Drake's new single "Motto" has been a hot Twitter trending topic over the past several months. The

single's featured chorus, which contains the acronym Y.O.L.O., "You Only Live Once" has made it into the everyday language of young people everywhere, but what exactly does Y.O.L.O mean

to one's morals?

Students from Fayetteville State University were asked the following questions: Is Y.O.L.O important or not to you? Do you apply it to your life?

"It doesn't mean anything to me. People only believe it means "You Only Live Once" because a rapper said it and made it sound good. It doesn't affect the way I live my life or my morals because although you only live once you also have to be smart about decisions."

"Yes, because it's like every young man's motto for life. You only live life once so you should do everything you want to now. It's more of a lifestyle for young and hip-hop."

"Yes and no. If you do stupid stuff then you're going to get a negative outcome, but as far as taking adventures, yes."
