News n' Notes
Pepsi's out**

So much for the taste of a new generation. No longer will Pepsi be served in the Capel arena. Reportedly the company has reneged on one to many deals with the FSU Athletic department. The new sponsor will be Coca-Cola. In addition to bringing new taste to campus, the company (coke) will assist in the funding of FSU's new track.

I only have two questions surrounding the issue, one of which is on the available spacing for the track. If any of you have taken a spin around the track you'll notice it seem's rather small for the proposed 8 lane facility that will satisfy all NCAA specifications. FSU's current track is roughly 17.4 feet. Yes, I measured it myself. Will they expand and if so where? The bleachers on the away side are set in a concrete base, while the other side has murchison road at it's back. The second question is, will Coke do the track in company colors (red and white) or will we get it in school colors (blue and white)?

**STUDENTS TICKETS
AVAILABLE FOR CIAA
TOURNAMENT**

The Central Intercollegiate Athletic Association (CIAA) Board of Directors has approved the issuance of a student ticket to its annual tournament. The 1997 tournament will be held at the LJVM Coliseum in Winston-Salem, North Carolina on February 24-March 1, 1997.

Beginning this week, discounted tickets will be available for purchase by students attending one of the CIAA member institutions. Tickets will be sold through their campus ticket outlets at a price of \$42.50.

According to Dr. Harrison B. Wilson Chair of the CIAA Board of Directors, "the CIAA wishes to share the excitement of the CIAA tournament with our students by encouraging their attendees who come each year to the tournament. We wish to share that heritage with our future CIAA alumni by offering an affordable way for our students to purchase a ticket."

CIAA students are encouraged to contact their campus ticket offices of athletic departments for additional information.

the drastic changes needed to bring ourselves back now, and it's not likely we will, then we must accept this tempestuous world on the very terms we have set for it and as responsibly as possible. You might think you are reading this magazine is just about hip-hop culture. Please believe me when I tell you that this kind of information interaction is about the future of your world. If you empower yourself with the information that we attempt to bring to you, may find that the power to change your world will become that much easier. And please remember, it isn't about any one magazine, book, television show, or expert. Realizing your power is about the thought process-using your mind. Being an intellect-driven person is something which will change you from a reactionary victim into a proactive leader. And if you lead right, you'd be surprised at how many people just may follow your example. Love yourself.

dages is the reason for the brown paper bags we use today.

✓ that the 34th president of the United States, Dwight D. Eisenhower, had a mulatto mother? His mother, Ida Sloner Eisenhower, half-black and half-white, married a German immi-

grant David Jacob Eisenhower. Technically, this would make President Eisenhower a quadron. What is it they say about one drop of "Black blood?"
