ARITHMETIC

Take your age; multiply by 2 add 5; multiply by 50; subtract 365; add the number of folks in your family; add 115. The first figure or the first two figures will be your age, and the last two figures will be the number of folks in your family.

What Do You Have To Say?

Willie Genora Black

What do you have to say about your college, its campus, and the atmosphere? We, the Fayettevillian Colleagues, are very proud of our college. It is a place situated and designed for every lady or man's happiness. With the well-balanced curricula and our outstanding, well-informed instructors, we are sure that upon graduation, we will succeed in helping the present instructors pattern the behavior of children toward desirable ends.

We are very fortunate to have a twinkling brook bisecting our

beautiful campus. It adds life and more attraction to our campus beautification.

It is not always that you find an atmosphere so conducive that it is adjusted to coincide with your moods. Candidly speaking, you cannot help feeling a part of the college family upon entering the gate to our campus. So visit us very soon and let us share our hospitality with you.

I hope you had a wonderful Easter Holiday and with all my heart, I am wishing you a most pleasant summer hoping that you will join us next year.
