

MEN'S continued from page 10

Outside opinions can't stop this team from improving and working smart and hard to earn their next win, especially since they have done it before.

"The ones who were here last year are hungry, and are the ones who had success last year and want it to happen again," said head men's basketball coach, Alphonso Kee.

At practice the men work hard together learning new plays and work on preventing past mistakes from occurring in future games. This past game the team showed improvement with both their turnovers and rebounds.

"The half-court defense needs to improve," says Coach Kee, with a serious face, but quickly admits that he has a great group of guys and that by the time CIAA tournament comes around, the team will be ready to compete.

"We're having our ups and downs, but we're working out the kinks," said senior center and forward, Sheldonte Fields who had three offensive rebounds in last week's game.

"We just need to come out ready to play and to get the victory," said senior Seth Hawkins.

Fans may notice how the intensity of the game increases as the clock runs out, the last two minutes of the men's game seems to always be the best part. But for the supporters of the team, it is a very tense time. However, these are the moments that the team enjoys the most.

"If you love basketball, then those are the times you play for," said senior guard Jarmel Baxtor.

The team's next home game is next Saturday, Feb. 4 at 7:30 p.m. against St. Augustines.

As for any clues on how the rest of the season will play out for the men, they have only one way thing to say to their fans.

"Don't leave until the clock runs out!" exclaims Mr. Hawkins.

Who is your favorite team, and who will play in Super Bowl XLVI?
