

had anything to do with the obligation of wearing the SG card around the neck ??? By the time students rummage through all the various cards they have from Elon in order to find the right one, the polls have closed..... The posting of menus is a welcomed new service this year...they SOUND good; ...Speaking of menus, it seems to be a common opinion among the girls that heels and hot dogs don't add up to a fashionable Sunday night--and this is not baloney!...Is it true that size 37 was the rage in ladies' lingerie at the beginning of the year?.....Elon seems to be striving for the "new look" Added features include a new tiled floor in Alamance, lounge furniture in New Dorm, and a TV set to compliment the new furniture in the union. However, some students are never satisfied and have to add their own decorative elements such as footprints on the furniture and cigarette-burn patterns on the tile....In considering new appearances, there are plans being made for curtains in the union and the SG Office will have a face-lift sometime next semester....Orchids to the Liberal Arts Forum and chairman, Don Terrell, for the heart-warming movie, La Strada. The presentation stirred the emotions and minds of all...Let's hope that more of this type of program will be offered to us....Remember that SG Senate meetings are "open house" to all who are interested in listening to some spirited discussions. The finer points of Parliamentary Procedure may at times be "interesting". Note that the minutes of the meetings are neatly printed and posted for those who don't have the time to climb three floors to Society Hall on the second and fourth Wednesdays of each month...The Student Gov't Book Exchange was quite successful this semester. Students are urged to sell their books through SG--especially since "personal" sales cause cluttered bulletin boards.....To place among the great words of wisdom--"If you ever want to kill an idea, give it to a committee." Did you know that Elon actually even has a committee on Committees...? Are any of you wondering just WHO the Elon "Christian" is this year? So far, three football games have found three different derbied Deacons leading the crowd in cheers...perhaps this should be an elected position?.. and, concerning school spirit, criticize or compliment the cheerleaders to your heart's content, but remember that their efforts reflect those of the crowd.....To think about:"Drank" is the past tense of "drink", but, as a result, maybe "drunk" could be the cause of present tenseness...There is a second slogan for Homcoming this year.."Welcome back Class of 1889--this is STILL your school!" And as a final word about the gala weekend, the Keyword is "cram"...cram kleenex into chicken wire, cram in a moment for lunch...and cram for all the "Well-Timed tests"!!!!

#### HOT NOTES FROM HOOT

by Pete Smith

There was a 7 lb. 4 oz. frosted finned Foosh fish caught in the fish bowl on the second floor of the Science Bldg. Bait used was unborn Wombat embryo. This "aqua mother" caught by that friendly fisherwomen, Sue Rudd, is a sure winner in the annual College Pond and surrounding ponds fishing contest 12 Freshmen who wore their beanies with pride and spirit will be rewarded for such merit. Walt Disney will present them with gold rodent ears for their beanies, and make them lifelong Mickey Mouse Clubbers. A supply of Swiss cheese will be an added attraction. Hail raunchy rodents!

Ah! Isn't love stoking? As we see certain steady twosomes meandering about the campii, we can't help but wonder do they or don't they? That is, do they, or don't they read MOTHER GANOOCH'S GAZETTE?

Speaking of magnificent magazines, the new, super stoking, extra hooty all time issue of the Surfer is out.

Ribald humor: The missing statue in back of Alamance has turned up in Red Square. A super school-spirited student has given himself to the cause, and will, be dunked in molten bronze and fill in for the "missing marble mother Hats off to this dandy dipper, Jim, Pigeon, Perch, Poel.

\*\*Hoot!! The fabulous, stokingest sport in the universe, surfing, is getting a grand grip on Elonites. Hang ten, walking the nose, Quasimoto, and HOOT! are everyday words. A wave machine will be installed in College Pond so that the super stoked don't leave for surfer's heaven, S. Calif. Hang on hooters, the surf will rise again.

Hollywood Scoop!! Our own "Little Egypt" was Liz Taylor's second in Cleopatra, the Naughty of the Nile". Ho those rootin retinas; they put a jinx on the Sphinx.

Galaxy Gannoch: As Tiger Terrell gazed up at the heavens the other night, he witnessed Orion taking a swig out of the Big Dipper. His date, Greta Gallilio was inspired to poetry: Star light, star bright  
Don't sweat the minute meteorites  
It may be mean and green,  
But you're right and white.

Can it be that Elon will undergo a name change since the Oak tree was found to be the fiend of the forest? Some new names submitted are: Gunzar--
