

NEW ROUTE—If you wondered how to get from the Bell Building to the Mudd Building (at left) after the PRT went into operation, wonder no longer. These steps are part of a newly-poured concrete walkway which goes under the PRT guideway. The temporary wooden handrails eventually will be replaced with permanent handrails. Duke Hospital North's bedtowers are partially visible in the background. (Photo by Parker Herring)

Dec. 15-29, 1978

The Medical Center Calendar lists lectures, symposia and other activities of interest to faculty, staff and students. Notices should be sent to Box 3354 no later than one week prior to publication. If last minute scheduling makes it impossible to send a written notice in time, please call 684-4148.

Friday, Dec. 15

12:30 p.m.

Biochemistry Seminar. Dr. Theodore L. Steck, Dept. of Biochemistry, The Univ. of Chicago, "The Organization of Proteins in the Human Erythrocyte Membrane," Rm 147, Nanaline H. Duke Bldg. Coffee at 12:15 in the lobby.

1 p.m.

Network for Continuing Medical Education (NCME). Programs on "Penetrating Wounds of the Abdomen: When to Operate," "Chest Radiographs: Expected Findings and Non-pathological Variations" and "Chest Radiographs: Pleural Fluids." View in Rm M406. (Previous NCME programs have been catalogued in the Medical Center Library and are available for viewing there.)

Monday, Dec. 18

12 noon

Pathology Research Conference. Dr. Kenneth A. Schneider, director of Hospital Labs, "Cholesterol Standardization SMA Instruments," Rm M204.

Wednesday, Dec. 20

1 p.m.

NCME. See Fri., Dec. 15 for programs. View in Rm M409.

Friday, Dec. 22

1 p.m.

NCME. See Fri., Dec. 15 for programs and viewing area.

Wednesday, Dec. 27

1 p.m.

NCME. Program TBA. View in Rm M409.

Code 5 phone number to change

The "Code 5" telephone call number will be changed to 115, effective Jan. 15, 1979, Richard H. Peck, administrative director of the hospital, has announced.

The change was recommended by the Medical Center Safety Committee to reduce confusion between the present number (119) and the fire and general emergency number (911).

The committee's proposal has been coordinated with the Department of Nursing Services, the Code 5 Committee chairman, Tel-Com and the Medical Center Safety Office, Peck said.

He also announced that the following actions will be taken prior to implementation of the change:

—Labels will be affixed to all telephones in patient care areas to indicate both fire (911) and Code 5 (115) call numbers.

—All departments will schedule in-service education on this change to ensure that personnel are fully informed prior to Jan. 15. All departments should

make a pen and ink entry in the telephone directory to change 119 to 115 for Code 5 calls.

—Tel-Com will tie the 119 and 115 lines together to ensure that calls on either line are received. This arrangement will continue until a revised telephone book is released in the fall of 1979.

For additional information, contact Robert Metcalf, 684-5405, or John Dooley, 684-5765.

Counce promoted to full professor

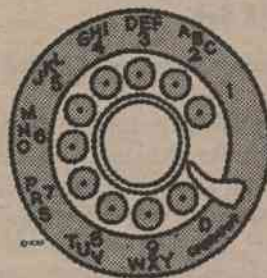

Dr. Sheila J. Counce has been promoted to professor of anatomy, according to Dr. Frederic N. Cleaveland, university provost.

Counce, currently on sabbatical leave in Sienna, Italy, is a genetic embryologist who has been studying the inheritance and development of various particles within cells that control cell function.

She also is interested in how internal secretions bring about sexual maturation of certain insects during their larval stage.

A 1948 graduate of the University of Colorado, Counce earned her M.A. there in 1950 and her Ph.D. in genetics at the University of Edinburgh, Scotland, in 1954.

She spent seven years as research associate at Yale University and two years in the same capacity in Duke's Department of Zoology before joining the Department of Anatomy as an associate in 1967.

Recipes reprinted

A cookbook featuring recipes contributed by some 300 members of the Duke community was so popular last year, it has been reprinted in time for this year's holiday season.

"Duke University Recipes," published by the Duke University Library Staff Association (D.U.L.S.A.) can be purchased for \$4 in the Reserve Room of Perkins Library. Copies also may be ordered by mail for \$4.90. Checks should be made out to the D.U.L.S.A., and orders should be addressed to Sandra R. Chambers, Reference Department, Perkins Library.

Among the medical center personnel whose recipes are included are Barbara E. Echols, coordinator of special and regulatory programs; Dr. Jeffrey J. Collins, assistant professor of surgery and microbiology and immunology; and Catherine O'Foghludha, Nearly New Shoppe manager.

Med Ctr Library hours

The Medical Center Library will observe the following holiday schedule:

Wed.-Thurs., Dec. 20-21, 8:30 a.m.-10 p.m.

Fri.-Sat., Dec. 22-23, 8:30 a.m.-5 p.m.

Sun.-Mon., Dec. 24-25, closed.

Tues.-Sat., Dec. 26-30, 8:30 a.m.-5 p.m.

Sun.-Mon., Dec. 31-Jan. 1, noon-6 p.m.

Tues.-Fri., Jan. 2-5, 8:30 a.m.-10 p.m.

Sat., Jan. 6, Resume regular hours.

CHRISTMAS SALE FOR KIDS—Cookie Brown (left) of the Duke House Staff Women waits on customers Carol Reilly and Deborah Senter during the organization's annual bazaar in the main lobby of the hospital. Proceeds will help furnish the pediatric floor of Duke Hospital North. Reilly and Senter are on the staff of Thomas D. Kinney Central Teaching Lab. (Photo by Ina Fried)
