

BOB PRIEST

What's New In The Library?

What's new in the Library?

Many new materials have been added to the library's collection this year. A large collection of high-interest paperbacks is currently being featured on top of the Reference shelves. Covering all types of subjects from astrology to sports, these books may be checked out for the usual two-week period.

Did you know that the Library subscribes to over 300 magazines and newspapers? Every interest should be served by the variety offered—*Ebony*, *Mad*, *Consumer Reports*, *Science*, *Welding Journal*, *Today's Education*, *Ms.*, *Motor Trend*, *Art in America*, *Soviet Life*, *Nursing Mirror*, *Newswell*, *Golf Digest* and *Reader's Digest* are just a few examples. A couple of new ones you might not be familiar with are *Atlas World Press Review* and *Women Today*. *Atlas* magazine comes out monthly and includes some of the best articles from foreign periodicals. Get a new view on the news by reading this! It even includes cartoons from around the world—See if you can appreciate the humor of another country! *Women Today* is a information on laws concerning women, affirmative action, women's centers, job opportunities for women, etc. Find these and many others on the current

magazine shelves in the Library. Keep in mind that periodicals are not to be checked out of the Library, but there is a copy machine available. The charge is 10 cent per page.

The audio-visual collection has grown this year too. Come to the Media Room and ask someone to help you use the equipment there. Maybe you would like to see a presentation on "Religion: The New Directions," "Consumer Math," "Child Abuse," "Weather in the Wilderness," "Presenting William Shakespeare," "The American Indian," "Computers and Human Society," "Dirty Politics," "What Does it Mean to be Human," or "Woman: Her Future in the Community College." These are just a few of the new kits available—there are over 500 kits all together!

Hopefully, everyone knows that the SCC Library is open to the public. Students and faculty use their ID for a library card (be sure to bring it in with you!), and people from the community can get a special library card at the circulation desk and it is free.

"Stop by and see us. The Library is where the action is! Help us celebrate National Library Week, April 17-23—we'll have book marks and buttons to give away!" Becky Marlin, Librarian

A lot of people would say that Bob Priest is the little man that walks around the lounge all day with the little pipe and cup of coffee. Bob Priest is the head of student activities and student government. Priest is the man who sets up all your dances, cookouts and discos.

Right now he is engaged in getting students ready for S.G.A. elections.

Bob Priest is a counselor, not a college counselor, but if you ever have a problem or discomfort in mind pay Mr. Priest a visit. I'm quite sure that you will enjoy it. Dr. Moore feels

that Bob Priest has brought about many changes in our student activity program. Especially in getting students involved in many activities, and in taking pride in the lounge. Thank you Bob Priest for the fine job that you are doing.

Herbert Bell

SCC Basketball

The Rams basketball team tied for 1st place in the regular NCCAC season. This called for a coin flip to determine the pairings for the tournament. S.C.C. lost the coin toss and was forced to play on the road.

In the first game Southeastern defeated Lenoir Community College by two points. This pitted the Rams against Durham College. The Rams traveled to Durham and played a good game against a Durham team

that had all the odds in their favor. The officiating left a lot to be desired and S.C.C. came out on the short end of the score. Southeastern protested the game because of non certified officials that were used. After an investigation by the league, S.C.C.'s protest was upheld and the Rams were declared tournament champions.

This pitted S.C.C. In the Region X tournament against Louisburg College, a team that

had defeated Southeastern by 25 points in an previous game. S.C.C. played a good game and beat Louisburg. Southeastern then had to play Anderson College of South Carolina. The Trojans again ended S.C.C.'s season by a score of 107 to 89. Southeastern finished the season with a fine 18-7 record, with Robert Miles being named to the Region X team.

(Capricorn)

A new feature column will be presently for the enjoyment and reading pleasure of the students on campus. I will try to convey over to you general information, commentaries, and the happenings in the everyday world.

Any announcements, suggestions, or anything news worthy about campus life and off campus are gladly welcome. You can address notices to me in the mailbox. Thank you.

Here is a writing about that special person:

Across the Miles

Sitting here thinking of you
About the good times and the bad

The happy and the sad
Missing you.
I don't really know what to do
Your face—

A vivid picture in my mind
Wishing you were here or,
I there with you
The sweet smell of a passing cologne

In your arms so tender but oh so strong

To caress and smother me
With an imprint that will last forever and a day

Your lips to kiss me softly,
deeply and dear

For you to show me,
That you love me in the smallest and greatest of ways

Whispering gently in my ear
Words romantically spoken only for me to hear

Lifting my mind, body and soul

To great heights of emotional fire

Letting me know - that there is a beginning but no end

And thrilling me with such desire...

Across the miles, I reach out

and touch

Touching you with my heart
and love that is...

Not enough

—I may be a foolish dreamer
but someone is waiting for me
when I,

And only I return.

Self-awareness

There has been a great awakening in the 70's toward improvement for our inner self, respecting the next man climbing the ladder, and straying away from continuous arguing among our own people, blacks in America.

People changed with the times because if you were a "high-yellow" as they would put it, you were on top of the heap, similar to the bit part in the movie "Cooley High", where the young girl stood out in the crowd, every guy vied for her affection; therefore, if you were blacker than blue you had to get back and come behind 'em wagging a

tail. Also, if you had your hair nappy, kinky, curly, or even so far as to have it "knotty," everyone thought it was about time you got in there; washed, slapped some "grease" on it and fried that stuff. But, today it's the 'al natural' or whatever look appeals to you and your moods and dress.

A most drastic change to come about is calling someone "nigger" which is used both among ourselves and whites. Today, the word does not have such a caustic reaction, and is used very loosely and with undertones. But don't ever think its wiped out because it isn't, it's still remains.

Now, Black is beautiful and everything is everything. Satirical as it may seem, it is factual and a closed mind on any given subject is something we can do without.

But let us not forget that blacks have contributed greatly to America, and have advanced businessly, financially, socially and politically.

Congratulations Are In Order

To the students at S.C.C.: The students of RAM'S HORN would like to thank you for your cooperation in trying to keep our lounge at its best. I have been looking over the lounge, and I have seen a lot of improvement lately.

Also, I have seen Mr. Bob Priest walking around in the lounge, and the smile on his face really must mean that we are doing a good job. So let's keep the good work up and a smile on Mr. Priest's face.

Cathy O. Thurman
