The Recession

JAMES A. SUTTON

If only the Recession were really the world in which we live! You will probably ask yourself, just what does he mean? I will do my utmost to explain.

As the close of the Founders' Day program, when the band started playing Elgar's "Pomp and Circumstance," the thing that impressed me most was the interracial group that rose to leave the Seabrook Auditorium. For on their faces one could see no looks of bigotry or prejudice, but only a look of security.

As I looked at the many faces file by, I could only speculate as to what the world would be like if it followed the example set by our Recession. One people working together for the benefit of ALL. This part of our Founders' Day program made a lasting impression on me.

School Examinations

A college student while taking an examination was asked to compose one verse of poetry including the words "analyze" and "anatomy." This is what he wrote: My Analyze over the ocean My Analyze over the sea Oh, who will go over the ocean And bring back my Anatomy.

"Mother, what does 'apt' mean?" inquired Dot, returning home from school.

"Why, my dear, it means 'smart — quick to learn. Why?'"

"Oh, nothing much," said Dot airily. "The teacher told me today I was apt to flunk."

An interjection is a sudden explosion of mind.

A myth is a female moth.

A spinster is a bachelor's wife.

The Pilgrim Fathers were Adam and Eve.

Water is melted steam.

An oasis is a futile spot in a desert.

A Goblet is a male turkey.

Paraffin is the next order of angels above the Seraphim.

Blizzard is the inside of a fowl.

Extempore is a disease in dogs.

An epicure is a poet who write epics.

Nearly at the bottom of Lake Michigan is Chicago.
