Only One Student's Opinion

As I approach the end of my first semester here at Fayetteville State University, I find myself confronted with students who feel like the University does not have adequate learning material and the University does not prepare them properly for the world of work. In essence the University isn't holding its end of the bargain.

As I take a good look at the student who made the comment, I find the student has poor study habits and hardly ever brings in his/her homework.

Knowledge is not something that is inherited. You have to have excellent study habits and

use the materials that the university can offer.

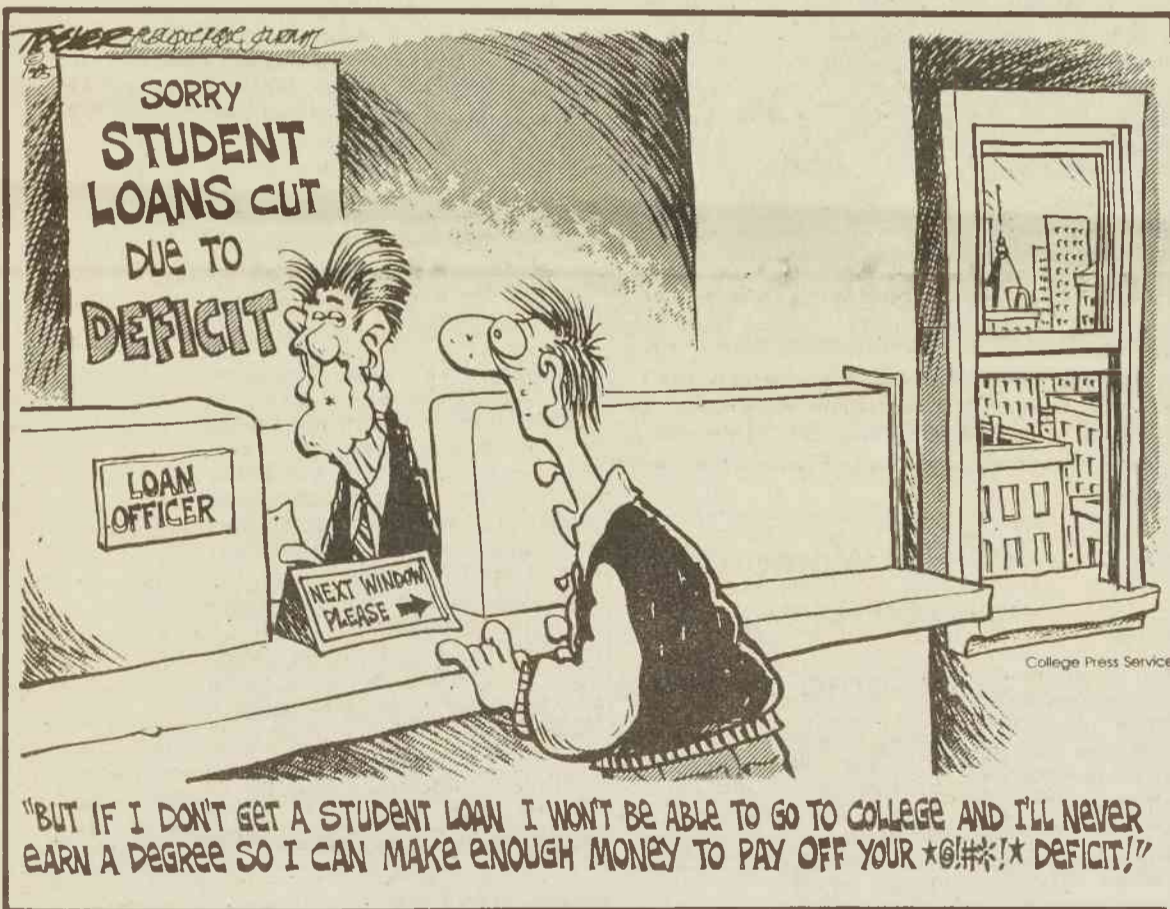

First of all, I would like to say that the university has an excellent leader. A leader with high standards for academics. If the students would just follow the leader or try to match his standards of academics, they will find that Fayetteville State University is one of the finest universities in the state. Fayetteville State University has one of the finest tutorial services anywhere mainly because it has students like you and me helping each other to become better individuals. The faculty at Fayetteville State University is dedicated not only to teaching

the student during the respected time frame but, even one on one with students in their offices that to me is a sign of a commitment to see that each and every student is properly prepared.

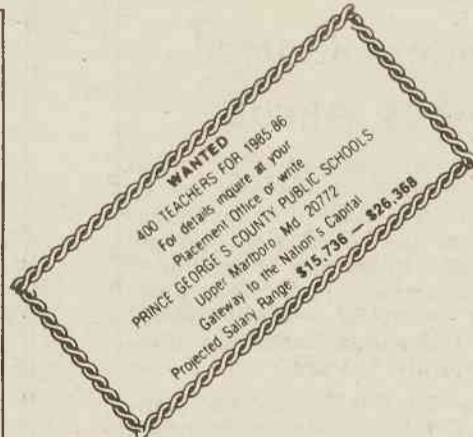

You as a student must take advantage of some of the finest resources here at the university and apply yourself totally toward your studies and to becoming a better person. As I conclude to say Fayetteville State University is ready but, are you ready for Fayetteville State University.

This is only one student's opinion.

Concerned Student

"Heidi, you've been brushing your teeth for 15 minutes. Is this guy another pre-dent. major?"

Oh! Beloved Africa We Care

We the children of today
Must find the route, the perfect way
To do away with starvation
To banish it in all nations.

So America has devised a scheme
To reachout to those who are in need
Together we'll turn stone into bread
So hungry ones can be fed.

Many people are in poverty
Who need our help, our liberty
The more we give, the more we're blessed
Let's sacrifice and give our best.

If we believe then we can't fall
Lets give our hearts, our all and all
By making such a sacrifice
We are saving other lives.

People are people no matter who
We each need love and compassion too
Some of us have been blessed with wealth
Lets use these funds to be of help.

Why don't we all join hands and give
And make this world a better place to live
Lets reach out without holding back
And give from our hearts to those who lack.

Africa needs all of our support
Lets give them that and even more
Divided we fall, together we stand
We can make Africa a more fruitful land.

If we believe then we can't fall
Lets give our hearts, our all and all
By making such a sacrifice
We are saving other lives.

Lets exile people dying in the streets.
Because they haven't any food to eat
We have the answer, we have the key
Our contributions can make this cease.

What a blessed nation of people we are
We set our goals and reach for the star
We'll stop at nothing and achieve what we plan
In order to give Africa all that we can.

God is so pleased with this inner drive
He is sure to bless our every strive
Lets keep on moving, we've come so far
Its because we keep pressing, we are who we are.

If we believe then we can't fall
Lets give our hearts, our all and all
By making such a sacrifice
We are saving other lives.

Africa we love you and we do care
We want you to know that we are here
You are our brothers and sisters alike
Whatever your problem, also our plight.

When this great work comes to an end
Your country will be blessed with many millions
For these are the dollars we plan to raise
To make Africa a more prosperous place.

God is good and God is great
Your destitute he'll take away
Your agriculture he well surely bless
Increase your joy and happiness.

We will help the U.S. too
Ten percent will go to whom it's due
May God bless Africa now and always
And may their future hold brighter days.

If we believe then we can't fall
Lets give our hearts our all and all
By making such a sacrifice
We are saving other lives.
