

**A Note From "Ott"**

The lack of participation in intramural activities at Fayetteville State College is of great concern to me. What is the problem, students? Intramurals are designed for those students not participating in varsity activities. The program offers flag-football, basketball, a cross-country run, volleyball, tennis, and softball. Flag-football had only six participating teams. Basketball showed a remarkable increase. Only two teams passed in rosters for volleyball. Why is this, students? Fayetteville State College is growing. Why not help the school? A school is no more than what you make it.

One can simply read about the intramural programs at other schools. Some of these schools value the program more than they do the varsity athletics. Let's get on the ball, people. Let's make soft ball and tennis go over with a "bang." If you don't play, then offer your support by attending these activities.

The BRONCOS need your support. The tennis, baseball, and track teams need your support. Support your school and its sports.

**Faculty Pulls Upset**

The men's faculty basketball team pulled an "upset" against the intramural "all-stars". The shooting of Mr. Harvey Jenkins and Dr. T. Chao proved to be too much for the all-stars. Jenkins burned the nets for 22 pts. and Chao added 14. George Blount scored 16 pts. and "Ott" had 11 pts. to lead the all-stars.

The faculty took an early lead and never gave in. The all-stars looked as though they would catch up at one point, but Jenkins and Chao curtailed their threat.

**Scoring:**  
Faculty: Jenkins 22, Chao 14, Brown 2, Hunter 6, David 1, Saunders 3.  
All-Stars: Blount 16, Ott 11, Elder 2, Graham 1, Gardin 3.

**\$50,000 ACADEMIC**

Scholarship Fund Drive. Thus, following the Scholarship Dance, the James Brown Show is scheduled to be the next major event in the Fund Drive. If not before April 27, 1966, then indeed after this date, it should be abundantly clear that the Day Students Organization of the school year 1965-'66 means absolute business. Although concerned about worthy causes for some time, this school year proved to be the one in which this organization became really involved in a worthy cause. Did you know that it is one thing to be concerned about a cause and a different thing to actually be involved in the bettering of that thing?

At this point, it is with wholehearted appreciation that I, on behalf of the Day Students Organization, thank and commend those of you who have given us your moral and financial support in the Fund Drive. You demonstrate by your support that we are united in our concern for the advancement of the educational process in our nation. Moreover, we are united in our involvement. Let us remain united.
