

Rams List 21 Game Schedule Of Intercollegiate Basketball

Basketball will probably be the only intercollegiate sport at Southeastern this year according to a report from Coach Joe Nance.

"At present, Southeastern has a very attractive and demanding 21 game schedule. We play most of the other community colleges

in N. C. as well as some of the leading small colleges," he added.

Coach Nance also added that "probably the highlight of the schedule will be the Sandhills Invitational Tournament, December 27-29 at Southern Pines."

"The outlook for the new sea-

son does not look very bright since we only have three players (Robert Hurley, Glenn Allen, Larry Dailey) returning from the team that had only a 5-9 won-lost record in its first year of intercollegiate basketball. At the same time, there are several boys that will be attending Southeastern this year who should help us to improve upon our record of last year," he stated.

Southeastern's home games will be played in the Chadbourn Elementary School gym.

"Practice will probably start in early October since our first game is November 11. Anyone who is interested is encouraged to try-out for the team. There have been no players selected to the squad and everyone will have a chance to make it," said Coach Nance.

Girls P. E. To Be Separated

Mrs. Sondra Nobles, girls physical education instructor, has announced the coming year's activities for the girls physical education program.

Six different courses are planned for this year. P. E. 101-102-103 will be open to freshmen only unless special permission is received from Mrs. Nobles. This course for freshman is designed to improve body conditioning. It will consist of exercising, tumbling, and individual sports. P. E. 201-202-203 is open to sophomores only. This course sequence consists of team and individual sports, and dancing. Mrs. Nobles said that the courses are designed to give students a variation of activities.

Also new this year is the fact that girls classes will be separated from the boys except in dancing. Plans are being made for many outdoor activities. Bas-

ketball, volleyball, tennis, badminton, and ping pong are a few of the sports being planned.

Locker space will be provided for each girl in every class. Because of a lack of space, lockers will be necessary. Mrs. Nobles cautions all students to make sure they register for the correct course. To graduate, one must complete P.E. 101-102-103-201-202-203. These courses are all different so each quarter a student must make sure that she is taking the right course.

Mrs. Nobles is also making plans for tournaments and intercollegiate sports. She would appreciate knowing what type of games the girls would like to participate in. All students with ideas and suggestions are invited to discuss their ideas with her in her office in the Technical-Vocational Building.

Cosmetology Class Enrolls 15

Southeastern recently added a cosmetology course to its curriculum. Mrs. Betty Biggs an experienced beauty operator and instructor formerly with Troutman's Beauty School in Wilmington is the instructor. Mrs. Biggs said, "I love teaching cosmetology and look forward to the coming year." She feels that Southeastern's cosmetology program is a very good one.

The course consists of one year's study. The class is held from 8:30 to 4:20 on Mondays, Tuesdays, and Wednesdays and from 8:30 to 3:20 on Thursdays

and Fridays. The class has an enrollment of 15 students. The number of students enrolled in a class is limited by the state board.

The first quarter involves learning the techniques of styling and giving manicures plus textbook instruction. The students will practice on each other as well as on mannequins. During the second quarter, service will be open to patrons from the surrounding area. This service will be given in the afternoon only. Textbook work, patrons, and theory work will be done during the third quarter.

Sophs To Order New Class Rings

College class rings date back as far as the early 1800's and were created to provide an education symbol illustrating that the wearer was a college graduate. This educational symbol has gained heritage throughout the years at all institutions of higher learning. Today, college class rings, specifically designed for the school or institution with school seals, school mascots, Heraldry, State Seals, and other individual designs, provide an educational symbol of the highest quality that last a life time.

Southeastern has two rings, one

for the men and one for the ladies. The men's ring is 1 1/2 DWT weight ring adorned with the North Carolina State Seal and the Ram Mascot. Also, on the ring will be found the individual Degree and the date of graduation. For those not receiving a degree, the degree abbreviation is omitted. Students may purchase this ring with a smooth top or a cut stone in either a Ruby or Blue Spinel. Other options are choice between yellow and white gold and encrusted letters on the stone.

The lady's ring, a special designed symbol of beauty, has an oval designed base similar to a Dinner Ring. The name Southeastern Community College is around the base of the stone. The degree and date of degree award is engraved inside the band of the ring. Stone selection falls with the Onyx or Ruby stone. Optional election in the color of gold is yellow gold or white gold.

The price of Men's rings is \$30 and the ladies is \$26. Encrusted letters are \$3.50 per letter. White gold for men is \$2.00 and a Starfire stone is \$3.00.

A \$10.00 deposit must be placed with each ring order at the time it is taken. This is deducted from the total cost of the ring. A date for ordering rings will be announced later.

Chorus Plans Include Messiah

The SCC Chorus will begin rehearsals on September 19 for a Christmas presentation of Messiah by G. F. Handel.

Gary L. Zeller, chorus director, announced that the SCC Chorus would combine with the long-established Whiteville Messiah Chorus for a concert presentation of the work to be held in the Whiteville High School Auditorium. The date is tentatively set for the first Sunday in December.

Mr. Zeller stated that chorus will meet on Tuesdays and Thursdays at 3:30 p. m. He urged all students who like to sing to register for chorus.

32 SCC Graduates Transfer To Colleges in N.C. and Va.

Thirty-two members of Southeastern's first graduating class (June, 1967) are continuing their education at senior institutions in North Carolina and Virginia, according to information released by the Student Personnel Services Offices.

Pembroke State College heads the list with nine SCC graduates enrolled, followed by Wilmington College--5, East Carolina--5, University of North Carolina at Chapel Hill--3, Campbell College--2, St. Andrews--1, Fayetteville State--1, Appalachian--1, N. C. State--1, Wake

Forest--1, Virginia Union--1. The survey revealed that two students were undecided at the time.

Two technical graduates are now working in Washington, D.C. as secretaries with the C.I.A. at a GS-5 rating of \$5300.

Vocational graduates in welding, electronics, and mechanics are employed at Newport News Drydock and Shipbuilding and Aeroglide Corporation in Raleigh. A number of machinist graduates chose to go on to Fayetteville Tech as Tool and Die Working students.

Adult Ed. Serves 3000

SCC's Adult Education and Occupational Extension Programs during the past three quarters of the school year served 3,139 adults. These programs enrolled or served 8.72 per cent of the adult population in the College's service area for one of the highest averages in North Carolina. According to recent released reports, all the institutions of the Department of Community Colleges served 5.09 per cent of the adult population. Clifton A. McClelland, Dean of Adult Education, forecasts when all the reports are in for the year the percentage of the adult population served by SCC will exceed 9 per cent.

For the Spring Quarter, SCC's

adult and extension education programs had 428 full-time equivalent students to rank third in North Carolina.

The five most popular programs enrolling the most adults Adult Basic Education (reading and writing), 587; Business Education, 423; Homemaking, 408; Vocational, 401; Advanced Courses, 244.

The increase of this year (first 3 quarters) in enrollment of the Adult and Occupational Extension Programs over last year for same period is significant. The increase is 114.7 per cent. Also, the Adult Education Program had significant increase of 129.3 per cent.
