

# THE IMAGINOUS

Is this thing on? Welcome back to the spring semester people, a final semester for some and a step toward completion for others. For those of you who are wondering where to go from here, consider your involvement with an organization. Are you a worker or a participant? Have you conquered tasks, built a resume and more importantly left impressions worthy of recommendation?

If you can't answer yes to all of the above, you my friend are a participant. A spectator who has no real angle in your cause other than as a tick on your resume. Please be mindful that regardless of how many people know your name, if you can not perform when your name is on payroll, you will be dismissed. "We've decided to go another route," doesn't mean you should download mapquest, it means pack your things and check out the classifieds. *filed*

Nevertheless, I encourage everyone to find their place. Find that one thing that gets your creative, educational, and logical juices flowing and go with it!

On another note it is Women's month and as a woman it is my personal mission to be the best person that I can be. I do not fear the unknown, only the things I neglect to uncover.

I invite all those interested in learning to use real world skills, communication and time management to join The Voice Student Newspaper. We are For Students, By Students but we hope to train individuals

for professional careers! Again, I challenge everyone, women and men to be about it--talking about it is only half the battle! *You mad?!*

So with 33 days and counting till graduation I bid you adieu!

No flash photography please,

*Aisha Murphy,  
editor-in-chief*
