

BRONCOVOICES

By Krystal McDaniel, Voice Staff Writer

KYSAUNDRA DORRIS

Major: Communication with a concentration in speech

Year: Junior

Hometown: Colorado Springs, Colo.

Why did you pick FSU?

Well, I really didn't want to come here, I wanted to go to NCCU or Shaw. My senior year my mother ended up getting deployed to

Iraq and my dad was left with my younger brothers. I didn't want to leave my family so I just ended up going here.

Is there anything on campus that's coming up that you plan on attending?

Not really, there hasn't really been too much going on around campus.

What do you plan on doing with your education from FSU?

I want to get my bachelors degree in communications/speech. Then I want to get my masters in speech and language pathology and end up teaching speech and theatre in a college or university

What do you like about FSU?

Umm, I like the small classrooms. You get to have that personal interaction with your teacher.

What would you change about FSU?

Wow I have a whole bunch of things. We need more teachers in the communication major. There were a lot of classes I heard about last year that I wanted to take, but they weren't offered because they didn't have teachers for them.

ARIANNA PEDRO

Major: Business Marketing

Year: Sophomore

Hometown: Maryland

Why did you pick FSU?

I chose it because it's close to home. I didn't have enough financial aid to live on campus, but I like living off campus.

Is there anything on campus that's coming up that you plan to attend?

I plan to go to one of the games, because I haven't really been to one.

What do you plan on doing with your education from FSU?

I plan to start my own business and start my own hair salon. They're separate not the same!

What do you like about FSU?

I like that it's small and it feels like family, compared to bigger universities.

What would you change about FSU?

The parking! You have to get here early to get a good parking spot and then you have to walk across the campus to get to your class.

TRAVIS BOATWRIGHT

Major: Radiology

Year: Freshman

Hometown: Spring Lake, N.C.

Why did you pick FSU?

I chose FSU because, well first I was going into Fire Science because it's one of the best programs here, but then I changed my major.

Is there anything on campus, that's coming up that you plan on attending?

No, not really. I live off campus, so I just basically come here and when I'm done I leave.

What do you plan on doing with your education from FSU?

Well I'm transferring to ECU to get advanced education in this field.

What do you like about FSU?

The people here are nice.

What would you change about FSU?

Nothing, I like it the way it is.

BRONCOSCOPES

By Monique Vaughn, Voice Photo Editor

VIRGO (August 23 – September 22) Your emotions have gotten the best of you, and may cause you to lose out. Try focusing on something more important.

LIBRA (September 23 – October 22) Someone you know very well, is doing something very sneaky behind your back. Be careful, remember, to trust no one, is to trust everyone equally.

SCORPIO (October 23 – November 21) You will not find your future husband or wife in the palace. You are looking for love in all the wrong places. Be patient and love will come to you.

SAGITTARIUS (November 22 – December 21) Start a diary and write your inner most details in it. Don't dwell on uncontrollable circumstances. Life is too short.

CAPRICORN (December 22 - January 19) Stop letting your personal life interfere with your professional life. Those same problems will be there when you get out of class and/or off work.

AQUARIUS (January 20- February 18) Your quick comebacks make it hard to have a civilized conversation. Watch what you say to people, not everybody reacts the same way.

PISCES (February 19 – March 20) If you've been to the club every week since school started, you may need to chill on your clubbing. Get some work done.

ARIES (March 21- April 19) Just when you think things are going good, life throws you lemons. Better hope you have a pitcher, some sugar, and a stand to sell some lemonade.

TAURUS (April 20 – May 20) You need to grab more ambition and get those good ideas rolling. Remember, some of the most "common" people have the most unique ideas.

GEMINI (May 21- June 21) You can't seem to tell which side is up these days? Be sure to take some time out to enjoy life. All work and no play leads to an angry man or lady.

CANCER (June 22 – July 22) Living your life full of regrets will get you nowhere. Though you have made mistakes in life, you can't change the past, so why fret on it?

LEO (July 23 – August 22) School just started and you want a vacation already? Take a mental one and go to sleep early sometimes.
