They're telling this one about a salesman passing through a small town who had several hours to while away. Seeing one of the townspeople, he asked:

"Any picture show in town, my friend?"

"Nope, not a one, stranger."

"Well, is there a pool room or bowling alley?"

"Nope."

"What form of amusement do you have here?"

"Well, come on down to the drug store," the man said. "There's a freshman home from college."

SIX FULL HOURS (Tune: Sixteen Tons)

Some people say a teacher is made out of steel;
Their mind can think but their body can't feel.
Iron and steel and hickory tea,
Frowns and gripes from 8:40 to 3.

You teach six full hours, and what do you get?
Another day older and deeper in debt.

You pay your dues in this and that,
Then for 19 days your billfold's flat.

I was born one morning when it was cloudy and cool;
I picked up my register and headed for school;

I wrote 44 names on the home-room roll,
And the principal said, "Well, bless my soul."

I got 44 kids and 32 seats;
Twenty-eight are talking while 16 sleep.

I can hardly get 'em all through the door,
And if I don't watch out they'll send me more.

The last bell rings and I start for the door;
My head's ringing and my feet are sore;

I taught six full hours, and my day made,
But I still have 100 papers to grade.

You teach six full hours and what do you get?
Another day older and deeper in debt.

I'll go to St. Peter, but I can't stay,
I gotta come back for the PTA.

Young Women's Christian Association

Young Women's Christian Association Continues Its Program of Activities

Throughout the school term the Young Women's Christian Association has busied itself with a program designed to embrace not only campus and community work, but also work of a much wider scope.

Now, as the end of the school year approaches, the YWCA finds itself still busy with the work of completing the program of activities which it set as its goal at the beginning of the term.

From time to time the entire group is called upon to give aid in shaping the policies of the Association, but most of the actual work is done through the various committees. Many of the committees have done outstanding work in their efforts to realize the objectives of the total YWCA program. The project which was begun early in the year by the Community Committee, under the leadership of Lucille Young Parker, is being continued with a show of greater enthusiasm, in that in addition to collecting old newspapers, the Y members are now rolling so as to facilitate their handling for benefit of the Fuller School.

The Program Committee also continues its work through discussions of topics pertinent to the life of college students. One of the more popular discussions has centered around the topic of "Boy-Girl Relationships," a topic on which, by request, an open forum will be held before the end of the school term.

Another topic in the planning stage for discussion centers around the issue of "Desegregation." Discussions are a means of giving students a chance to do some real thinking on the problems of understanding themselves as persons, and their relationships with other persons both specifically and generally. Naomi Graham heads the Program Committee.

This year the YWCA is joining with all other campus organizations in sponsoring the World University Service Fund Drive. Interest in this project was stimulated through visits to our campus by Miss Gurdip Singh from India, and Miss Medeori Sasoki from Japan. Through their chapel talks the fact was made plain that there is still great need for aid among students in other parts of the world, and with strained world conditions creeping nearer to the breaking point, it becomes more apparent that "Their Future is Our Future."

Delores Miller and Barbara Burke, co-chairmen of the World Affairs Committee, are responsible for any success of the appeal to every student to give to this drive in order to help insure our own future against a world of chaos.

Not only does the YWCA seek to have the Christian principle undergird its total program, but it also devotes a proportionate part of its time to a program of religious activities as such. This is done through such activities as observing Day of Prayer, well planned worship services at both cabinet and general meetings, and sponsoring services during the Lenten season.

This year the YWCA is sponsoring the tenth annual Lenten program, with many other campus organizations taking an active part in preparing the services. The responsibility for the over-all planning of the religious phase of the work rests with Norma Jean Johnson, chairman of the Worship Committee.

The latter part of the school year brings thoughts of conferences. The State Conference held at Bennett College was attended by Velma Lavender, Delores Miller, Norma Jean Johnson, Betty Payne, Margaret Canady, and E. Louise Murphy, the advisor. Delores Miller was elected co-chairman of the Planning Committee which has the duty of making plans for next year's conference. At this Bennett conference, Miss Frances Williams, a former YWCA secretary, stimulated the thinking of the more than 50 delegates through her discussions which centered around the general topic: "The Relation of Our Struggle for Human Dignity to the World Struggle for Freedom." The Regional Conference which will be held in June at Berea College, in Kentucky, will have the challenging theme: "Christian Students and Our Revolutionary World." Preparations are being made to send representatives to this very important conference.

All of the work of the YWCA is not on the serious side, since recreation has been a part of each general meeting where prizes have been awarded for skill at playing
