

Radio Questionnaire

GET ON THE MAIL LIST BY RETURNING THIS PAINLESS QUESTIONNAIRE

WFSS, Fayetteville's Public Radio is gearing up for its power increase. Yes, WFSS will begin broadcasting on a 100,000 watt frequency very soon and will then have a 30 mile radius. We must begin making plans to provide the kind of programming Fayetteville wants to hear from its public radio. After all public radio is your radio. You can help us by answering a few questions about your own preferences.

It should come as no surprise to you that WFSS will be soon start to look for financial support — to get us started and keep us going. Our support will come from our members, corporate and business gifts, foundation grants, individual donations, etc.

We are not asking you for a donation now. We are, however, asking you for a pledge of support and for your views on the way WFSS can best serve Fayetteville and the surrounding areas. Please take the time to answer these few questions and return your answers to us at the address given at the end of this questionnaire. If you've already made a donation, thanks again! We'd still like to hear from you, of course.
