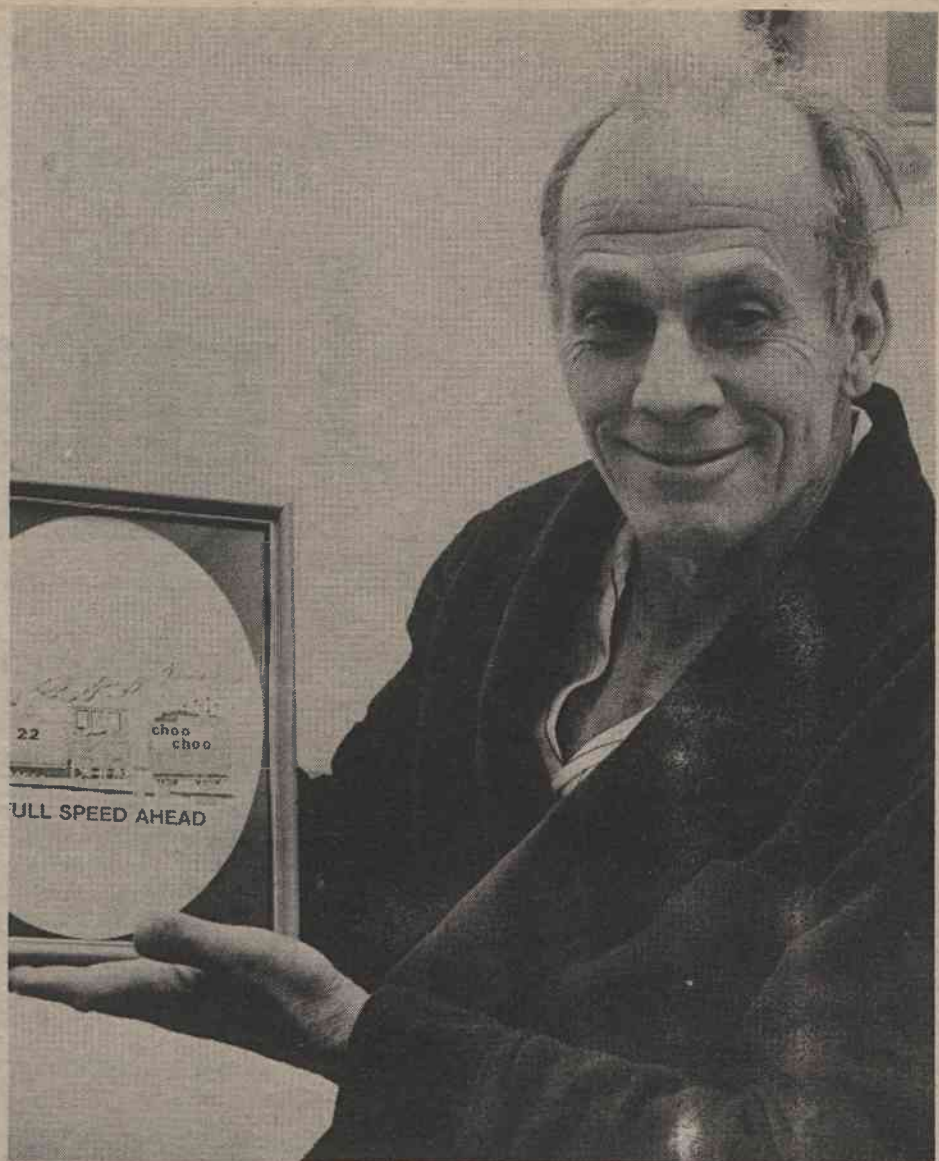

Copies are available for \$5.95 in the pediatrics department office, Room 228, Baker House, and in the Hospital Auxiliary Gift Shop.

For mail orders, write Box 2975, Medical Center. The \$6.95 price includes postage and handling.

Library hotline

Users of Perkins Library and its branches may find out hours of operation by calling 684-3009 any time, day or night.

A recorded message provides the schedule, including special hours for the upcoming holiday season.

ALL THE WAY CHOO CHOO — Charles (Choo Choo) Justice, who gained national fame during his football-playing career in the late 1940s at UNC, was at Duke recently for coronary by-pass surgery. He said he was feeling fine after the surgery and was grateful to the physicians who took care of him, cardiologist Dr. Robert Whalen and surgeon Dr. Newland Oldham. Here Justice displays a get well card made especially for him by a fan in Chapel Hill. After the "Choo Choo" put down the football, he picked up a golf club, and has participated in the Children's Classic celebrity golf tournament. (Photo by Parker Herring)

Four in medicine among eight faculty members promoted

Eight medical center faculty members have been promoted, Dr. Frederic N. Cleaveland, university provost, has announced.

Four were promoted from assistant professor to associate professor in the Department of Medicine. They are Drs. Vincent W. Dennis, George J. Ellis III, John T. Garbutt Jr. and Peter F. Pepe.

Also promoted from assistant professor to associate professor were Drs. Richard F. Kay and John D. Shelburne, in the departments of anatomy and pathology, respectively.

New assistant professors are Dr. Carole S. (Tracy) Orleans, promoted from associate in medical psychology, and Sally Ann Schafer, promoted from instructor in the School of Nursing.

Dennis, who earned his undergraduate and medical degrees from Georgetown University in 1962 and 1966, respectively, was an intern in medicine, 1966-67, and a research fellow in nephrology, 1967-69, both at Duke. He returned to Duke in

1972 as a medical resident and was appointed to the faculty as an associate in nephrology the following year.

Ellis fulfilled internship and residency requirements at Duke, 1963-68. He was appointed to the faculty as an associate in endocrinology in 1970. Since 1971 he has been medical director of the Carolinas' Camp for Children with Diabetes. Ellis is a 1959 graduate of Centre College of Kentucky and earned his M.D. degree in 1963 from Harvard Medical School.

Wesleyan University, Middletown, Conn., granted a bachelor's degree to Garbutt in 1958, and he was awarded an M.D. degree in 1962 by Temple University School of Medicine. He came to Duke as a resident in medicine in 1967 and was appointed to the faculty in 1971.

A 1966 Temple medical graduate, Pepe was appointed to the Duke faculty in 1972 as an assistant professor in the Division of Rheumatic and Genetic Diseases. He earned his B.S. degree in 1962 from

Albright College, Reading, Pa.

Kay holds master's and Ph.D. degrees in vertebrate paleontology from Yale University, granted in 1971 and 1973, respectively. He was a teaching assistant at Yale before being appointed to the Duke faculty in 1973 as an associate in anatomy.

A 1966 graduate of the University of North Carolina at Chapel Hill, Shelburne completed requirements for a Ph.D. in 1971 and an M.D. in 1972, both at Duke. He was appointed assistant professor of pathology here in 1973.

Orleans earned a Ph.D. in clinical psychology at the University of Maryland in 1977. During her graduate studies, she served a one-year internship in medical psychology at Duke, 1975-76. A 1970 graduate of Wellesley College, she was appointed to the Duke faculty in 1977.

Schafer earned a bachelor's degree in nursing in 1968 from Capital University in Columbus, Ohio, and an M.S.N. in 1974 from the Frances Payne Bolton School of Nursing at Case Western Reserve University. She was appointed to the School of Nursing faculty in 1975.

Retirees can study globetrotting

The Institute for Learning in Retirement is taking applications now for enrollment in a variety of courses next semester.

Among the 17 classes offered beginning Jan. 15 will be Conversational

French, Art History, Chemistry and Societal Problems, TV Production, Globetrotting, Dublin: The Early Abbey Theater, Swimming and Current Events.

Begun in 1977 with a grant from the Edna McConnell Clark Foundation, the institute now has 100 members who attend credit-free courses, and share the university libraries, dining halls, pools and other facilities with Duke students.

The cost of the program is \$104 per year and entitles participants to take as many institute classes as they wish, to have the Duke audit privilege and to obtain some student discounts.

There are no prerequisites for enrollment in the Institute for Learning in Retirement. Members come from careers in education, business, industry, homemaking, law and medicine. They range in educational background from Ph.D.s to those who did not complete high school. All have in common a sense of curiosity and the desire to share knowledge and experience.

For information about the institute or for an application for membership, call Leah Lefstein at 684-6259 or write to the Office of Continuing Education, 107 Bivins Building, East Campus, by Dec. 14.
